Lowell Men Receive Commissions at Reserve Officers' Training Camp at Plattsburg

PARKER TUCK, Captain

GEORGE WILKINS, 1st Lieut. (Infantry)

LINCOLN CLARKE, 1st Lieut. (Infantry)

HAROLD E. DWYER, 1st Lieut. (Infantry)

ROSWELL B. WHIDDEN, Captain

Two Captains, Three First and Thirteen Second Lieutenants—Appointments Will Date From August 15—Lowell Men Who Did Not Secure a Commission May Attend a Second Camp

The announcement of the appointments of officers from the Plattsburg training camp has just been made and it is found that Lowell young men are creditably represented on the list of successful candidates. Fourteen men from Lowell proper and four from surrounding towns are the figures which go to make up Lowell's showing.

The young men were informed of their appointments by the commanding officer at Plattsburg today and their commissions are to date from August 15. Two captainships were secured by Lowell men—Parker Tuck and Roswell B. Whidden. The other appointments consist of three first lieutenants and 13 second lieutenants.

The Lowell men left this city for Plattsburg last May and have been working and studying strenuously for three months. Their work has been of the quietest kind and folks at home have heard little or nothing of just what they were doing. However, there is little doubt but what they have learned a great deal about military matters and when the time comes for the great National army of drafted men to be called to concentration camps there need be little fear but that competent officers will be on hand to instruct and advise them in the important art of waging war.

The Lowell boys will leave Plattsburg for home Tuesday afternoon. Following are the names of men from Lowell and suburban towns who have been given commissions in the infantry section, officers reserve corps:

CAPTAINS

Parker Tuck, 10 Vermont st., Roswell B. Whidden, Huntington and Sherman sts.

FIRST LIEUTENANT

George C. Wilkins, 18 Ware st., Lincoln Clarke, North Billerica

SECOND LIEUTENANT

Hammond Barnes, 30 Huntington st., Herve D. Parthenakis, 515 Merrimack st.

Arthur F. Woodles, 74 Gates st., James J. Mullins, 40 Oak st., Ralph H. Colburn, Dracut

Joseph A. Molloy, 447 Bridge st., Gerald F. Bennet, 104 Pleasant st., Ralph R. Melton, 1888 Middlesex

Edward W. Martin, (Battery), No. Tewksbury

George O. Robertson, (Quartermaster), 470 Andover st., Lemuel F. Conley, 59 Tolman av

Edward F. Feltley, No. Chelmsford

Fred F. Spaulding, 1016 Middlesex st.

PARKER TUCK

Captain Parker Tuck, son of Mr. and Mrs. Edward M. Tuck, of 19 Vermont street, was born May 18, 1880,

and received his early education in the public schools of this city, being a graduate of the Lowell high school. He attended Harvard college after which he took up the study of criminology at the University of Lausanne in Switzerland, but returned to this city shortly after the European war broke out. He attended the military training school at Plattsburg last year and the year before.

ROSWELL B. WHIDDEN

Capt. Roswell B. Whidden is 25 years old. He is a graduate of the Lowell high school and of the Harvard university, class of 1915. He was prominent in military affairs in the high school. His father, the late Clarence W. Whidden, was president of the Central Savings bank. Roswell was employed in a big aluminum works in New Jersey before going to Plattsburg.

LINCOLN CLARK

First Lieutenant Lincoln Clark is the son of Mr. and Mrs. Frederic S. Clark of North Billerica. He is a graduate of the Volkman school of Boston and of Harvard university, class of 1916. He was a member of the First Corps Cadets for four years and was always interested in everything pertaining to the militia. He applied for second lieutenant and the fact that the commission awarded him was that of first

lieutenant is splendid evidence of his success at Plattsburg.

HAROLD E. DWYER

Harold E. Dyer, appointed first lieutenant, is married and resides at 43 South Loring street. Lieut. Dyer has always been prominent in local military circles being a member of Co. K of the National Guard for a number of years. At the time of going to Plattsburg he was first sergeant of this company. He was a member of the shooting team of the company and was also prominent in military athletics. He was a star player of the local Y.M.C.A. basketball team for a number of years and was identified with practically all the athletic activities of that institution. An interesting fact in connection with Lieut. Dyer's appointment is that he became a father since going to Plattsburg. His homecoming, therefore, will be a doubly happy one.

GEORGE C. WILKINS

George C. Wilkins, one of the three Lowell men appointed first lieutenant, is the son of Mr. and Mrs. Alfred W. Wilkins of 16 Ware street. He is 21 years of age and at the time of going to Plattsburg was studying in Harvard university. Lieut. Wilkins has had abundant military experience. He received his early education at the Highland grammar school, now the Charles W. Morey school. He entered the Lowell high school in 1909 and

throughout his whole course was prominently identified with the school regiment. In his fourth year he was appointed colonel of the regiment. He was graduated from the school in 1913 and returned the next year for a post-graduate course. In 1914 he entered Harvard university. In 1915 he was appointed captain of Co. D of the Reserve Officers' Training corps at the institution and the next year was captain of Co. E, the crack company of the university. He was at the Plattsburg camp two years.

GEORGE O. ROBERTSON

Second Lieutenant George O. Robertson is the son of Mr. and Mrs. John L. Robertson, of 470 Andover street, and was born March 19, 1892. After graduating from the Lowell high school he entered the Lowell Textile school, taking up a course in wool manufacturing and graduated with honors. Up to the time of his going to Plattsburg he was working with his father and uncle, The Robertson Co., in Prescott street. He attended the military training school at Plattsburg last year.

HAMMOND BARNES

Second Lieutenant Hammond Barnes is the son of Mr. and Mrs. Henry W. Barnes of 30 Huntington street, and was born March 10, 1891. He is a graduate of the Lowell high school and attended Dartmouth college, at

Continued to page four

MANY CLAIMING EXEMPTION

Eleven Out of 13 Passed in Division — Four Claimed Exemption

Two Aliens Anxious to Serve — One is a Veteran of the Boer War

Out of 19 men who were examined by the physician of the exemption board of division 4, this morning, 13 successfully passed the physical test, while six were rejected. Of the 13 who passed, 11 filed claims of exemption, one stated he would not serve, while the remaining two who are anxious to serve Uncle Sam are two aliens, one a native of Canada and the other born in Greece. Three of those summoned to appear failed to report, while three others, who were aliens, refused to be examined.

The two aliens who cheerfully had their names placed on the roll of honor are Donat Gervais, a native of Canada, 21 years old, and residing at 150 Ennells street, and Yurilios N. Marathos, a native of Greece, 23 years, and residing at 381 Adams street. The latter is a veteran of the Boer war and has been in this country but three years. He was married in Lowell six months ago. Mr. Marathos has a schoolmate in this

BIG GAINS FOR THE ALLIES

While the entente guns are still hammering the German lines in Flanders with a fury apparently equal to that of the original bombardment, the infantry has not been entirely inactive. Today important gains by both the British and the French, on a seven mile front taking in Westhoek and Bixschotte, are reported.

Germans Driven Out by British

British troops last night finished the task of driving the Germans from the town of Westhoek and likewise cleared them from the lines they still were clinging to on the ridge near the town. This forward movement gives Field Marshal Haig a far better grip on the section of line immediately east of Ypres. The French, on their front near Bixschotte, advanced east and north of that place, adding to the gains they had recently effected in this sector. Silence from the British side regarding the advance on a seven mile front taking in Westhoek and Bixschotte, are reported.

Fine Work by Canadians

Not only in Belgium but along stretches of the Arras battle front are there evidences of pronounced activity by the entente armies. On today reports extensive raids by the British east of Monchy in the Arras area, and day by day reports come in of the notable work by the Canadians before Lens.

Germans Active

The Germans resumed activity last night in a region that has seen little fighting of importance recently. On a mile front north of St. Quentin where the French re in the devastated area evacuated in the von Hindenburg retreat last spring, an attack was launched in the region of Eperlecques. The attack pressed back a few of the French advance forces occupying weak points in the centre, but elsewhere was halted off by the fire from the French trenches.

Entente Warships Busy

On the Channel—des Dames, on the Alsine front, there was likewise a German attack between the Pantheon Farm and Epine des Chevrengy. A hard fight occurred here, but no permanent impression was made upon the French trenches. Some minor attacks in other sections also were repulsed. Entente warships have been busy along the Asla Minor coast and a news agency dispatch today reports a bombardment during which British monitors silenced a Turkish battery and destroyed an airdrome.

Courtesy All the Time

The spirit of gratefulness towards our customers is fully developed in us and for that reason we endeavor to show our appreciation by courteous treatment, not once but all the time.

We would look upon it as a helpful action if you would notify us of the slightest inattention or want of courtesy on the part of any employee, for only thus can we hope to make our store service a real service. Won't you help us to efficiently serve you?

BUILDING HIT BY LIGHTNING

Lightning struck the two story building at the corner of Middlesex and Grand streets, owned by Sam Roster, at about 3:20 o'clock this morning causing one half of the roof, about forty feet square, to collapse and drop to the second floor. Owing to the heavy downpour of rain and the large amount of water which had collected on the roof before it col-

lapsed shortly after the bolt struck he building the stores on the ground floor were flooded with water.

The second floor, which is occupied by the Highland Daylight pool parlors and bowling alleys, is a wreck. Fortunately the accident did not happen at night or else a number of people would in all probability have been killed.

The extent of damage has not been estimated but will be large, while the damage done by water to the stores on the street floor will be no small item.

The building which is two stories high with a flat roof has a frontage of about 75 feet on Middlesex street and about 30 feet in Grand street and as previously stated the second floor is used for pool and bowling. On the street floor are Harry Gan, shoe repairer, Nathan Welsenberg, clothes cleaner; Thomas J. Fitzgerald, cigars and tobacco and John T. Murphy, barber.

Louis J. Lord, who is interested with Mr. Fitzgerald in the tobacco business and bowling and pool parlors, and his family, occupy a tenement on the Grand street side of the building and the lightning struck a shed in the rear of a room occupied by one of his children.

Mr. Lord left his apartment about 5:15 o'clock this morning to open the cigar store and had just entered the place when there was a flash of lightning and a roar of thunder and upon investigating Mr. Lord found that the lightning had struck one of the chim-

neys and that half of the roof had collapsed.

In a very short time the water found its way into the stores on the street floor. Word was telephoned to the fire department and the members of the protective company spread rubber covers over the goods in the stores and cleared out as much water as possible, but it proved to be a difficult task with the rain coming down in torrents.

The first group of the new quota, which will number 66 will report for examination Wednesday morning at 8:30 o'clock and the examination will be resumed at 2:30 in the afternoon. On Thursday 56 more men will be examined and on Friday the remaining number, 65, will be taken care of.

The second quota called for contains the following names:

- | | |
|-----|---|
| 201 | 3162-Tony Silver, 75 Summer. |
| 202 | 2586-Guy Edward Drury, 44 Banks. |

BRITISH LABOR CONFERENCE

Party Votes to Send Delegates to Stockholm Consultative Conference

Vote 1,046,000 to 55,000—Conference in Uproar When Announced

LONDON, Aug. 10.—The conference of the British labor party held at Westminster today voted to send delegates to the Stockholm consultative conference by 1,046,000 to 55,000. The conference was in an uproar which ended only when the result of the card vote was announced.

Important Session
LONDON, Aug. 10.—An important conference of the labor party will be held at Westminster today to decide whether British labor shall be represented.

\$3000 VOTED FOR THE LOWELL SOLDIERS

The members of the municipal council met in the mayor's reception room this morning for the purpose of approving monthly bills, and incidentally they voted to expend a sum not to exceed \$300 for the demonstration to be given the Lowell soldiers when they are given the Lowell soldiers' duty. The money to be taken out of the general treasury.

The bills were looked over and all approved and then Mayor O'Donnell asked the members of the council if it was their wish to vote a sum of money for the celebration to be held in this city next Thursday in honor of the Lowell soldiers who are now on duty. The mayor stated that the public safety committee in charge of the celebration will need about \$1750, \$750 for the transportation of the soldiers to this city and \$1000 for the luncheon to be served them at the armory.

His Honor stated it is expected about 900 men will come to Lowell next Thursday and this number may be increased to 1000 for letters were sent to the commanders of the various military posts asking them to give the Lowell boys in their command a day off next Thursday for the purpose of attending the demonstration. He asked the council to vote a sum of \$300.

Commissioner Brown favored the proposition and said he believed the amount voted should be sufficiently large. He suggested that \$2000 be voted in order to be on the safe side. He was voted to authorize the public safety committee to expend a sum of money not to exceed \$3000, the money to be taken from the general treasury fund.

EX-PRES. TAFTS CONDITION

CLAY CENTER, Kas., Aug. 10.—The condition of former-President William H. Taft, who is ill at a hotel here, apparently was unchanged early this morning. Continued statements that there seemed "little to fear" in the patient's condition were made early today by Dr. Morgan, his physician.

SCORES KILLED BY EXPLOSION

LONDON, Aug. 10.—An explosion and fire in a big chemical works in East London last night wrecked the building and killed or injured scores of workers. Thirteen bodies of women so far have been rescued from the ruins. A large number of injured have been treated at the police stations and other convenient places. Bodies are still being searched for.

PRESIDENT SIGNS FOOD BILLS

WASHINGTON, Aug. 10.—The administration food control and food survey bills were signed today by President Wilson and became law.

DRY YOUR CORN INSTEAD OF CANNING IT

Within the next few weeks the sweet corn in thousands of gardens will be maturing. Not all of it will be eaten, some of the surplus will be canned and some will be allowed to ripen.

The inexperienced canner will find some difficulty in canning corn. Even the veteran canners often suffer serious losses. This loss can in a large measure be avoided by drying at least a part of the surplus. Those who are accustomed to eating good dried corn will agree with us when we say it is superior to canned corn. Also it is more nutritious because in canning the corn should be young and tender, while for drying it is best if taken just as it passes from the milk to the dough stage, or just when it has passed its prime for roasting ears. It is, therefore, more nearly mature and consequently possesses more food value. This does not mean that corn cannot be dried when young and tender, but that it is better if taken as directed above.

The corn is prepared for drying by husking, followed by a blanching of five to ten minutes or it may be cooked the same as if preparing for the table. After dipping into cold water the corn is cut from the cob in thin slices making at least three slices to the depth of the kernels to insure getting all the corn. The slices should be scraped with the back of a knife. Do not cut off the ends of the kernels and then scrape out the pulp of the kernels as is often recommended for canning. This method will give a sticky gummy mass which is more difficult to dry than when the kernels are cut in thin slices. The smaller the particles, as long as they do not adhere together to form masses, the more rapidly the product will dry.

The actual drying may be done in any one of many ways. If the weather is fair it will dry in about three to four days if spread on clean cloth in the sun. A piazza roof or shed roof sloping to the south makes an excellent drying place. Lacking these, a temporary platform may be made, using boxes or stakes for supports. When exposed in this way it should be protected from flies and other insects by a covering of mosquito netting. When thoroughly dry the corn will be hard and will rattle.

As a matter of insurance against insects corn dried in the sun should be placed in pans and put into the oven where it is stirred occasionally, being careful not to heat enough to burn. If a thermometer is at hand have an oven temperature of about 150-160 degrees F. and leave the corn in until thoroughly heated, 10 to 15 minutes.

When cooled sufficiently it may be stored in paper bags, coffee cans or other simple containers which are insect proof and should be stored in a dry place.

Corn dried in the open air should be protected from the dew and should not be wet by the rain.

For some purposes it is desired to hasten drying. The kitchen range oven may be utilized as an evaporator. If the corn is placed in shallow pans or in a fine meshed screen frame and set in a warm oven it may be dried in a few hours.

Do not place the corn more than 1/2 inch deep in the pans or trays, and stir it occasionally in order to dry it uniformly.

In drying corn or any product in an oven the door must be left open a few inches so that the air may circulate freely. The temperature should be watched carefully as a high temperature will cook rather than dry. The temperature of the oven can be regulated somewhat by opening the door wide if the heat becomes too intense. A temperature of 160-170 degrees F.

will dry the corn rapidly and will give a high grade product. In order to be sure that the corn is dry enough to store the beginner might try this. Fill a fruit jar partially full of corn. Place a piece of cracker on the corn and fasten on the lid. If after standing for several hours the cracker is still crisp the corn is dry enough to store. If the cracker is moist the corn is not dry.—Mass. Agr. College.

MOTORMAN A HERO
Motorman Thomas LeClaire of the Bay State Street Railway Co. by prompt action Wednesday night, saved the life of a child who had run onto the track in front of his car. The incident occurred in Lawrence street and the car, one of the extras from the U. S. Cartridge Co., was filled at the time. At a point near Cady street the child ran out across the tracks. Motorman LeClaire reversed the power but was not able to bring the car to a stop before reaching the child. He jumped in front of the car and succeeded in pulling the child out of the way of the car.

LOWELL SOCIALIST CLUB
The weekly business meeting of the American branch of the Lowell Socialist club was held last night at 35 Central street. Routine business was transacted and one new member was admitted. Next Monday night William E. Sprague will speak at the corner of Jackson and Central streets, with Henry Rouke as chairman. These meetings were reported as successful from the amount of interest being manifested. The next meeting will be held Aug. 16.

AMERICA ADOPTS TAG SYSTEM TO IDENTIFY MEN OF THE ARMIES

Like most European nations, the United States has adopted the method of identifying soldiers shown in the

accompanying picture. The little metal tag or medal suspended from the soldier's neck is stamped with his number and the number of his regiment, so that identification may be made easily if necessary.

CANOBIE LAKE PARK
Jesse L. Lasky in association with David Belasco, will present at the Canobie Lake Park theatre for tonight and tomorrow, the picturization of Belasco's supreme hit, "The Woman," by William C. DeMille.

"The Woman" contains a fascinating combination of political and domestic intrigue. Jim Blake is the boss of one of the great political rings at Washington and is doing his utmost to pass a bill that will wrongly favor the railroads. He is opposed by a young reformer by the name of Matthew Standish. The sympathy of the public is so clearly with Standish, that Blake sees his bill will be doomed to failure unless something can be done to discourage his opponent. He hires detectives and discovers that there was once an affair between Standish and a woman when they did not marry. With this to work on Blake makes a tremendous effort to get the woman's name, and the story and have it printed in a leading newspaper.

This is a positively one of the strongest, finest and most sympathetic American photo dramas ever produced. As an extra attraction for next week the management of the swimming pool has secured "Noble" vaudeville's prettiest mermaid, and she will give exhibitions at the pool afternoon and evening.

AT LAKEVIEW CHAPEL
The musical program at the 10 o'clock mass at the Catholic chapel at Lakeview on Sunday will be as follows: Hymn to the Sacred Heart, Choir. O'Saturis, Mr. John Spillane. Solo, "Like a Burning Fire," Mr. Francis Cassidy. Hymn of Praise, Choir and Congregation.

The soloists at the 5.30 mass will be Mr. Edmund Connelly, white Miss Leona Spillman will preside at the organ at both masses.

WHOLE POPULATION OF ARMENIANS WILL BE EVACUATED

PARIS, Aug. 9.—A despatch to the Havas agency from Hazebroeck says it is learned there that the whole population of Armenians will be evacuated. No details are given.

INSISTS GERMANY PAY NEW DRAFT NUMBERS FOR LOWELL MEN

LIMA, Peru, Aug. 10.—The chamber of deputies unanimously approved the energetic attitude of Dr. Francisco Tudela the foreign minister in handling the case of the Peruvian bank Lorton.

The Peruvian government yesterday refused the offer of the German government to submit the question of the sinking of the Lorton to a prize court. The government declared the sinking was unjustified and insisted that the German government pay for damages and make an indemnity.

"Lady Lookabout"—"The Spelbinder" and "Quarter of a Century Ago" articles now appear in the Sunday Supplement of The Sun published each Saturday.

Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulished coconut oil, for it is pure and entirely greaseless. It is very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

SUSPEND RAILROAD WORK NOT NEEDED TO HELP WIN THE WAR

The railroads' war board has addressed a plea to public service commissions and all state, county and municipal authorities throughout the United States, urging co-operation with the railroads in a suspension during the war, of all efforts not assigned to help directly in winning the war.

To the State Public Service Commission, State, County and other Municipal Authorities:
The American Railway association's special committee on national defense now co-operating with the government to further the successful prosecution of the war respectfully invites your consideration of the following suggestions as means to facilitate the efforts of the committee:
The present emergency has imposed upon the railroads a very unusual strain in transporting men, food, coal, munitions and materials in augmented quantity. This burden, while cheer-

fully undertaken, requires every ounce of energy, every unit of rolling stock, every dollar of capital, every bit of supplies and coal which the railroads can command.

It is the opinion of this committee that all efforts not designed to help directly in winning the war should be suspended during the period of the war. Indeed, this is obviously the thought of President Wilson in his appeal to the country on April 16, 1917, which included the following statement:

"It is evident to every thinking man that our industries must be made more prolific and more efficient than ever, and that they must be more economically managed and better adapted to the particular requirements of our task than they have been."

Therefore this committee earnestly recommends that during the war the railroads be required by the public authorities to make improvements and carry out projects involving the expenditure of money and labor only when they are absolutely essential for war purposes or public safety. The prevailing high interest rate on money, the difficulty of raising money in competition with the tax free issues of the government, the excessive cost of supplies and labor, the delay in obtaining material, the possible blockage of traffic and the diversion of la-

bor all contribute to make non-essential construction undesirable during the war.

The committee considers that the erection of new stations, elimination of grade crossings, are among the non-essential improvements which should be deferred at this time. We respectfully suggest that the basis for consideration of new projects at this time should be the increase in the capacity of the carriers for national service.

Furthermore, we urge your co-operation in eliminating all passenger service which is merely convenient and not justified by public necessity during the present emergency situation.

"Richards." The Sun's own Washington correspondent and other noted writers from the nation's capital are regular contributors to the Sunday supplement of The Sun published each Saturday.

ORDER LOCAL BOARDS TO REDUCE DISCHARGES

WASHINGTON, Aug. 10.—Wholesale claims for exemption from the army draft, reported from many sections, caused Provost Marshal General Crowder to telegraph the governors of the states last night directing that local boards "reduce discharge for dependency to a far more restricted class and to very serious and clearly defined circumstances."

In some districts as high as 80 per cent of the registrants called for examination are filing claims for discharge on the ground of dependent relatives. Such a condition indicates, Gen. Crowder said, that the advantage is being taken of the regulations designed to protect men who properly should be exempted from military service and actually threaten to interfere seriously with the raising of the national army.

Gen. Crowder's Message

The message to the governors follows: "Section 2 of the selective service law exempts no person from military service on the ground of dependency. It only authorizes the president to exclude or discharge from draft those in a status with respect to persons dependent upon them for support which renders

their exclusion or discharge advisable. "The controlling necessity is to raise an army. It is advisable to disturb dependents just as little as the necessity of raising an army will permit. To this end, section 18 of the regulations was compiled carefully and after the most earnest consideration. If experience is to prove that the generous conditions prescribed by section 18, or any others of them, will interfere with the raising of an army, then it is no longer advisable to discharge so wide a class and the conditions stated therein will have to be restricted until an advisable rule is reached. "Nothing has happened to change the belief that the persons enumerated in section 18 should be discharged without interfering with the raising of an army, but there are indications that abuse of section 18 may render its continuance no longer advisable. "Reports are to the effect that, in some districts as high as 80 per cent of persons called before local boards are filing claims for discharge on the ground of dependent relatives. Such a percentage of claims, when viewed in connection with all available statistics, indicate beyond question that advantage is being taken of the provisions of the law and regulations which were intended to reduce to a minimum the misery at home normally attendant upon war."

Many Claims Unfounded

"There is a moral certainty in the extravagance of this percentage that hundreds of unfounded claims are included in these totals. "This state of affairs greatly increases the burden of local boards, for, if so high a percentage of registrants claim exemption, only the uncompromising action of local boards can prevent a new regulation on the subject of dependency to a far more restricted class and to very necessary and clearly defined circumstances. "In the absence of a stern repression by local boards of unfounded claims, this result is inevitable, since any such percentage of exemptions as reports of claims indicate would nullify the law and prevent the raising of an army. "It is thus apparent that the filing of these improper claims will react directly and injuriously on persons whom the present regulations were designed to protect and that the welfare of persons who have filed bona fide claims of the regulations is seriously imperilled by persons who have filed claims without merit, and that the only protection of persons whose cases are within the meaning of the present rules, lies in the power of local boards to refuse exemption in every doubtful case. "It is thus apparent that the filing of these improper claims will react directly and injuriously on persons whom the present regulations were designed to protect and that the welfare of persons who have filed bona fide claims of the regulations is seriously imperilled by persons who have filed claims without merit, and that the only protection of persons whose cases are within the meaning of the present rules, lies in the power of local boards to refuse exemption in every doubtful case."

Body of Little Alice Bradshaw Found

ST. JOHNSBURY, Vt., Aug. 10.—The body of Alice Bradshaw, the little cripple believed to have been murdered July 5 because she was a bother, was found last night on the border of a small swamp about a mile from her father's house, in Lyndon. The discovery was made by E. A. Gray, who was moving along the edge of the swamp, after organized search for a missing child, virtually had been abandoned. According to Gray, the body had not been covered by earth or brush and was seen readily as soon as he had cut down the tall grass. Search for the little girl was begun on July 6 after the county officials had stated that Miss Eliza May Hicks, housekeeper for John Bradshaw, the child's father, and Mrs. Alvina Hicks, her mother, had killed the child because she was a bother. The two women have been under detention in the local jail since then and, according to the officials, have made contradictory statements. "It was dusk last night when the girl's body was discovered, and it was in such a condition that it could not be told from a preliminary examination what had been the cause of death. The body was removed at once to undertaking rooms in this town. A strict guard was placed about it and pending the outcome of the examination by the county medical examiner and other officials all information was withheld. Alice Bradshaw was left a cripple as

MITCHELL'S AUGUST SALE OF SUIT ENDS

\$15, \$18, \$20, \$22 SUIT ENDS

MADE TO ORDER FOR

\$12.00

These are actual reductions in all Suit Ends gathered in the course of the season from regular goods—cut for window display or last of stock sold up—including blacks and blues.

My August Sale is noted for the extraordinary bargain opportunities it has offered for the past nine years until now: it has become an institution of value giving, second to none in the minds of this great community.

This is Red Letter Week in the custom tailoring history of Lowell, and any man or young man, who needs anything in my line for this season or early fall, come in, pick out one or two suit patterns and let me make them up at this price. I usually have a wholesome regard for the cost price of my merchandise, but at this time of the year, I am satisfied to take a considerable loss on the balance of suit patterns still on my tables to effect a complete and positive clearance. Any man who wants an all wool guaranteed suit made to his order can come here now this week and buy it for nearer nothing than he has any right to expect. But the number is limited—SO DON'T WAIT.

BLUE SERGES

GUARANTEE EVERY SUIT CUT FROM THESE GOODS IN REGARDS TO COLOR—Future purchases are doubtful.

Several months ago for spot cash I bought enough serges to supply my demand for the year 1917—and spring of 1918. I have them in my store now, thousands of yards. I can wholesale these goods today at a profit of 90 per cent without putting a shear into the cloth; I will not sell them wholesale I want them for my customers, I WILL.

I have selected one number from this lot and called it a \$15 suit for the next six days. This is a WANSKUK BLUE SERGE, FALL WEIGHT, guaranteed in every way or a new suit; you and I may never see the day when this quality sells as cheap, it means a saving of \$7.00 to \$10.00 a month later on—THIS IS A SPECIAL.

ORDER NOW—You can have your suit ready in a week or you can leave it for two months.

Says Plant Juice

Is So Wonderful

A Lowell Man Relates That the New Stomach Remedy Gave Him Instant Relief

Plant Juice, the new herbal stomach remedy, brings the sunshine of health to a poor body which has lingered in the winter of sickness.

ANTONIO CANDELLO.

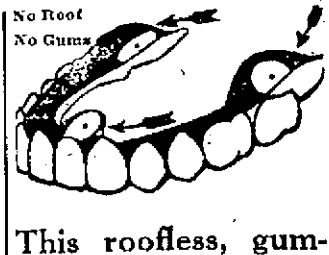

Many local men and women who have been suffering from stomach disorder, with its accompanying distressing symptoms have felt the sunshine of good health, as their numerous testimonials show. Mr. Antonio Candello, of No. 153 Appleton Street, Lowell, who is employed in the B. & M. Ry. shops, recently gave the following signed statement:

"I have been troubled with my stomach for some time, was constipated and always had a sleepy, drowsy feeling with no ambition or energy to do anything. I was so nervous I could not sleep at night and had headaches constantly. My liver was affected, which made me very dizzy at times, and I was completely run down. I had taken all kinds of medicine but nothing gave me any real benefit until I started to take your Plant Juice. It gave me almost immediate relief, and now I am able to eat all of my meals and enjoy them. I sleep well and am not so nervous. I am feeling the best I have in years and am glad to give this endorsement for Plant Juice."

Plant Juice acts almost like magic in stomach trouble, gas, fermentation, heavy, distressed feeling after meals and on retiring. It attacks and destroys all poisons in the blood, corrects diseased conditions of the liver and kidneys and restores them to normal condition. The Plant Juice Man is at Dows, The Druggists, in Merrimack square, Lowell, where he is daily meeting the local public, and introducing and explaining the merits of this remedy.

Dr. Hewson's Dental Treatment guarantees you mouth comfort, ability to chew and to smile pleasantly.

This roofless, gumless plate is an exclusive feature of Dr. Hewson's Dentistry.

Dr. Hewson's Dental Offices have been established for 22 years. All treatments are guaranteed by written warranties.

OPPOSE SENDING MEN TO RUSSIA

WASHINGTON, Aug. 10.—Emphatic disapproval of the suggestion that American troops be sent to the eastern front was brought home by all except one of the members of the American mission to Russia.

It was authoritatively stated last night that Charles Edward Russell is the only commissioner who believes it desirable to put soldiers from the United States in Russia, and that the others are convinced that their presence would be detrimental rather than helpful to the armies of the new democracy.

Elith Root and his assistants on the mission, touched with Secretary Lansing yesterday and told him of their experiences and conclusions. Their written report, submitted to President Wilson, probably will not be made public.

Organization and encouragement and not men, it was explained last night, are Russia's needs. In the opinion of the majority of the commissioners, With 10,000,000 men under arms, they think Russia requires no more soldiers; particularly, she does not need a few thousand strange soldiers, speaking an unfamiliar tongue, drawing better pay and eating better food than her own men. As an aid to actual fighting, it was pointed out the small number of American troops that could be maintained in Russia would be of little or no value.

Lending assistance to the men now in the field rather than putting more men there, to drain the already scant supplies is the duty of this country, the commissioners feel. Rolling stock for the railroads to carry supplies and equipment to the native soldiers, and the supplies themselves are the real requirements.

Of the greatest importance, the commissioners say, is constant encouragement from citizens and the newspapers of the United States. Anti-American propagandists, headed by former residents of this country, and now financed by Germany money, are seeking to paint Americans in the blackest shade and thus discourage Russians from accepting their good offices. The story of the origin of this extraordinary propaganda is vouched for by every member of the commission. Shortly after the outbreak of the revolution, it is declared that propagandists, composed chiefly of socialists, for-

vorable to abolishing all present forms of government and establishing without delay rule by the Brotherhood of Man, returned to their native land and began berating the United States and its people. Germans, quick to see the advantage of controlling these agitators, began supplying them with money, and today, flush with wealth, they are going through Russia spreading the most vicious canards.

One of the commissioners, discussing these men, said last night he could only explain their attitude by their never having become an integral part of the United States citizenry. Many of them, it is understood, lived in the congested foreign sections of New York and seldom came in contact with American citizens.

Cholera morbus is putting on its kicking clothes. Don't be without a bottle of Dows' Diarrhoea syrup in the house. All druggists.

CARPENTERS THREATEN GENERAL STRIKE

NEW YORK, Aug. 10.—Threats that every union man engaged on government work would strike within a few days unless demands of the Carpenters union for a closed shop on government contracts are met, were made by spokesmen of the union at a conference here yesterday with representatives of the war and navy departments and contractors. The union leaders declared that if the strike is called more than 50,000 men will quit work.

Although another conference will be held today, the negotiations last night were said to have included an offer by

the union to admit all non-union carpenters into membership without initiation fees. According to the union leaders, carpenter work on 30 army cantonments, two port terminals, several aviation camps and the New York navy yard is affected. It was claimed that about 3000 carpenters already are on strike at army cantonments near New York. The carpenters demand the immediate discharge of all non-union carpenters from federal work or the cancellation by the government of contracts with all firms employing such labor. At present, it was said, only eastern territory is involved in the specific discussions, but union leaders said they would make a nation-wide affair of it unless their demands are met.

Let wisdom put you on the right track, and you will never be without a bottle of Dows' Diarrhoea and Cholera syrup.

for which he took up the study of cotton manufacturing and had been employed as an overseer in the weaving department of the Massachusetts mills. He attended the military training school at Plattsburg last year.

JOSEPH A. MOLLOY

Second Lieutenant Joseph A. Molloy, son of the late Charles H. Molloy, of 417 Bridge street, was born May 26, 1899. After attending the public schools in Lawrence he went to St. Anselm's college in Manchester, N. H., and after graduating from that institution entered the undertaking business with his father. He attended the officers' training school at Plattsburg last year.

JAMES J. MULLANEY

James J. Mullane, appointed second lieutenant, is the son of Mrs. Anne T. Mullane and resides at 48 Oak street. Lieut. Mullane is 25 years of age. He is well known in Lowell. He received his preliminary education at the immediate Conception parochial school and the Lowell high school. He was graduated from the latter institution with the class of 1917. While in high school he was a captain in the school regiment. Upon the completion of his course at high school he entered the Lowell Commercial college and later was appointed to the United States census bureau at Washington. He afterwards took a course in dentistry at Tufts Dental school and upon finishing this accepted a position with the U. S. Corbridge Co. as an inspector in the finished shell department. He was also a member of the O.M.I. Cadets for many years.

GERALD F. BEANE

Second Lieutenant Gerald F. Beane is the son of Mr. and Mrs. Thomas J. Beane, 104 Pleasant street. Lieut. Beane, when in high school was a member of the regiment and was also commander of the O.M.I. Cadets. Upon graduation from high school he took up newspaper work, and worked for a time as reporter for The Sun. Later he was employed on a Nashua paper, and it was while there that the Mexican trouble became acute, and men were called for border service. On June 21, 1916, he enlisted with Company M. When the company arrived at Framingham he was appointed company clerk, with the rank of corporal. The company left Framingham on June 26 and arrived at El Paso, Texas, July 1. After three

months' service on the border, the company returned home. Shortly after Corp. Beane was made supply sergeant, and when the National Guard companies were requested to send men to Plattsburg to train for commissioned officers, Capt. Christian selected Sergt. Beane.

HERVE D. PARTHENAIS

Herve D. Parthenais was born in this city 29 years ago. He is the son of Charles Parthenais, a former Lowell business man now located in Montreal, Que. The young man received his early education at the Bartlett school and later studied at the Montreal seminary, where he graduated with honors at the age of 18. He graduated from the Massachusetts College of Pharmacy in 1909, and passed the examination of the Massachusetts board of pharmacy. He is connected with several local fraternal organizations, including the C.M.A.C. and Club Lafayette.

RALPH R. MELLOON

Second Lieutenant Ralph R. Melloon lives at 1688 Middlesex street. He is the son of Mr. and Mrs. John C. Melloon. He is a graduate of the Lowell high school, Bowdoin college and the Amherst Agricultural college. At Amherst he received the gold medal awarded by the state for being the best drilled man in the institution. He is 25 years old and has always been very much interested in military affairs. In high school he was one of the majors of the school regiment. He was graduated with the class of 1916.

ARTHUR F. WOODIES

Second Lieutenant Arthur F. Woodies is the son of Mr. and Mrs. Fred Woodies of 74 Gates street, and was born in 1891. He graduated from the Lowell high school, after which he attended the University of Vermont, Dartmouth college and Bryant & Stratton's Business college. He is an able newspaperman and has worked on the Springfield Union and Lowell Courier-Childen, and prior to going to Plattsburg was on the editorial staff of The Lowell Sun.

LEANDER F. CONLEY

Leander F. Conley, appointed second lieutenant, is the son of the late Leander F. Conley, who died about two years ago. Mr. Conley, Sr., was well known in local mill circles as he was for over 30 years an overseer in the Lawrence Manufacturing Co. Mrs. Conley is still living at 89 Tolman avenue. Lieut. Conley is favorably known here in Lowell. He is 23 years of age and received his early education at the Pawtucket grammar school. Upon the completion of his studies there he entered the Lowell high school and later attended the evening Textile school.

ARTHUR F. WOODIES, 2nd Lieut. (Infantry)

HERVE D. PARTHENAIS, 2nd Lieut. (Infantry)

JAMES J. MULLANEY, 2nd Lieut. (Infantry)

is 23 years years old and the son of Mr. and Mrs. John R. Martin of North Tewksbury. He was born in Lowell and educated in the public schools. After graduating from the Moody grammar school, he entered the Lowell high school and graduated with honors in the year 1918. He then entered Harvard college, and when the military course was added to the curriculum he was among the first to enroll. He was training with the college corps when the call for Plattsburg was issued.

wood is about 23 years of age and is a graduate of the Lowell high school and gives his residence as York, Me. Of late he had been employed by the American Woolen Co. at Fitchburg, Mass.

ATTEND SECOND CAMP

A number of other Lowell young men took the officers' training course at Plattsburg but were unsuccessful. These men will not have worked in vain, however, as they will be given an opportunity of attending a second camp and their experience ought to render it a simple matter for them to obtain the coveted commissions even though they will come belatedly. Another reconciliation is the fact that the men who were unsuccessful in becoming commissioned officers will be made non-commissioned officers and will have an opportunity to work up to a commission. Stick-to-itiveness is the one quality which the men need to maintain.

THE MAYOR WRITES TO COLONEL LOGAN

Mayor James E. O'Donnell has sent a letter to Col. Edward L. Logan of the Ninth regiment, M.N.G., requesting him to allow the members of Company M to come to Lowell next Thursday to participate in the parade and reception to be held in their honor under the auspices of the public safety committee. The mayor has also invited the colonel and his staff to participate in the festivities as the guests of the city of Lowell.

The letter sent to Col. Logan is as follows:

Col. Edward L. Logan, Ninth Infantry, Massachusetts Inf., M.N.G., Camp Devens, Framingham.

Dear Colonel Logan: Please accept my apology for not keeping my appointment with you yesterday afternoon. A terrific storm made it impossible for us to go over the road, and there were no adequate train accommodations.

The matter concerning which we desired to consult you is this: The city of Lowell has set aside Thursday afternoon, next, Aug. 16, as soldiers' day, when all business is to be suspended and a reception tendered to all Lowell soldiers in the service, who are now encamped in the vicinity of this city. It is proposed to have a parade and review followed by a dinner to the boys, and the city will furnish them transportation to and from their respective camps. We are desirous to permit Company M to come to Lowell on that day, we shall obtain also the permission of Col. Sweetser of the Sixth and Col. Howes of the Second Field artillery to allow the Lowell companies of their respective commands to attend. Incidentally, we hope to be honored by your presence and that of your officers as the guests of the city of Lowell on that occasion.

We shall not require the presence of the company until 2:30, and shall send a special train to Framingham for them in ample time to get them here at that hour. We shall send them back to camp by special train sometime around 3 o'clock so that they will be at their posts at the usual relieving hour.

Will you kindly notify me as soon as possible, if we may expect Company M and yourself and staff, on that occasion?

Respectfully,

James E. O'Donnell, Mayor of Lowell.

The mayor has also sent a letter to the commanders at the Charles-town navy yard, Commonwealth Pier and Naval Reserve in New London, asking them to give the Lowell men who are in their commands a furlough on Thursday, Aug. 16 in order that they may participate in the celebration, the city to pay their traveling expenses and to care for them during their stay in Lowell.

The mayor also urges the friends of sailors or soldiers who are in their commands than those already mentioned, or the National Guard, to write to them and inform them of the celebration to be held in this city and request them to endeavor to be in Lowell next Thursday.

Nervous Wreck-- Now Live Wire

Makes Everybody Sit Up and Take Notice

One of our big league ball players had been going back for some time, no matter how hard he tried he could not get his old time Pep and Ginger into the game. It was up hill work all the time. He was one of those honest hard working fellows and it finally got his "goat," his nerves went bad, he commenced to run down, could not eat or sleep and kept steadily slipping. Doctors and medicines were of no help.

One of his many admirers said to him, "Why not try Phosphated Iron, everybody is boosting it."

Grasping at the last straw, the poor fellow took a try at it. The way he came back was an "eye opener," he was there in every department of the game, his nerves were like iron, he could hit the ball and was no time getting back to the three hundred mark, while his base running and fielding were great.

Discussing the matter with our reporter, he said, "Would you believe it, I could feel the iron charging my blood with health and strength, while the way the Phosphates steadied and renewed my nerve force was almost too good to believe. Phosphated Iron took hold of me right from the start and sure did make a new man of me, and you can bet I carry a good supply on all my trips."

Doctors will tell you that you must have plenty of Iron and Phosphates in your system if you want pure red blood and steady nerves of iron. Every one who is run down, nervous, tired and has that "all in" feeling should try Phosphated Iron and you will never be without it again.

Special Notice - To insure physicians and patients receiving the genuine Phosphated Iron we have put up in capsules only so do not allow dealers to substitute pills or tablets, insist on the genuine in capsules only.

BREAKING TRAINING CAMP AT PLATTSBURG

PLATTSBURG, Aug. 10.—The breaking up of the training camp for the first three months' tour of duty began yesterday. Several of the companies, all the quartermaster's department could handle, marched to the storehouse and turned in extra shoes, extra olive drab shirts and leggings. This was continued today and on Saturday rifles, revolvers, belts and any other extra articles will be handed over. Some of the men are buying their extras, figuring that the articles will never be as cheap again during the duration of the war, particularly shoes. Those not engaged in the quartermasters' work were busy at conferences and some at signal corps work. The method of notifying the 3200 candidates on the list for commissions is progressing slowly. Not more than two companies have received word that they are commissioned. The notification is given the men individually by telegram addressed to their commanding officers and the man in question is then informed by his company commander and is instructed to tell no civilian of his commission. The work is most unsatisfactory, say officers who have seen the list, telegrams having names misspelled and no addresses being given to assist in identification. The candidates now believe that the command will first learn of the results of the three months' training from the newspapers. There is much secrecy, not only regarding the commissions, but also of the names of the men who

are recommended for a second tour of duty of three months. Why so much mystery over what the men themselves claim should be entirely open, as was the draft, is more than army officers can understand.

Fifteen candidates were yesterday designated to the aviation ground school at the Massachusetts Institute of Technology and will leave here on Saturday. Eight of the number are from the New England regiment and are as follows: W. Leckie, Brookline 1st Troop; E. R. Cowley, Hanover, N. H., and J. L. Hubbard, Providence, R. I., company; B. D. Shuttlesworth, West Springfield, S. Carlisle, Exeter, N. H., company.

\$8.98 RAINCOATS \$5.00
CHERRY & WEBB

H. P. Bradford, Brunswick, Me., 5th company; C. E. Jones, Pittsfield, and W. W. Pinney, Dongan Hills, S. I. The detail is under the command of candidate W. S. Gordon, Jr., 1st Troop, New York regiment.

UNARMED CRAFT
SINKS U-BOAT

LONDON, Aug. 10.—Another unarmed merchantman has sunk a submarine, but, because of the fate of Capt. Charles Fryatt of the British steamer Brussels, who was executed in July, 1916, by the Germans for attempting to ram a submarine, the names of the captain and crew of the steamer and particulars concerning their achievements cannot be published.

The captain and crew of the vessel, however, have been presented \$2500 by Sir William J. Tatem, chairman of the Tatem Steam Navigation Co., for their deed.

POWER TO SETTLE ALL
INDUSTRIAL TROUBLES

WASHINGTON, Aug. 10.—Possibility of important government contracts being impeded seriously by labor disputes virtually is eliminated by the creation of a special commission with extraordinary powers to settle industrial troubles. The council of national defense which recommended the board, will award contracts only to those who will abide by the decisions of the board and require pledges of their employees to do so.

Members of the board will soon be selected.

SOCIAL AND FRATERNAL

The regular meeting of Washington commandery, U.O.G.C., was held last night. There was a large attendance and considerable routine business was transacted during the evening. Notice of the death of J. M. Clark was read. An interesting program for the good of the order was carried out.

Betsy Ross circle, 24, held its regular meeting at the home of the president, 188 Tenth street, last evening. There was a good attendance and much business was done in regard to the national convention to be held in Boston Aug. 22 and 23. This circle will help to serve the luncheon to delegates on the first day of convention.

LABOR CONFERENCE

Continued

resented at the international socialist congress at Stockholm in September. The conference will consist of delegates from all trades unions and other labor socialist representatives and is expected to have momentous consequences.

For days past there has been a sharp division among labor men with reference to going to Stockholm and the newspapers have been filled with rumors, predictions and interviews. The division on the eve of the conference seems as complete as ever and it is impossible to predict with any approach to certainty whether those for the Stockholm conference or those against it prevail.

The main initiatory cause of difference was the conversion of Arthur Henderson, minister without portfolio to the view, while he was in Belgium, that it is desirable for British labor men to go to Stockholm, and share in the deliberations of the international delegates, including the Germans.

Henderson First Speaker

Mr. Henderson made no statement, but will be the first speaker at the conference when he is expected to make his position clear. The bulk of the labor members of parliament are strongly opposed to sending delegates to Stockholm and many of them do not conceal their hostility to the proposal. Among these are the labor ministers, Barnes and Roberts. The cleavage of opinion is not limited to the leaders, but pervades the rank and file.

The opposition, however, is not based solely on the reluctance to meet on enemy representatives. There is an important section whose opposition is due to the conviction that the Stockholm conference cannot possibly be fruitful of anything useful or influence government, hence it is a waste of time and money to send delegates.

Notwithstanding that today's conference

ostensibly is called to decide the question it seems doubtful if a decision will be reached or even if a vote is taken. It is expected that the real decision will be to wait the allied labor conference at the end of August, although today's proceedings are likely, to a great extent, to dictate the ultimate course to be adopted.

The conference aroused much public interest. Large crowds, assembled in the vicinity of the hall, watching the arrival of the delegates who were admitted slowly, owing to the close and double scrutiny of their credentials.

Memorandum Proposed

LONDON, Aug. 10.—A special sub-committee of the British labor party executive committee has been preparing a memorandum upon the issues raised in the war and the ideas of British labor in regard to peace proposals. It comprises more than two columns in the Daily Telegraph. The memorandum was to be presented to the labor conference in London today and will be submitted to the special conference Aug. 21, prior to its proposed submission successively to the allied and international socialist conferences.

Preparation and Restoration

Primarily, the memorandum is a strong endorsement of the demand for reparation and restoration in behalf of Belgium and other invaded countries; a declaration in favor of the right of individual peoples to seek their own destinies; liberation of oppressed peoples from Turkish misgovernment, and a demand for the establishment of a league of nations for the maintenance of peace and the elimination of war from the world.

Fight Until Victory

The memorandum indicates that Germany is threatening the very existence of independent nationalities, striking a blow at all faith in treaties, and declares that the victory of Germany would be the defeat and destruction of democracy and liberty. It disavows the desire to crush Germany, but declares that the party is resolved to fight until victory is equally resolved to resist any attempt to transform the war into a war of conquest.

Congratulate Russians

The memorandum heartily congratulates the Russian people on the "destruction of czarism and warmly welcomes assistance to the cause of human freedom in Russia no less than in the battlefield. That is now being accorded by the American people." It declares war is being waged against the ruthless imperialism of the autocratic governments and every nation of all war aims none is so important as that there should henceforth on earth be no more war. Whoever triumphs the world will have learned some effective method of preventing war can be found.

For this reliance is largely placed on the "complete democratization of Germany and Austria-Hungary, which now cannot fail to place themselves in line with other civilized nations on a frank abandonment of every form of imperialism."

Condition of Treaty of Peace

The memorandum declared that the essential condition of a peace will be the establishment of "a super-national authority or league of nations, adhered to by all present belligerents, and which every independent state in the world should be pressed to join."

The memorandum reproaches "the crime against the peace of the world whereby France and Lorraine were torn from France in 1871 and demands that they be allowed to realize their desire to be restored to France. The necessity is recognized for securing the legitimate interests of the people of Italy in the Adriatic and Aegean without precluding the same recognition of the claims of other peoples."

Question of Poland

The question of Poland should be settled in accordance with the wishes of the Poles, and in all cases, including Luxembourg, in which independence has been temporarily destroyed, each must be allowed to settle its own destiny. In behalf of the Jews equal citizenship rights with other inhabitants is demanded.

The memorandum condemns the "handing back to the universally execrated rule of the Turkish government any subject people once free therefrom" and proposes that Mesopotamia, Armenia and Arabia be placed under the government of a league of nations with the administration in the hands of a commission.

African Colonies

As regards the African colonies and the Sahara, it is declared that those ought not to form the booty for any nation or be exploited by capitalists. The memorandum deals also with such subjects as food supplies after the war and the prevention of unemployment and declares "embellishment against projects of an economic war after peace. It makes suggestions as regards the restoring of areas devastated by war, demands a full inquiry into alleged acts of cruelty and violence during the war and calls attention particularly to the destruction of lives and property by the "inhuman and ruthless submarine war."

The reconstitution of the socialist internationalists to discuss and deal with all questions of international importance is declared desirable. Finally it is claimed that an agreement of the warring governments is only possible by a free and frank discussion of each other's claims and desires. Such discussion the socialist and labor men of all countries are urged to demand.

Failed to Stop on Signal

Alfred Chalfoux who was summoned to appear in police court yesterday morning to answer to a complaint charging him with a violation of the automobile law, appeared this morning and explained to the court that he had been summoned to appear before one of the exemption boards yesterday and did so and after passing the physical examination waived any claim for exemption and was accepted.

The complaint against him was for failing to stop when directed to do so by Traffic Officer Sheridan at the corner of Central and Merrimack streets. He entered a plea of guilty and a fine of \$4 was imposed.

His Lights Were Out

William Relation was charged with violating the automobile law by failing to have the lamps on his automobile lighted on the night of August 9th. Patrolman O'Sell testified that last Sunday night while Mr. Relation was operating his machine through Lawrence street the head lights were out. Mr. Relation explained to the court that the lights were extinguished as a result of the vibration of the machine. He was found guilty and a fine of \$4 imposed.

NEWS OF THE DAY IN
POLICE COURT

William Baron and Napoleon Champagne were found guilty yesterday of stealing 100 pounds of lead from a building belonging to George L. Cady in

Fletcher street by Judge Pickman in police court this morning and each was sentenced to two months in jail. Champagne appealed.

George L. Cady, Jr., the first witness called for the government, testified that as a result of what he had heard he visited the building and found that a large quantity of lead pipe had been ripped out from under sinks and toilets. About 100 pounds was taken and he estimated that the damage done to the property would vary from between \$50 and \$75.

Two women who occupy an adjoining building testified that they saw Champagne, Baron and another man enter the house, which is vacant, last Friday afternoon. The men gained entrance by pulling out a board which was nailed against a window frame.

They said that one of the men had a wrench while another carried lead. Julius Richards, a junk dealer, said that Baron called at his place of business about 5.30 o'clock last Friday afternoon and sold him 22 pounds of lead for which he gave the man \$1.45. Baron gave the collector his name as William Baron, said he lived at 123 Fletcher street and explained that he had taken the lead pipe out of a building in which new pipe was being installed.

Baron admitted that he and Champagne entered the building but he denied taking any of the lead. He said the third man, for whom the police are searching, did the job and that the latter and Champagne gave him the lead which he sold to Richards. Champagne offered no defense.

Failed to Stop on Signal

Alfred Chalfoux who was summoned to appear in police court yesterday morning to answer to a complaint charging him with a violation of the automobile law, appeared this morning and explained to the court that he had been summoned to appear before one of the exemption boards yesterday and did so and after passing the physical examination waived any claim for exemption and was accepted.

The complaint against him was for failing to stop when directed to do so by Traffic Officer Sheridan at the corner of Central and Merrimack streets. He entered a plea of guilty and a fine of \$4 was imposed.

His Lights Were Out

William Relation was charged with violating the automobile law by failing to have the lamps on his automobile lighted on the night of August 9th. Patrolman O'Sell testified that last Sunday night while Mr. Relation was operating his machine through Lawrence street the head lights were out. Mr. Relation explained to the court that the lights were extinguished as a result of the vibration of the machine. He was found guilty and a fine of \$4 imposed.

Itney Drivers Fined

Morris Varonheim and Edward Holland, operators of jitneys between this city and Lawrence, were fined \$10 each in court this morning for having been found guilty yesterday of violating the

motor bus ordinance. Each entered an appeal and held under \$100 bonds for the superior court.

Obstructing the Sidewalk

William Ward was found guilty of obstructing the sidewalk and a fine of \$2 was imposed.

Other Cases

Henry J. Harkins admitted that he was a vagrant and was sent to the state farm. Mary Botschlar, charged with drunkenness, was sentenced to one month in jail and six simple drunks were released by the probation officer before the opening of court.

In Sandgate, Vt., the proceeds from the sale of ice cream once in two weeks are being used to pay the minister's salary.

THE END OF WAR

We are still so new to the business of war, as a nation,—that is, a real war, being played with the desperation of a gambler who expects to win or lose all,—that one very frequently hears the statement: "Suppose after we have spent all these millions to train our men, the war should end suddenly, and we find that it was unnecessary."

If the war ends suddenly this year, it will be but an armed truce, and the world contest must be resumed later, whenever any aggressive power is ready to strike. Germany might well wish that it would end at this time, so that she could rearrange her naval bases, and lay in the munition supplies to enable her to win even with her ports closed. The great victory that the Allies won at the beginning of the war was in gaining complete control of the seas. It is true that commerce now stands in great peril from the undersea craft, but it must be remembered that for three years no German trade ship has sailed the seven seas, no manufactured goods have gone from any German port, and no food has been obtained from neutral nations except such as could find its way in through the adjacent small countries. Germany could have won the war ere now with the control of the seas. She will win a future war unless some nation powerfully armed stands in her way.

It may be that when the United States has a million highly trained men in the field Germany will elect to end the war rather than accept complete defeat. If that occurs without this country having sustained heavy losses in battle it will be well worth the price of our preparations. We shall still have the lives of our men plus their ability to fight a future war,—or ward it off. No situation can arise by which our preparations for war—and permanent peace—will have been wasted. As the eloquent Bourke Cockran said the other day, this country has been called out as the champion of Christianity. We must go forth as the angel with the flaming sword.

OUR FIGHTING MEN

When the Sixth Massachusetts Infantry went to the front in 1861 it assembled in Lowell, then its headquarters, and hurried to Boston after a royal send-off in this city. It was the best equipped regiment in the state for service, and history has told what an account it gave of itself in the fighting that occurred in the streets of Baltimore. When this regiment was called into active service in 1918 the local companies marched to the railroad station through streets lined with thousands of people, who knew that it might soon be fighting on foreign soil. But when the Sixth was called out last April, the Lowell men were sent on detached duty by squads to guard railroad bridges in a neighboring state, and there was no real departure as a battalion.

It is therefore fitting that the committee on public safety and the city authorities should arrange for a real farewell to the Lowell troops; not only those of the Sixth, but the company of the Ninth now at Framingham and the new battery in training at Boxford. Nobody knows how soon their regiments may be ordered from the state, and it is proper that the matter should not be left until the eleventh hour, when it could not be arranged.

From the point of view of the spectators, it is well that this parade should come after a period of intensive training. Lowell will not be ashamed of the men who will march through her streets next week, for they are already a finely drilled body of troops. They will likewise prove an inspiration to the men who have been drafted for the national army, and who will very soon put on the olive uniform and replace these men, who will go to the front.

The coming Thursday ought to be a big day in Lowell. Let every citizen help to make it one that our fighting men long will remember.

THE FUTURE OF RUSSIA

Eljhu Root says that if Russia survives the war, she will establish a permanent republic. He has traveled thousands of miles through that country, has talked the situation over with every class of people and has returned satisfied that the people are capable of self-government if the army does not fail.

Certain regiments and certain commanders in Russia have shown cowardice or disloyalty. One must not attribute to that fact the whole reason for the success of the German drive, however. As great a retreat as this was forced upon the Russians in 1915. Serbia and Rumania, both fighting with desperate bravery, were invaded by the powerful armies sent against them, being outclassed not only in artillery, but in generalship. Germany, failing upon the western front, has moved her forces swiftly against the Russians, because a blow struck there injures France and Great Britain, in that Russian defeat prolongs the war.

Germany will not be slow to recognize the opportunity of the present position. She may press the Russians to a conclusion, and the Allies find themselves all but powerless to assist. Already the request has been made that the United States cross the

Pacific with an army to stem the tide; a proposition entirely impractical at this time, not only because of the great distances involved, with the uncertainty of supplying an army on that front, but on account of the condition of our forces at this time. If any emergency aid is to be given, it must come from Japan. That nation could send a million well trained men to the Russian front, and they might prove a match for the German-Austrian army.

OUR BREADLESS WEEK

This has been our voluntary breadless week in Massachusetts. And apparently very few people volunteered. In Boston, where the widest publicity was given to the suggestion of the new state food administrator, restaurants continued to serve white bread, even if the hotels did curtail, and they probably did nine tenths of the transient business. In Springfield placards were posted about the city, urging people to abstain, and small cards were distributed, informing the public that the flour thus used would be saved for the soldiers and sailors and the Allies.

But the public does not yet believe that there is a real shortage. It sees plenty of flour in the stores, though it is asked to pay the price. It knows that the commission men who handled the product last year cleaned

up handsome profits by speculation, and doubtless expect to do so again. Lowell did not attempt any organized movement to curtail on white bread this week. The citizens are ready to deny themselves when the necessity arises, but they must be convinced that it is so. Mr. Hoover must first assure them that the storerooms of the speculators are not filled with barrels and bags, and that the talk of shortage will not permit the millers and the middlemen to boost the price.

What should be done at once, however, is a further elimination of waste. Bread should not be made or purchased that is not required to feed hungry people. It should no longer be served merely as a matter of form. And while the housewife watches her own family, Mr. Hoover and his department must watch the speculators and ferret out the trade agreements among them.

DON'T LOSE YOUR TEMPER

A physician who has made a study of the reaction of anger upon the human system advises people not to lose their temper in August. The natural humidity of the atmosphere exerts some pressure upon weak hearts, vitality is sometimes lowered by the heat or improper eating, and conditions generally are unfavorable for a violent mental disturbance. Therefore, if you must lose your temper and get mad, do it in some cold month, when the chances are that you will cause yourself less injury.

Anger has never prolonged the life of any man or woman. It betrays the lack of self discipline, the absence of self control. The wilful child, in a

burst of passion, throws itself upon the floor and cries until it is exhausted. A succession of such scenes would bring it close to a nervous breakdown, but the wise parent teaches it that giving way to anger gains it nothing, and it gradually gains self-control. Yet when one observes an adult giving way to such bursts of ungoverned passion, the conclusion must be that there is an untrained child grown up, and in need of the same correction that might have saved him in his youth. And there is no one to give it to him. The world shrugs its shoulders and says that he lacks self control. The passing physician, observing the symptoms, knows that he is slowly but surely injuring the delicate human mechanism within him.

Set yourself to the task, then, of keeping your temper in August. Better, still, do not give way to uncontrolled rage at any time. It is not pleasant to your friends, and it is an injury to yourself.

Make a Good Vacation Better

By taking along baggage that you know will give you no trouble. Just a love tap or two from the sturdy baggage smasher may put an end to your luggage and what it contains unless it is made of the stuff that will resist these bumps.

In our big Baggage Department you will find the latest and strongest kinds of baggage for business or pleasure.

Hand Bags—Suit Cases—Trunks

General Purpose Trunks—like illustration above—cover a broad variety of styles and sizes. Strength and durability are two features which are instantly recognized as factors of these trunks. The bodies are of selected basswood with heavy duck cover. All bindings and center bands of vulcanized fibre, closely tacked. Narrow or wide hardwood slats on top and around body, protected by cold drawn steel clamps, heavily brass plated. One and two inside trays, fancy paper or cloth covered. A wide selection at—

\$7.58, \$8.28, \$8.68, \$9.78, \$11.50 to \$18.00

OXFORD BAGS—Smart in appearance and ready for hard service. English frames pinned and sewed in. Lined with plain and fancy cloth and leather, two and three pockets. Heavily protected ends and strong locks and catches. Russet and black cowhide leather, smooth, grained or pebbled finish.

\$5.98, \$6.50, \$7.00, \$7.50 to \$15.00

SUIT CASES—All ready to live up to their fine, trim appearance. Made on light weight steel frames. Stout through and through stitching. Heavily protected corners. Firmly secured handles, brass fasteners, leather straps, linen lined. Made of selected cowhide leathers in russet and tan shades.

\$5.00, \$6.00, \$7.00, \$8.00 to \$12.00

Keystone Wardrobe Trunks

The "Keystone" Wardrobe is in reality the most durable trunk of its kind on the market. It is a real traveling wardrobe. You hang your garments in, they go flat in travel—and when you take them out there are no wrinkles.

There are special drawers and compartments for every single thing you will carry and everything is always where you can find it. The "Keystone" is also the most economical trunk you can buy. \$20.00, \$22.00, \$25.00, \$42.00 to \$68.00

REPAIRING

LIEUT. EDWARD FISHER MADE CAPTAIN

The local companies of the State Guard are gradually rounding their organizations into shape and permanent officers are being assigned. At a meeting of the 57th company at the army last night it was announced that Lieut. Edward Fisher had been made captain of the company and Lieut. C. Frank Dupree, first lieutenant. Maj. Walter R. Jayes, former captain of the company, has been named major of the Third battalion, 16th Infantry of the State Guard. The 16th is commanded by Col. Louis S. Cox of Lawrence and Charles

CAPT. EDWARD FISHER

S. Proctor of Lowell is lieutenant-colonel. Wallace P. Butterfield, also of this city, has been named battalion sergeant major. Corp. Royal F. White of the 57th company was just night chosen unanimously as second lieutenant of the company.

The complete personnel of officers of the local French-American company of the State Guard is as follows: Captain, Albert Bergeron; first lieutenant, Horace Desilets; second lieutenant, Alphonse Vallierand; first sergeant, Alfred J. Renaud; sergeant, William J. Burns; Arthur Sigman; Arlene G. Guy; Henry A. Bozica; commissary sergeant, George A. Frenette; corporals, Albert Tallard, Joseph N. Gregoire, Andre J. Lamarre, Edouard J. Lamoureux, Joseph A. Dubeis, Volmar Savard; musician, Arthur J. Brunelle.

The young men who are chosen for the national army through the draft will have an opportunity to become non-commissioned officers in the army if the plans of the military service, to the services of all its commissioned officers, many of whom have three years of military drill. Thus the men who take advantage of this offer will be so far ahead of their brothers in arms that it will be only a matter of time before they will be appointed corporals and sergeants.

Further details of the plan as it will affect Lowell will be announced later as they are perfected.

YOUNG GREEK WOMAN ON LOWELL GUILD STAFF

Miss Ellen Inglezakis, 23 years old, one of the three Greek young women who came to this country three years ago under the patronage of former Queen Sophia, is now studying the various branches of nursing in order to fit herself for public health work in Athens, is now attached to the staff of the Lowell Guild.

In 1914 Miss Inglezakis came to the United States and entered the New England Baptist hospital, in Boston. Graduating from that institution, she took a post-graduate course at the Infants' hospital in Boston, and only recently has she concluded public health courses with the instructive District Nurses' association, also of Boston. One of her companions is now training at the Newton hospital, and the other is at the Massachusetts General hospital. Until matters in Greece become more settled than they are at the present time there is small chance of their native land to take up public health work. In the meantime they are going to work among their own people in this country.

YOUNG MEN'S SUITS

At prices that play no part in the high cost of living. Every suit is new, capitally tailored, brimful of style and "pep" and marked at a price as low as you ever paid in the past. Military sacks and belters, with slash, patch or slant pockets, in light homespun, olive and blue mixtures.

These special young men's suits representing the best designers in America, full of style and distinction and all hand tailored. Sold up to \$22.00, now

\$14.50

A Sale of Low Shoes

Practically our entire stock of low shoes goes into this sale—No job lots—Every pair was carefully selected for our own trade and the closest attention was given to the leathers, style and finish.

\$2.85

Black and tan Oxfords, in velour calf, gun metal, tan and Russia leathers, also black and tan rubber sole Oxfords. Sold for \$4.00 and \$3.50, now

Putnam & Son Co.

166 CENTRAL ST.

TO CONSIDER THE COAL SITUATION IN N. E.

BOSTON, Aug. 10.—An appeal for a meeting of Pennsylvania coal operators, to consider the coal situation in New England is contained in a letter from James J. Storrow, chairman of the New England coal committee to N. B. Clark, president of the Association of Bituminous Coal Operators of Central Pennsylvania, which was made public today.

"We would very much appreciate," says the letter, "the opportunity to make a statement to the producers in regard to the present danger and

critical condition of New England, due in part, it is true, to the difficulties in securing and moving tide-water coal, but also in large part to the flat refusal of the producers of central Pennsylvania to permit their New England customers to have coal. "New England is dependent for practically all of its all-rail coal upon the mines of central Pennsylvania. We cannot continue on the present lines. If, through the continued refusal of the producers to accept orders from the New England consumers, we are unable to get coal freely, we cannot possibly make up the deficit during the winter months."

OWLS' FIELD DAY
A delegation of Owls from Fitchburg are expected to speak before the members of the order in this city in the near future, encouraging the Lowell Owls to participate in the field day to be held at Fitchburg. One of the features of the event will be a championship degree team drill in which the crack degree teams from all parts of New England will participate.

GERMAN SUBMARINE UB-23 INTURNED IN SPANISH WATERS
MOVED

FERROL Spain, Aug. 9.—It has been found necessary to move the German submarine UB-23 which was interned recently from its present anchorage alongside the cruiser Villalba because the cruiser is reinforced with copper while the submarine is constructed of iron establishing a galvanic current which would have eventually destroyed the U-boat.

Your Liver has important work to do. Under favorable conditions it does it well. If sluggish, relieve it with

DR. T. J. KING, DR. J. E. ROBILLARD,

STATEMENT OF DR. ROBILLARD:

I have practiced dentistry in Lowell for years and during that time I know I have given satisfaction to the people of this city. To make the big success that my ability and ambition demands, I am obliged to avail myself of certain wonderful improvements now being used by Dr. King, and I do not hesitate to admit the superiority of the King System of Painless Dentistry. I hope my patients will agree with me that I am doing the right thing in joining with a reputable dentist who has made an enviable position for himself and his methods in our city.

IF I HURT YOU DON'T PAY ME

No pain and a small per cent. over the cost of the best materials money will buy is a combination that cannot be beat. Get the other fellow's price for his best, then compare it with mine. Is all that I ask you to do.

If you want the best—a set of teeth that defies detection in the mouth—the Natural Gum is the set you must have. Used in my office exclusively.

CLAIM EXEMPTIONS

Continued

city, Constantino Georgopoulos, 23 years, and residing at 14 Lagrange street. The names of both men were on the draft list and sometime ago, while talking things over, the two decided, although they were aliens, to join the colors if possible. This morning Constantino was examined by the physician of division four, but because of his height and weight did not come within the requirements, he was rejected, much to his sorrow, particularly when he learned that his friend had been accepted and booked.

Constantino did not give up the fight anyway, and immediately after being rejected he wended his way to the naval recruiting station and there, with a winning smile, he announced his intention of enlisting in the navy. The would-be recruit was placed on the scale and measured, and there it was found that he was lacking in height and weight. Constantino said he was not yet ready to give up, for as will join a gymnasium in an endeavor to make weight and height.

Louis Heliotis, 24 years and residing at 423 Adams street, successfully passed the physical test, but he flatly refused to have his name placed on the roll of honor. Louis has his first naturalization papers, but he says he does not believe in war, and that settles it. His case will be submitted to the district board.

The board of division 4 will exhaust its first quota this afternoon at which time 50 notices will be sent out for more recruits, who will be examined next week.

Yesterday afternoon 19 men appeared before the board of division 4. Sixteen men were examined by Dr. J. E. Lamoureux, and of this number eight successfully passed the physical test. Three aliens declined to serve and they were dismissed. Those who qualified yesterday afternoon and had their names placed on the roll of honor are as follows: Horace Eynalle, 171 Hall street (alien); John F. Salmon, 96 Coburn.

Division Two
Four more names were added to the roll of honor at the quarters of division 2 at city hall this forenoon, namely: George Richard Hartley, 24 years, 14 East Pine street; Wilfrid J. Marcotte, 25 years, 51 Branch street; Thomas Kerrigan, 21 years, 83 Central street; and Edward Paradis, 23 years, 73 Branch street.

In the course of the forenoon 16 men were examined and of this num-

ber 11 were rejected on account of physical disability. The 15th man examined was George M. Trankas of Framingham. He successfully passed the physical test, but he filed a petition for exemption.

Out of 41 men examined up-to-date in the division eight had their names placed on the roll of honor. Eleven successfully passed the physical test and three filed exemption claims. There were 56 men who appeared before the board, but of that number 46 were aliens and they refused to be examined. The board has sent out 170 notices for more recruits today.

Yesterday's second session of Division 2 was held in the afternoon at city hall and 29 men were summoned to appear. Only one of these men was placed on the honor list—William B. McCullough, 32 Howard street.

McCullough is a native of Canada and has taken out his first papers. Personally he claimed no exemption, but he is employed by the Boston & Maine railroad and the company, it was stated, will ask for an industrial exemption for McCullough.

The result of yesterday afternoon's work by Division 2 was as follows:

Joseph L. Poulin, 40 Leo, rejected. Nicholas Pantelis, 154 Adams, alien. Manuel Silva, 176 Tremont, alien. John T. Wallace, 9 Brickett avenue, failed to appear.

Peter Kane, 546 Middlesex, rejected. John Stavis, 414 Market, alien.

Tom Walkelroy, 12 Watson avenue, failed to appear.

Alexander Condore, 756 Central, rejected.

Albert Shaheen, 20 Lagrange, claimed exemption.

Richard J. Sullivan, 4 Harvard pl, reported dead.

Charles Pousales, 158 Aiken, claimed exemption.

Philip J. Flynn, 5 Stevens, accepted, but claimed exemption.

William B. McCullough, 32 Howard, accepted, no claim for exemption.

Nicholas Exonla, 150 Market, alien. Demetrios Contratos, 352 Suffolk, alien.

Mazog Saroshian, 506 Middlesex, alien. Nicholas Rizos, 55 Dummer, alien. Georgios Darbleses, 155 Market, alien.

Isaac Cellin, 533 Middlesex, alien. Joseph S. Chaisson, 4 Broadway, failed to appear.

Tony Concalves, 14 Bradford, alien. Fred J. Lawton, 131 Fletcher, failed to appear.

Thomas McArdle, 5 Bolton, failed to appear.

Alfred A. Rousseau, 5 McIntire, rejected.

William J. Whalen, 129 Adams, failed to appear.

TWO AMERICANS SHOT IN FRANCE

PARIS, Aug. 10.—Price McQuillan, of Overbrook, Pa., and Wayne Vetterlein of Philadelphia, members of section 32 of the American Red Cross ambulance service, have been seriously wounded by a shell while loading wounded at an advanced post on the battle front.

Vetterlein was wounded in seven places and one of his legs has been amputated. Both men are now out of danger and are doing well. They have

been awarded the war cross and the military medal.

Arthur Kemp, one of the first men to join the ambulance in 1914, has been decorated with the war cross.

JUVENILE COURT

George Carles, aged 16 years, appeared at the juvenile session of the police court this morning to answer to a complaint charging him with playing a game for money in a public place. He was arrested while shooting craps on the South common last Saturday by Patrolman Linane. He was found guilty and a fine of \$25 was imposed. He was given four months in which to make payment.

MATRIMONIAL

James Stead, Jr., and Miss Ellen J. McDougall were married last evening at the home of the bride in Meadowcroft street by Rev. W. S. Jacobs. The best men were Edward Stead and

Henry Carpenter, while the bridesmaids were Misses May McDougall, a sister of the bride and Stella Stead. At the close of the ceremony a reception was held. The couple will make their home in this city.

INSURING U. S. ARMED FORCES

Authority to Make Effective Government's Program Sought of Congress

Proposed Legislation Would Provide Insurance for All Men in Service

WASHINGTON, Aug. 10.—Authority to make effective the government's program of insuring the armed forces of the nation was sought of congress today in bills introduced in both houses by Senator Simmons and Representative Alexander.

The proposed legislation was framed to follow plans already announced in general outline and would provide insurance, at minimum cost, for American soldiers, sailors and marines, the insured men paying the premiums; family allowances to dependents of men in the nation's military or naval service; indemnification for disabilities and the re-education and rehabilitation, at government expense, of injured men.

A feature not previously announced would make it compulsory for officers and men to allot a minimum of \$15 a month out of their pay to dependent wives and children. The maximum compulsory allotment is half pay. These allotments would be supplemented by family allowances, to be made by the government, of from \$5 to \$50 a month, according to the circumstances and number of dependents. Liberal indemnities for partial and total disability are included in the program, varying from \$10 to \$75 per

month minimum up to \$200 a month for higher officers. Insurance would be written by the government on the lives of the men and a rate of approximately \$8 per thousand on sum of from \$1000 to \$10,000, the premiums payable in installments.

The cost to the government as estimated by Secretary McAdoo, would approximate the following:

	First year	Second year
Family allowances	\$141,000,000	\$180,000,000
Death indemnities	3,700,000	22,000,000
Compensation for total disability	5,250,000	35,000,000
Compensation for partial disability	3,200,000	21,000,000
Insurance against death and disability	23,000,000	112,500,000
Totals	\$176,150,000	\$350,500,000

The total for the two years is thus placed at \$526,650,000, which Mr. McAdoo estimates at less than 6 per cent. of the cost to the country of conducting the war.

In its general features the bill was approved by the advisory committee of insurance representatives summoned by Secretary McAdoo to Washington July 2.

"They opposed, however," Mr. McAdoo advised the president in a letter made public with the introduction of the bills, "the grant of any government insurance over and above the compensation, on the ground that the other provisions were liberal enough and might be made more liberal in ways suggested by them. They favored, over and above compensation, the payment by the government of \$1000 in each case of death during service, or within five years after discharge of service in lieu of insurance."

Children up to 18 years of age—"or if incapable of pursuing a substantially gainful occupation, because of mental or physical infirmities then without age limit"—and wives of men and officers would be given family allowances within the limits designated during the term of service of the men insured. The amounts would depend on the sex of the family, the allotment made by the husband or father out of his pay, and other circumstances to be determined in each individual case.

Other dependent relatives would be given allowances only in case voluntary allotments were made them out of the pay of the man insured.

The bill does not attempt to cover the methods to be pursued in re-educating and rehabilitating injured men until the amount of indemnity paid in the case of partial disability would vary from time to time, according to the altered circumstances of the man insured.

"Assume that a man were totally disabled by losing both legs and becoming a cripple," Mr. McAdoo wrote the president by way of illustration. "Under the compensation provisions of this bill, if he were a private and unmarried, he would receive \$40 per month and if married, \$60 per month. If he were an attendant, up to \$20 additional."

"If he had a widowed mother dependent on him for support, he would get another \$10. If he were a soldier, his compensation would be increased at once by \$15. If, later on, he had children, the compensation would again be increased \$10 a month for each of the first two children, a possible maximum of \$105 a month."

"In addition to this monthly payment he would be fitted with artificial limbs and have treatment. His compensation or pension would not be affected by any increased earnings. Furthermore, if he wanted to set up as a small storekeeper under the compensation system he would be allowed to commute \$20 a month of his compensation; this might give him \$200 or more and still leave him protected to some extent."

When disability results in death, dependents would receive from \$15 to \$50 a month, the sum again being rated according to the circumstances of the deceased. This feature of the program is regardless of the insurance which the man or officer may take if he wishes, paying the premium therefor himself.

All insurance of this character, the bill provides, would be "non-assignable and free from the claims either of the insured or of the beneficiary." It would be limited to wife, children and other specified kindred. A portion of four per cent is provided for after the passage of the act within which insurance may be applied for and "for those who are totally disabled or die before they have had an opportunity to insure within the prescribed period of 90 days, insurance in the sum of \$5000 is deemed to have been applied for and granted."

On the administrative side the bill provides for a division of the government's war risk insurance bureau into two sections, one on marine and seamen's insurance, the other on military and naval insurance, each division to be under the supervision of a commissioner under the bureau's direction.

FITZGERALD PROTESTS DRAFT OF MARRIED

BOSTON, Aug. 10.—Former Mayor Fitzgerald made a vigorous attack yesterday on the ruling permitting the drafting of married men with children in the single, able-bodied aliens are exempted.

He urged the people to insist that congress pass the Chamberlain bill providing for the drafting of aliens. The former mayor spoke at the noon rally of the Knights of Colum-

August Sale of Men's ELITE OXFORDS

MADE IN TAN CALF, VICI KID, GUN METAL CALF AND PATENT COLT

Regular Prices \$4.00 to \$6.00.

Ground Gripper Shoes have sufficient space for free movement of each toe, such as enjoyed by the barefoot child or Indian. The shape of the sole of a "Ground Gripper" shoe is an exact outline of the perfectly normal foot. The last is constructed in such a manner that the wearer is able to press down on the sole of the shoe with his toes, particularly with the great toe. The last is straight along the inner edge, following the normal line of the great toe and extending beyond. It then forms a wide outward sweep, avoiding compression of the toes of the foot.

bus for their war fund, on Boston common. He said:

"This morning's despatches confirm the opinion that I expressed on my return from Washington yesterday—that unless the American people be stirred themselves, married men with families would be chosen to the exclusion of aliens who are single and physically and mentally qualified to go."

"Only a complex situation such as is bound to develop at a time when the nation is trying to do so much work in one can account for a condition like this. It is monstrous to think that the nation would deliberately pick fathers of families with the liability to widowhood and fatherless children that is bound to follow and neglect intelligence and judgment such scenes can be avoided. It is time that our congressmen get busy on this question. The president has so many burdens that I am

confident that this ruling of General Crowder is unknown to him, and it is the duty of our representatives in congress to pass the Chamberlain bill at once, drafting all residents of this country. Then everyone is on an equal footing by the passage of this bill that married men with families will not be needed.

The Financial Side
"There will be a tremendous financial saving also which should weigh in this situation. At the present time the country is spending billions to maintain an army of men. If General Crowder has his way, for 50 years after the war this country will be spending unlimited money to support an army of women and children dependents, created needlessly by unwise action on the part of the military authorities."

"It seems to me also that this government should consider the social and economic side of depriving thousands, perhaps millions of children, of the protection and aid which only a father can give. Statistics show that large numbers of those who fill the prisons are without parental protection. Go out into the highways and byways at a late hour of the night and you will find that our boys and girls on the street corners largely come from homes where the father is gone."

Unworthy Of America
"General Crowder, in an order issued today, tells the wives of men conscripted to go back into the employments occupied by them before they were married. This is unworthy of America, and such a sentiment, I feel certain, will meet with the con-

demnation it deserves from the American people.

"In conclusion, I urge every one here to impress on their representatives in Washington their duty in the matter. This country is a democracy, not an autocracy, and the people's representatives in Washington, not the military authorities, should determine questions like these. And when Washington hears from home it will feel about this matter just as you and I do and the alien will do his bit alongside the citizen."

The ex-mayor was given a great demonstration when he finished speaking.

ROOT LEAVES FOR HOME IN NEW YORK

NEW RULES FOR CALLING THE DRAFTED MEN

WASHINGTON, Aug. 10.—Regulations under which men of the new national army will be called to the colors beginning Sept. 1, were issued last night by Provost Marshal General Crowder. They may cut in detail the whole program to be followed until every soldier of the selective draft army has been accepted by the adjutant general of the training cantonment to which he is assigned.

Local Branches Have Charge
Two hundred thousand of the first 637,000 men will be called up Sept. 1 and forwarded to their camps before Sept. 5. The whole business of assembling the levies at entraining points, providing them with shelter, food, transportation and giving them their actual induction into military life is entrusted to the civilian local boards which selected them for service. Until the men reach the camps

they will not be in contact with uniformed officers. The civilian control is carried forward through every stage of the draft, to the very gates of the military camps where the making of soldiers will begin. To be completed within sound of the guns in France. The actual call for men will go in each case from the provost marshal general to the state adjutant general, stating the number of men to be supplied at a specified time by the state. Each local board will be promptly informed of its proportion in the call and the adjutant general will fix the date when men from his state shall entrain for the camps.

Will Post Orders
Orders to the men will be posted and also be sent them by mail. They will be directed to report to the local board at its headquarters not less than 12 hours or more than 24 hours before the time of departure for camp. "From the time specified for reporting to the local board for military duty," the regulations state, "each man in respect of whom notice has been posted or mailed, shall be in the military service of the United States." Prior to the arrival of the men at

the board headquarters board members are instructed to make arrangements for their accommodation, to find clean and sanitary sleeping places at hotels and lodging houses, to arrange for their meals and to provide lodging and meal tickets to be taken in payment and redeemed for cash later by a government disbursing officer.

May Remain at Home

In its discretion, the boards may grant permission for the men to remain at their homes. On arrival at the board headquarters at the hour fixed for reporting the men will be drawn up the roll called, and agents of the board will take them personally to the headquarters, remaining with them until every arrangement for their coming has been made. Emphatic instructions are given that the quality of food furnished shall be good and the board is held

liable for seeing that meals are adequately prepared. Each district, five alternates will be summoned to the board headquarters in addition to the men actually selected to fill the board quota. They will be held at the assembling point until train time to fill in vacancies should any men of the levy fail to report.

To Choose Commander

Except for retreat roll call, the men will be given town liberty until 45 minutes before train time. The board will, during this interval, select one man from the levy who is the best qualified to command and place him in charge of the party for that town. He will name a second in command to aid him and the other men will be told that the orders of these two men must be obeyed under pain of military discipline.

The man in charge of the party will call the roll at the board headquarters just before train time. It will then line up the draft and, capitulated by the board members, march them to the station to entrain.

There is final verification of the list will be made and if any man of the selected number is missing, an alternate will be sent forward in his place. The tickets, with meal tickets and papers relating to the party, including the copies of registration cards, will be turned over to the man in command, and the party will start for its training camp.

It will be the duty of the commander of each party to watch over all men during the trip, to see that none is left behind at any station, that all are fed regularly and that no liquor is furnished to them en route. When within six hours of the camp he will file a telegram to the camp adjutant general notifying him of the time of arrival. Immediately on the departure of the train the local board will send a similar message.

Every precaution has been taken to meet any emergency in advance. Should a train be delayed by accident, the commander of each party will have proper telegraph blanks to report the fact to the camp adjutant general and instructions.

After the departure of the levy for camp, the local boards will turn to gathering up stragglers. If there is evidence of wilful violation of the orders, the offender will be reported to the adjutant general of the army as a deserter and the local police will be asked to arrest him on sight and turn him over to the nearest army post for trial. Where there was no intention to desert, however, the missing man reports of his own will, the board will send him on to the camp with an explanation and a recommendation as to the degree of culpability.

Arrived at the camp the party will undergo final physical examination by army doctors. If any are rejected the local board will be notified and an alternate sent forward for each such case. The set quota of a board will be regarded as filled only when the full number of men called for have been finally accepted.

Provision is made, also, for a strict accounting as to quotas, between the federal government and the adjutant general in the first instance and between the set quota of a board and the local boards in the second. Reports to show the standing of such accounts will be filed every ten days until every quota has been filled.

ly do anything to further same. The association was dissolved right after war was declared, as the majority of the members were all good American citizens and they did not believe that the association should continue, and they are using their energy in connection with other welfare leagues."

Herbert C. Sanborn, of Nashville, president of the Tennessee division of the German-American alliance, writes that his organization passed resolutions of loyalty to America after the declaration of war and that many of the members have stopped their subscriptions to German-American publications. He suggests that the Security league ask Dr. Hexamer, the national head of the German-American alliance, to call a meeting of the national executive council to take up its sug-

gestion. A copy of the original letter was sent by the league to Dr. Hexamer but no reply has been received. Henry Weismann "The most important man in the German-American alliance to answer the league's letter is Henry Weismann, president of the New York state division. He writes that his executive committee and that of other German-American organizations have already passed resolutions of loyalty to America and he can see no need of a reiteration. The league's position on this is well put in the following extract from a letter written by Smith E. Allison, vice-president of the Certain-teed Products corporation, to the league soon after the original publication of this article:—

"If I was in charge of trust funds, it would not be a question of my interest in investigating on their own account, but I would insist that a check be made periodically to vindicate my understanding that the accounts were correct. An honest man never objects to a question relative to his honesty, and a loyal man never objects to any question about his loyalty. "This reminds me of the man who wants credit. He usually, and then takes offense because you ask him questions about his financial condition. You had better look out for that kind of a man. "During the Civil war, brothers fought on opposite sides in the same battles, and they did not hesitate to acknowledge their allegiance to the side they were on."

The Last and Greatest Good Clothes Bargain Event of the Summer Season

Final and Complete

CLEAN-UP SALE

OF THE BALANCE OF OUR STOCK OF EXTRAORDINARY PRICE REDUCTIONS

Too late now to give any more thought to profit or loss for this season, so, with scant regard for the cost of our merchandise, we throw the remainder of our Summer Suits on the market at prices which bear no relation whatever to their true value.

There's plenty of time yet for you to wear these clothes, but mighty little time left for us to sell them. So we've decided to take a drastic loss on the balance of our stock in order to bring about a complete clearance as quickly as possible.

While the stock is large and the variety wide, such extraordinary values as these are sure to be snapped up in a hurry. So you'd better come as soon as you can. We doubt if you'll ever have another chance to get so much style and quality for so little money.

ICE FOR OUR SOLDIER BOYS IN CAMP

Sammy may like to slug "There'll be a Hot Time in the Old Town Tonight," but in weather such as most of the country has been suffering from recently he much prefers a cool time. And to give him a cool time the government is installing in the army

camps ice-making machines like the one shown in the lower one of the accompanying pictures. It can make two tons of ice a day. In the upper picture a group of the soldiers is seen enjoying some of the machine's product on a recent hot day.

THIS IS THE CANNERS' BUSY SEASON

WASHINGTON, Aug.—The women of the country, in the past five weeks, have responded to the call to dry and can the produce of their war gardens as they have never responded in any other campaign," says Chas. Lathrop Pack, president of the National Emergency Food Garden Commission, which is co-operating with The Sun in a nation wide drive to save the food of the country, when he returned to Washington today and reviewed the results of the first month's work.

"Of course we had the advantage of starting before any one else," continued Mr. Pack, "and the results have been astounding. The newspapers of the country always eager to serve their readers, have printed our daily conservation lessons and it is through them and them alone we have been able to place before the housewives of the land the best instructions on canning and drying of vegetables and fruits.

During this first month of this wonderful work the papers have brought us thousands of letters a day requesting our manuals. We have sent out nearly two millions of these. We have sent scores of thousands to libraries which are getting instant demands for more. Thousands of canning clubs have been organized and supplied with our manuals. The National League for Women's Service in working with us in many states as are the General Federation of Women's Clubs and the National Housewives League. The season is now at its height and we are now presenting some of the more important hints that may have been missed.

Peas.—Wash in cold water, scald till skin slips and plunge in cold water. Remove skin, split, remove stones and pack in jars. Fill jars with boiling hot syrup and sterilize for sixteen minutes. Pick the skins of plums and can whole.

Borries.—Soft fruits should be picked over and washed. Pack firmly but carefully into jars, fill with boiling

syrup and sterilize for sixteen minutes.

Beans and Peas.—Prepare as for table. Blanch for three minutes and cold dip a moment. Pack tightly in jars, add level teaspoon of salt per quart and fill with boiling water. Sterilize for two hours in boiling water. String beans may be prepared as for table and then treated in shell beans.

Tomatoes.—Use firm well ripened fruit. Scald to remove skin and cold dip for an instant. Cut off top and remove core. Pack firmly in hot jars and sterilize for thirty minutes. No water is needed with tomatoes. If tomatoes are small they may be canned whole and the jars filled with boiling water then sterilize as above.

Corn.—Select corn at right stage of ripeness for table. Remove husk silk and all defective parts, blanch in boiling water for six minutes and cold dip for a moment. Pack in jars, alternating tips and butts, add a level teaspoonful of salt per quart and a little water then sterilize for three and a half hours. Corn may be cut off cobs. Use a thin bladed knife and cut half to two-thirds the depth of the kernel and scrape out rest with back of knife. Cut from tip towards the butt. Pack in jars to within quarter of inch of tops, add level teaspoonful of salt, fill with boiling water and sterilize as above.

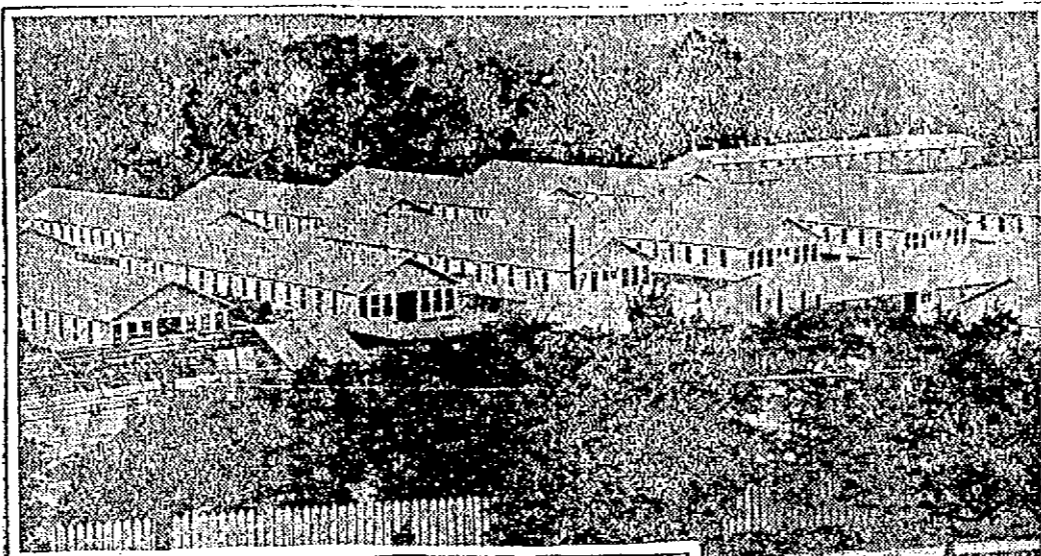

Root and Tuber Vegetables.—Wash thoroughly and scrub with vegetable brush. Scald a few minutes to loosen skin. Cold dip and scrape off skin. Pack whole or cut as desired, teaspoonful of salt to the quart and fill jars with boiling water. Sterilize for hour and a half.

Drying Fruits and Vegetables.
Soft Fruits.—(Apples, pears, and quinces; berries, peaches, plums.) Prepare as for canning. Split plums and remove pits. Spread fruit in thin layers or dishes and dry.
Tomatoes.—Wash and peel as for canning. Slice crosswise and spread in layers on trays. These slices may be spread with sugar and dried to resemble dried figs.

Root and Tuber Vegetables.—Wash and scrape off skin, slice in one-eighth inch slices and dry in thin layers.

Peas and Beans.—Prepare as for cooking and dry at once.

Corn.—Handle corn as though it

UNIVERSITY OF COLUMBIA WAR HOSPITAL

DR. SAMUEL W. LAMBERT SURGEON GENERAL

NEW TYPE OF HOSPITAL FOR THE WAR
This picture shows the first of our great war hospitals completed. The Columbia university war hospital, given to the government by Columbia university and situated in the borough of the Bronx, city of New York, is vir-

tually completed and will be ready to handle the wounded in a few days. The hospital contains 500 beds and is so constructed that in case of need it may be enlarged considerably. The plans were drawn by physicians and other experts with foreign experience. The buildings are portable and could be sent overseas or to any part of the United States in case of need. The plans have been adopted as a basis of construction of base hospitals by the government. In addition to the buildings small portable units will be kept on motor trucks ready for immediate dispatch to any place where accident of any kind may necessitate care of wounded.

In this hospital medical students will receive instruction in the care of war wounded based on the experience of American and foreign soldiers in the present war. The pictures show the hospital buildings and, left to right, Dr. Samuel W. Lambert, dean of the Columbia University College of Physicians and Surgeons, with Dr. William C. Gorham, surgeon general of the United States army, who is greatly interested in the new hospital.

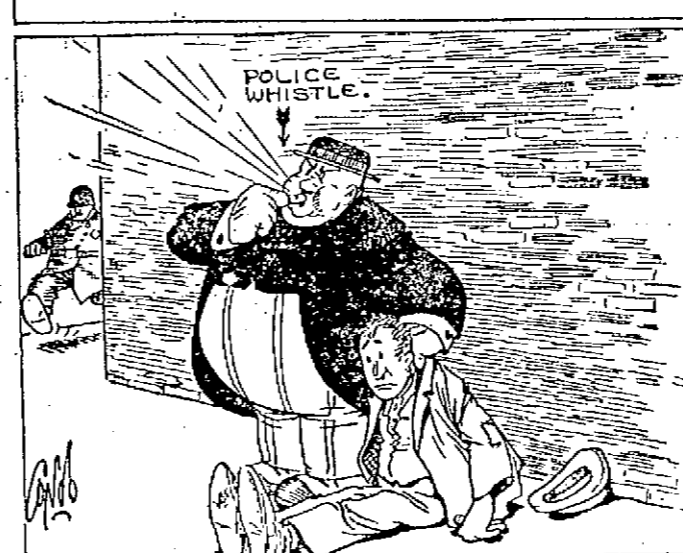

were to be canned off the cob. Cook in double boiler until milk is absorbed, spread in thin layers on trays. "This is but a brief review of our month's work," concluded Mr. Pack, "and our manuals of course cover drying and canning much more thoroughly with illustrations to help the housewife. Any reader of this paper can have copies of our drying and canning manuals by sending a two cent stamp to the commission at 210 Maryland building, Washington, D. C., as we are ready to help the women readers of this paper in every way possible."

CORRESPONDENCE BETWEEN KAISER AND EX-KING CONSTANTINE DISCOVERED

LONDON, Aug. 9.—A despatch to the Times from Athens says the government has discovered correspondence between Emperor William and ex-king Constantine and will lay it before the chamber.

550 MEMBERS OF PLATTSBURG TRAINING CAMP TO TRAIN AT HARVARD

CAMBRIDGE, Aug. 10.—Announcement that 550 members of the Plattsburg training camp would come to Harvard university, Aug. 19, for a special course of instruction, was made by the university officials yesterday. The men will receive an intensive course in modern trench warfare from Capt. James A. Shannon, U.S.A., and the six French army officers who have been training the Harvard reserve officers' training corps which breaks camp Aug. 15.

BOY HERO LOSTS FATHER IN SEA

LOS ANGELES, Cal., Aug. 9.—The tragedy of the sea has marked the life of 13-year-old Bryant McDonald. He fought for his life in the water, tried and failed to save his father and faced starvation for three days on a barren atoll off Lower California recently.

The boy and his father, who was at the time inspecting crayfish traps, the father in some way fell out of his boat. The son tried to swim with him to a little island but the current was too strong. The older man sank and the boy spent his last energy reaching the island. He stayed three days and nights without food, and was finally rescued by a passing fishing boat. Now that he has recovered he is helping his mother in an unequal battle with life.

THERE IS NO SHORTAGE IN GLASS JARS

WASHINGTON, Aug.—Telegraphic reports to the bureau of markets, United States department of agriculture, today indicate that retail dealers in many localities are advancing prices on glass jars for canning and preserving. This advance apparently dates from the beginning of the emergency campaign for the preservation of perishable fruits and vegetables. Representatives of the glass jar manufacturers stated, in a conference

held at the department on July 17, that there is no shortage in glass jars. One declared: "We have not received enough orders to take care of our daily capacity, and have even ordered to sell jobbers jars on consignment, to be paid for as sold." "We have sold to the jobbers their usual supply, what they usually purchase in a year. They have sold to the merchants the usual supply, and they are not ordering any more as all they begin to sell and reduce the stock on hand. By the middle of August we should begin to ship very freely for the fall trade."

The Sun prints the news of the world when it is news and only such news as is fit to print. It is a clean family newspaper.

TOM CAME NEAR BEING LEFT

"SOLDIERS AND SAILORS' DAY" BIG EVENT

The plans for the big military celebration for Lowell's young men who are now in the various branches of the national service are developing rapidly and there is little doubt but what next Thursday will be a gala day in Lowell military circles—and outside, too.

Mayor O'Donnell and the executive committee of the public safety committee yesterday got in touch with Col. Howe of Battery F's regiment and Col. Logan of the Ninth regiment of which Co. M of Lowell is a unit. Although no definite agreements were reached, it is expected that the officers will give their consent to have the Lowell companies come home for the celebration.

At a conference of the public safety committee held yesterday afternoon it was decided to request the mayor to ask the municipal council for an appropriation which would defray the main expenses of the celebration.

The Lowell men will come from their camps to Lowell by special trains. John H. Murphy was named as a committee of one on trains and it was arranged with the Boston & Maine that the Sixth regiment companies should leave Ayer at 1.30 p. m. Co. M leave Framingham at 1 p. m. and Battery F leave Boston at 11.45 p. m. All three will arrive in Lowell at all three units will be before 3 o'clock.

The program for the day has been left in the hands of a committee consisting of Mayor O'Donnell and Major Colby T. Kirtreage. The parade is expected to start about 2.30 and will conclude the downtown streets. At the conclusion of the parade military movements by the various units will be demonstrated on the South common and these will include the manual by the three companies of the Sixth, dress parade and the review of all the companies present.

In the evening a supper will be served at the armory in Westford st. for the soldiers of the Sixth regiment and in the Casino for the other units. It is probable that the mayor and other prominent officials will address the men and express the sentiments of Lowell at the departure of her fighting men.

The committee in charge of the celebration voted to ask that the factories and mills of the city be shut down at 3 o'clock in order that every body will have an opportunity to participate in the celebration.

All in all, the day should be a notable one. Enthusiasm has marked the project from its very inception. An effort will be made to have as many men in the naval service present as possible. The day will be a real "Lowell Soldiers' and Sailors' day."

PACIFISTS WANT REPEAL OF DRAFT LAW

WASHINGTON, Aug. 10.—Pacifists held a meeting under the dome of the capitol yesterday, demanded that congress stay in session until it had repealed the draft law, and which

threats of an attempt to impeach President Wilson unless that was done. Senators and congressmen, invited to attend the meeting, under the auspices of the people's council of America for democracy and peace, dropped into the room and then proceeded.

The meeting was held in the senate military committee room, where a few weeks ago the draft law was drawn and perfected. How the meeting came to be held there developed considerable feeling among senators.

U. S. Government Indian Land Sale

The GREAT NEW STATE OF OKLAHOMA rolls in liquid wealth. Thousands made rich last year. Throughout the oil fields are wonderful examples of fame and fortune gained at the rush of oil. Dan Tabor, 10-year-old boy, gets \$100 daily. Henry H. Hester, a colored man, 10-year-old boy, gets \$100 daily. Henry H. Hester, a colored man, 10-year-old boy, gets \$100 daily. Henry H. Hester, a colored man, 10-year-old boy, gets \$100 daily.

The Private Oklahoma Indian Land Car now in Lowell has been here for the purpose of advertising the opening of the Oklahoma Indian Land Sale. The car contains an extensive display of Oklahoma products, both agricultural and mineral, as well as numerous photographs of Western development. For those interested in the photographic views of Western development, the car contains a large number of maps, charts, blue prints, etc., and skilled demonstrators are on hand at all times to acquaint the public with the terms and conditions.

Don't forget the population of the United States doubles every thirty years, but there never will be any more land than there is today. Think it over. Open daily, Sundays, 9 to 12 m., 1 to 5.30 p. m., and 7 to 9 p. m.

JOHN STREET PUBLIC MARKET

30 JOHN STREET
Telephone 2627-2628

JOHN M. FARRELL, Auctioneer
OFFICE, 162 MARKET ST., LOWELL, MASS.

SATURDAY, AUG. 11th, AT 3 P. M.
At No. 112-114 Butterfield St., Lowell, Mass.

BY VIRTUE OF A LICENSE GRANTED BY THE PROBATE COURT, I SHALL SELL AT PUBLIC AUCTION THE 2½ STORY, 2-TENEMENT HOUSE AND 4135 SQUARE FEET OF LAND OF THE LATE CATHERINE BOLAND, SITUATED AT 112-114 BUTTERFIELD ST.

The downstairs tenement has five rooms, pantry and toilet. The upstairs tenement has five rooms, pantry and bathroom. Each tenement has city water, gas, separate cellars and separate front and back entrances. There is a large yard which gives plenty of room about the house for light and air. There are shade trees in front of the house. Butterfield street is a good residential street, where tenements are never idle. This property would be a good investment for anyone. The house is in good repair inside and out and will be sold to the highest bidder.

Terms of sale: \$300 deposit must be paid at time and place of sale. Other terms at sale. Per order, FRANCIS J. MCCARTHY, Executor.

SATURDAY, AUG. 11th, AT 4 P. M.
At 73 Totman Ave., Lowell, Mass.

I SHALL SELL AT PUBLIC AUCTION TO THE PERSON THAT WILL BID THE HIGHEST A VERY DESIRABLE COTTAGE HOUSE AND 4000 SQUARE FEET OF LAND, MORE OR LESS, AT 73 TOTMAN AVE., LOWELL, MASS.

The cottage is 2½ story, has eight rooms, pantry and bathroom, large piazza on front and side, has furnace heat, city water and gas, and is piped for hot and cold water. There is a sewer in the street. This place would make a snug home for a family wishing to live in the country. It is a good residential street, where tenements are never idle. This property would be a good investment for anyone. The house is in good repair inside and out and will be sold to the highest bidder.

Terms of sale: \$300 deposit must be paid at time and place of sale. Other terms at sale. Per order, JOHN GAYNOR.

THREE SHOT IN STRIKE RIOTS IN LIMA, OHIO

LIMA, O., Aug. 10.—Rioting broke out in the street car strike here late yesterday. Three men were shot in a clash between strike sympathizers and armed guards on the city cars of the Ohio Electric Railway Co. Police dispersed a crowd of more than a thousand persons gathered in the vicinity of the interurban depot.

Trouble started on the public square when E. K. Stroup, striking carman, attempted to board a car manned by strikebreakers and two guards. Charles Crider, aged 34 years, motor-man of the car, is said to have shot Stroup, thinking he meant to attack the conductor. Stroup may die. A mob of more than 1000 persons pursued the car a block and a half east to the interurban station. There two westbound city cars were met and all three stalled by the crowd. The six men of the crowd and six armed guards made a dash for the interurban building, 100 feet away. The mob blocked the way and the men began shooting.

Leonard Short, striker, fell with a bullet in his abdomen and Charles Morrison, another striker, was hit in the hip. Short is expected to die. Four riot calls and a fire alarm brought police and firemen to the scene. The mob attempted to burn one of the cars, but the department extinguished the flames.

Crider, the motorman who, the police say, fired the first shot was arrested on complaint of Clarence Dowd, a striker charged with shooting with intent to kill. A bullet pierced Dowd's coat.

Six strikers and sympathizers were arrested, charged with attempting to burn the car and with cutting trolley ropes.

Crowds gathered in the square last night, but there was no further trouble.

MEMORIAL TABLET TO THE MEMORY OF JOHN BOYLE O'REILLY UNVEILED

LOWELL, Aug. 10.—A memorial tablet to the memory of John Boyle O'Reilly was unveiled today at the public library building here, which for 20 years was the home of the poet. The exercises were held in connection with the annual field day of the Massachusetts chapter of the American Irish Historical society. The ceremony included a presentation address by William T. A. Fitzgerald, president of the chapter, and the unveiling by Miss Mary Boyle O'Reilly, daughter of the poet.

MASS. FIELD ARTILLERY GIVEN FIRST NUMBERS

BOSTON, Aug. 10.—The Massachusetts Field artillery, which is now in camp at East Boston, and federalized, will be the first selection of its new army units, in recognition of its efficiency. The brigade is commanded by Col. John H. Sherburne, and the 1st regiment will be the first National Guard unit on the new list, with the designation 101st field artillery. The 2d regiment will be the 102d field artillery.

At an early hour yesterday morning, while the air was calm and a detachment of the artillery started from the Commonwealth armory for a trip over the road with the 23 new horses which were accepted for them by the United States army officers.

525,000 DRESSINGS SENT TO HOSPITALS FOR RELIEF OF WOUNDED IN MONTHS

BOSTON, Aug. 10.—The surgical dressings committee sent abroad to various hospitals for the relief of the allied wounded during the month of July 25,000 dressings, a new monthly record. The dressings, sterilized at Boston hospitals and forwarded in sealed tins, are being sent to hospitals all the way from England to Saloniki.

OKLAHOMA CAR OPEN ALL DAY, SUNDAY

Owing to the intense interest shown and by request of many who are anxious to pass the word to their friends, and relatives, giving them an opportunity to visit the Oklahoma exhibit car, the management has decided to have the car remain open Sunday and open all day Monday.

The land is sold directly by the government and the car is here to acquaint Lowell people with Uncle Sam's marvelous bargain sale. No land is sold upon the car.

All are invited to visit the car and look over the extensive display of agricultural and mineral products, and for those interested all maps and data will be sent them. The car is located at Dutton and Fletcher streets and Western ave.

BOSTON TUNNEL FLOODED BY RAINS

BOSTON, Aug. 10.—A tremendous downpour of rain flooded streets and cellars here today and caused a temporary suspension of service in the Washington street tunnel of the Boston elevated railway. Starting with a thunder shower about 4 o'clock this morning, the rain fell in torrents almost continuously for four hours and at 10 a. m. was still falling. Although farms and gardens in Massachusetts had been suffering from the drought until the inch of rain which came yesterday, it is feared that crops will sustain considerable damage from the violence of today's storm.

Weather bureau records showed a total rain-fall of 2.58 in Boston between 4 and 9 o'clock today when the downpour ceased. In the 24-hour period ending at 9 a. m. the total precipitation was 4.05, the heaviest since August, 1915. Steam and electric railway service was delayed and much crop and garden damage reported.

"CAN ALL YOU CAN" AND "EAT ALL YOU CAN" CAN

WASHINGTON, "Eat all you can" was the suggestion made today by the department of agriculture, which is conducting an emergency educational campaign for the conservation of perishable fruits and vegetables.

"Can all you can" has been the slogan of the department of agriculture for some months, but now, with an enormous quantity of fruits and vegetables in Massachusetts, the department is pointing out that the housewife might well vary her menus by devising dishes composed in large part of fruits and vegetables which will not keep.

"Canning is hot work at best," declared a canning expert of the department today. "and during such hot weather as we have been having of late it is sometimes too much to expect the housewife, in addition to her regular duties, to spend several hours a day in the kitchen putting up food for the winter. While it is imperative that as much food as possible should be put up in tin or glass jars or cans, dried and properly stored, it is nevertheless well to bear in mind that by varying the diet much food which would otherwise be lost can be made to sustain life."

The department has just issued a bulletin, "Farmers' Bulletin 811", free on application, showing that peas, beans and similar legumes are useful as meat savers, that potatoes, sweet potatoes and similar vegetables are useful as starch savers; that fruits and sweet potatoes are possible sugar savers; and that all fruits and green and succulent vegetables are valuable to supply the diet with mineral substances and certain substances essential to health and which are present in minute quantities.

Directions for preparing fresh vegetables and fruits are published in the above-named bulletin. Farmers' Bulletin 256, entitled "Preparation of Vegetables for the Table," and Farmers' Bulletin 712, entitled "School Lunches," also give directions for preparing these vegetables.

Housewives of this city now look forward to the "Bye-bye" tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

DIPHTHERIA HERE ALARMS STATE BOARD

Special to The Sun
STATE HOUSE, Boston, Aug. 10.—Lowell's outbreak of diphtheria is causing some concern in the state department of health, the latest bulletin of the department, issued today, stating that "no source has been found to account for the continued prevalence of the disease. During June 59 cases were reported, as compared with 47 for the preceding month. Another disturbing feature is the fact that the cases are scattered in all sections of the city."

Only nine municipalities in the state reported for the month of June more cases than they have averaged per month during the past five years. Lowell leading the list of those so reporting. Springfield had 35 cases, against an average of 5; Malden had 27, the average being 9; Melrose had 11, the average being 4; Somerville, 23, with an average of 12; Weymouth, 10 with an average of two; Fitchburg, 14 with an average of 3; Gardner, 11, with an average of 0.

Health conditions throughout the state showed a distinct improvement during June, the total number of cases of communicable diseases reported for that month being 10,291, a decrease of more than 1000 cases as compared with May. The number was nearly 3000 more than for June 1916, however.

The diseases showing an increase over the May figures were typhoid fever, pulmonary tuberculosis, encephalitis, meningitis and poliomyelitis, while anthrax shows for the first six months of the year a number of cases higher than ever before in the history of the state, 30. Of those, nine cases were reported in June. Six of the 30 cases were fatal.

Thirty-six cases of cerebrospinal meningitis were reported during June, this being a considerable increase over the number reported in that month in previous years. For the first six months the number of cases reported for the whole state was 112, as compared with 33 in 1916. For several months this disease has been unusually prevalent in and about the cities of Boston, Lowell and Pittsfield. During June Springfield and Chicopee also reported an unusually large number of cases.

Poliomyelitis remained fairly well distributed throughout the state, seven communities reporting 15 cases during the month. Haverhill, where five cases were reported, presented, the only unusual incidence.

HOYT.

STORE OPEN TONIGHT

Hundreds of wise buyers delay their purchases until Friday nights.—Read our adv. on another page in this paper and see how much money you can save by coming here tonight. Merrimack Clothing Co., Across from City Hall.

Clothes Last

SIX TIMES LONGER

Longer

Proved by actual test: Clothes DO last six times longer when they are washed in the "Thor" Electric Washing Machine than when they are washed by hand.

Rubbing your fine handkerchiefs on a hard, rough surface is what makes holes come. Rubbing causes those thin places in your linen. The linen of table cloths and napkins never was made to be rubbed on the washboard. Linen never should be rubbed.

There is no rubbing with the "THOR" Electric Washing Machine. That is why clothes last six times longer. You needn't take our word. Take the word of users. The saving alone in your clothes will pay for the "THOR"—and besides you will be freed from wash day drudgery.

MANY CLAIMING EXEMPTION

Eleven Out of 13 Passed in Division Four Claimed Exemption

Two Aliens Anxious to Serve—One is a Veteran of the Boer War

Out of 19 men who were examined by the physician of the exemption board of division 4, this morning, 13 successfully passed the physical test, while six were rejected. Of the 13 who passed, 11 had claims of exemption, one stated he would not serve, while the remaining two who are anxious to serve Uncle Sam are two aliens, one a native of Canada and the other born in Greece. Three of those summoned to appear failed to report, while three others, who were aliens, refused to be examined.

The two aliens who cheerfully had their names placed on the roll of honor are Donat Gervais, a native of Canada, 21 years old, and residing at 150 Emmett street, and Yassios K. Marathos, a native of Greece, 23 years, and residing at 381 Adams street. The latter is a veteran of the Boer war and has been in this country but three years. He was married in Lowell six months ago. Mr. Marathos has a schoolmate in this

PRESIDENT SIGNS FOOD BILLS

WASHINGTON, Aug. 10.—The administration food control and food survey bills were signed today by President Wilson and became law.

SCORES KILLED BY EXPLOSION

LONDON, Aug. 10.—An explosion and fire in a big chemical works in East London last night wrecked the building and killed or injured women so far have been rescued from the ruins. A large number of injured have been treated at the police stations and other convenient places. Bodies are still being searched for.

MORE MEN SENT TO NEWPORT TODAY

The following men were shipped from the local naval recruiting station at 1215 this noon to the training station at Newport: Thomas D. Taylor, Andover; Christopher Cox, 97 Leverett street, William A. Schreckler, Brooklyn, N. Y.; James Mahoney, 6 rear 112 Charles street, and Joseph W. Currier, Lawrence.

Next Tuesday 15 apprentice seamen will be sent to the local station to Newport on the 5:15 train.

TROWN FROM WAGON
Patrick McCarthy, residing at 23 Rock street, was thrown from a wagon in Middlesex street shortly before noon today and suffered an injury to his back. The ambulance was called and he was removed to his home.

EX-PRES. TAYLOR'S CONDITION
CLAY CENTER, Kas., Aug. 10.—The condition of former President William H. Taft, who is ill at a hotel here, apparently was unchanged early this morning. Continued statements that there seemed "little to fear" in the patient's condition were made early today by Dr. Morgan, his physician.

FUNERAL NOTICES
COUGHLIN—The funeral of the late Edward A. Coughlin will take place Monday morning at 8 o'clock from his home, 3 Clinton avenue. A funeral mass will be sung at St. Columba's church at 9 o'clock. Burial in St. Patrick's cemetery in charge of Undertakers James F. O'Donnell & Sons.

HILL—The funeral of Edward J. Hill will take place Sunday afternoon at 2 o'clock from his late home, 134 Cornhill street. Burial will be in the family lot in St. Patrick's cemetery in charge of C. H. Molloy's Sons.

The Sun prints the news of the world when it is news and only such news as is fit to print. It is a clean family newspaper.

Courtesy All the Time
The spirit of gratefulness towards our customers is fully developed in us and for that reason we endeavor to show our appreciation by courteous treatment, not once but all the time.

We would look upon it as a helpful action if you would notify us of the slightest inattention or want of courtesy on the part of any employee, for only thus can we hope to make our store service a real service. Won't you help us to efficiently serve you?

Lowell Men Receive Commissions at Reserve Officers' Training Camp at Plattsburg

PARKER TUCK, Captain (Infantry)

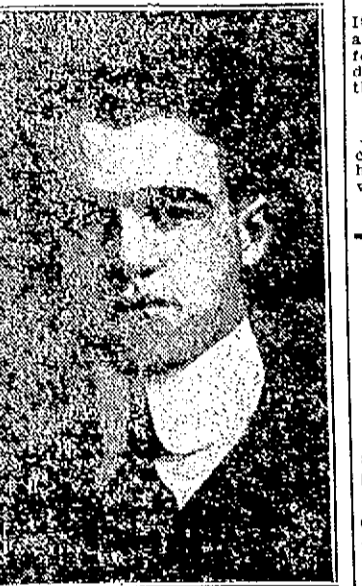

GEORGE WILKINS, 1st Lieut. (Infantry)

LINCOLN CLARK, 1st Lieut. (Infantry)

HAROLD E. DYER, 1st Lieut. (Infantry)

ROSWELL B. WHIDDEN, Captain (Infantry)

Two Captains, Three First and Thirteen Second Lieutenants—Appointments Will Date From August 15—Lowell Men Who Did Not Secure a Commission May Attend a Second Camp

The announcement of the appointment of officers from the Plattsburg training camp has just been made and it is found that Lowell young men are creditably represented on the list of successful candidates. Fourteen men from Lowell proper and four from surrounding towns are the figures which go to make up Lowell's showing.

The young men were informed of their appointment by the commanding officer at Plattsburg today and their commissions are to date from August 15. Two captainships were secured by Lowell men—Parker Tuck and Roswell B. Whidden. The other appointments consist of three first lieutenants and 13 second lieutenants.

The Lowell men left this city for Plattsburg last May and have been working and studying strenuously for three months. Their work has been of the quietly earnest kind and talks at home have heard little or nothing of just what they were doing. However, there is little doubt but what they have learned a great deal about military matters and when the time comes for the great National army of drafted men to be called to concentration camps there need be little fear that competent officers will be on hand to instruct and advise them in the important art of waging war.

The Lowell boys will leave Plattsburg for home Tuesday afternoon. Following are the names of men from

Lowell and suburban towns who have been given commissions in the infantry section, officers reserve corps:

CAPTAINS
Parker Tuck, 10 Varum st.
Roswell B. Whidden, Huntington and Sherman sts.
FIRST LIEUTENANT
George C. Wilkins, 16 Ware st.
Lincoln Clark, North Billerica
Harold E. Dyer, 43 So. Loring st.
SECOND LIEUTENANT
Hammond Barnes, 30 Huntington st.
Mervin D. Parthenais, 515 Merrimack st.
Arthur F. Woodley, 74 Gates st.
James J. Mullane, 48 Oak st.
Ralph H. Coburn, Dracut
Joseph A. Molloy, 417 Bridge st.
Gerard F. Reuter, 104 Pleasant st.
Ralph R. McLean, 1055 Middlesex
Edward W. Martin, (Battery), No. Tewksbury
George G. Robertson, (Quartermaster), 470 Andover st.
Leander F. Conley, 60 Tolman av.
Eugene F. Teller, No. Chelmsford.
Fred F. Spaulding, 1016 Middlesex st.

PARKER TUCK
Captain Parker Tuck, son of Mr. and Mrs. Edward M. Tuck, of 18 Varum street, was born May 18, 1889,

and received his early education in the public schools of this city, being a graduate of the Lowell high school. He attended Harvard college after which he took up the study of criminology at the University of Lausanne in Switzerland, but returned to this city shortly after the European war broke out. He attended the military training school at Plattsburg last year and the year before.

ROSWELL B. WHIDDEN
Capt. Roswell B. Whidden is 25 years old. He is a graduate of the Lowell high school and of the Harvard university, class of 1915. He was prominent in military affairs in the high school. His father, the late Clarence W. Whidden, was president of the Central Savings bank. Roswell was employed in a big aluminum works in New Jersey before going to Plattsburg.

LINCOLN CLARK
First Lieutenant Lincoln Clark is the son of Mr. and Mrs. Frederic S. Clark of North Billerica. He is a graduate of the Volkman school of Boston and of Harvard university, class of 1916. He was a member of the First Corps Cadets for four years and was always interested in everything pertaining to the militia. He applied for second lieutenant and the fact that the commission awarded him was that of first

lieutenant is splendid evidence of his success at Plattsburg.

HAROLD E. DYER
Harold E. Dyer, appointed first lieutenant, is married and resides at 43 South Loring street. Lieut. Dyer has always been prominent in local military circles being a member of Co. K of the National Guard for a number of years. At the time of going to Plattsburg he was first sergeant of this company. He was a member of the shooting team of the company and was also prominent in military athletics. He was a star player of the local Y.M.C.A. basketball team for a number of years and was identified with practically all the athletic activities of that institution. An interesting fact in connection with Lieut. Dyer's appointment is that he became a father since going to Plattsburg. His homecoming, therefore, will be a doubly happy one.

GEORGE C. WILKINS
George C. Wilkins, one of the three Lowell men appointed first lieutenants, is the son of Mr. and Mrs. Alfred W. Wilkins of 16 Ware street. He is 21 years of age and at the time of going to Plattsburg was studying in Harvard university. Lieut. Wilkins has had abundant military experience. He received his early education at the Highland grammar school, now the Charles W. Morse school. He entered the Lowell high school in 1909 and

throughout his whole course was prominently identified with the school organization. In his fourth year he was appointed captain of the regiment. He was graduated from the school in 1913 and returned the next year for a post-graduate course. In 1914 he entered Harvard university. In 1915 he was appointed captain of Co. D of the Reserve Officers' Training corps at the institution and the next year was graduated from the Lowell high school of the university. He was at the Plattsburg camp two years.

GEORGE O. ROBERTSON
Second Lieutenant George O. Robertson is the son of Mr. and Mrs. John L. Robertson, of 170 Andover street, and was born March 12, 1897. After graduating from the Lowell high school he entered the Lowell Textile school, taking up a course in wool manufacturing, and graduated with honors. Up to the time of his going to Plattsburg he was working with his father and uncle, The Robertson Co., in Prescott street. He attended the military training school at Plattsburg last year.

HAMMOND BARNES
Second Lieutenant Hammond Barnes is the son of Mr. and Mrs. Henry W. Barnes of 39 Huntington street, and was born March 10, 1891. He is a graduate of the Lowell high school and attended Dartmouth college, at

Plattsburg, where he was a member of the shooting team of the company and was also prominent in military athletics. He was a star player of the local Y.M.C.A. basketball team for a number of years and was identified with practically all the athletic activities of that institution. An interesting fact in connection with Lieut. Dyer's appointment is that he became a father since going to Plattsburg. His homecoming, therefore, will be a doubly happy one.

proposed committee revision, war profits tax of \$239,977,000 against \$77,736,000 proposed under the house bill. A table presented made the following estimates of the principal war profits tax payers:

Company	Excess Profits	Tax Under Senate Bill	Tax Under House Bill
U. S. Steel Corporation	\$207,915,000	\$76,736,000	\$21,685,000
Bethlehem Steel Corporation	53,715,000	25,045,000	7,121,000
General Electric Co.	6,223,000	1,126,000	1,083,000
Anaconda Copper Mining Co.	35,087,000	14,512,000	5,817,000
American Smelting & Refining Co.	11,158,000	2,492,000	1,228,000
Dupont Powder Co.	78,581,000	35,922,000	11,240,000
Pennsylvania R. R.	11,741,000	1,699,000	None
Big Four R. R.	5,514,000	1,233,000	None
Baldwin Loco. Co.	1,324,000	203,000	75,253
Standard Oil Co. of New York	20,425,000	6,065,000	4,024,000
Corn Products Co.	3,798,000	1,038,000	None
U. S. Rubber Co.	4,537,000	901,000	None

Senator Simmons declared that the committee proposes a specific war profits and not an excess profits tax. The house standard is "wholly unsatisfactory, artificial and arbitrary." Reasons for increasing corporation income taxes, Senator Simmons gave as follows:

The necessity for increased revenue on account of the large deficiency estimates for the army presented by the secretary of the treasury after the bill was recommended at my request on account of the Smoot amendment to the food control bill.

As a partial adjustment of an alleged and an alleged apparent discrimination against partnerships, which discrimination was accentuated by the action of the committee in subjecting individuals to the war profits tax.

Everybody who has read The Sun's Sunday Supplement, published on Saturday, has words of praise for it.

DENONCES ALL THOSE PROPOSING PEACE
WASHINGTON, Aug. 10.—Aroused by the pacifist meeting yesterday in the capitol, Charles Edward Russell, former socialist and now member of the returned commission to Russia, today denounced all persons proposing peace at this time or failing in unswerving support of the administration. Mr. Russell was particularly severe in his criticism of socialists and members of Congress adding the peace propaganda. Incidentally he declared that as a result of peace activities in the United States socialists have absolutely ruined their party. Mr. Russell said the party now consists of little more than an alien pro-German element. The men who were in it for such uplift as they could bring to the working people, he said, must seek elsewhere for political affiliation.

BRITISH LABOR CONFERENCE

Party Votes to Send Delegates to Stockholm Consultative Conference

Vote 1,046,000 to 55,000—Conference in Uproar When Announced

LONDON, Aug. 10.—The conference of the British labor party held at Westminster today voted to send delegates to the Stockholm consultative conference by 1,046,000 to 55,000. The conference was in an uproar which ended only when the result of the card vote was announced.

Not to Attend
LONDON, Aug. 10.—The Belgian and Italian socialists have resolved not to attend the international socialist conference at Stockholm, according to a despatch from the Swedish capital to the Exchange Telegraph Co.

Important Session
LONDON, Aug. 10.—An important conference of the labor party will be held at Westminster today to decide whether British labor shall be represented.

TEN KILLED BY EXPLOSION

PITTSBURGH, Pa., Aug. 10.—Ten persons are reported to have been killed in an explosion at 2:45 o'clock this afternoon at the plant of the Spang Chaffant Steel Co., at Aetna, north of this city. The cause of the explosion is not known.

BIG STRIKE IN MADRID

MADRID, Aug. 10.—After negotiations covering a long period between the railroad employers and employees the men last night broke off relations with the companies. A strike of the men is expected to begin at 8 o'clock tonight. The government is taking all measures to maintain traffic.

TEAR DOWN "KAISER WILSON" BANNER

WASHINGTON, Aug. 10.—A banner displayed at one of the White House gates by a woman's party suffrage picket addressed to "Kaiser Wilson" was torn down today after an indignation crowd had jeered and hissed the suffragists for several minutes. The banner was carried by Miss Lucy Burns, who figured in several of the previous demonstrations in front of the white house. It was inscribed: "Kaiser Wilson—Have you forgotten your sympathy with the poor Germans because they are self-governed? Twenty-million American women are not self-governed. Take the beam out of your own eye. If you draw a crowd which gave free voice to its indignation there was no concentrated attack on Miss Burns, but James P. Delaney, a railroad department clerk, tore the banner from the pole and shot out through the crowd and up Pennsylvania street before anyone could touch him. He was not pursued.

AMERICAN SEAMEN AND EMPLOYERS AGREE

WASHINGTON, Aug. 10.—American seamen and their employers have come to a full agreement on wages and working conditions during the war which government officials said today solves the problem of obtaining sufficient men to operate the great merchant fleet the country is building.

HELD FOR SMUGGLING PLATINUM TO GERMANY

NEW YORK, Aug. 10.—Six members of a Belgian relief ship crew, were arrested here today with three other men, on charges of smuggling rubber and platinum into Germany by way of Holland and Belgium. All nine of the prisoners are said to be Belgian citizens and their arrest, the police said, is the culmination of a year's search for the underground route by which it is believed Germany has succeeded to get weekly an estimated \$25,000 to \$30,000 worth of merchandise surreptitiously from Atlantic ports of this country. The value of the goods in Germany is said to be five-fold their cost here.

UNFILED TONNAGE OF STEEL
NEW YORK, Aug. 10.—The unfiled orders of the United States Steel corporation on July 31 were 10,844,144 tons, according to the monthly report issued today. This is a decrease of 539,123 tons from the orders on June 30.

DRY YOUR CORN INSTEAD OF CANNING IT

Within the next few weeks the sweet corn in thousands of gardens will be maturing. Not all of it will be eaten, some of the surplus will be canned and some will be allowed to rot.

The inexperienced canner will find some difficulty in canning corn. Even the veteran canner often suffers serious losses. This loss can in a large measure be avoided by drying at least a part of the surplus. Those who are accustomed to eating good dried corn will agree with us when we say it is superior to canned corn. Also it is more nutritious because in canning the corn should be young and tender, while for drying it is best if taken just as it passes from the milk to the dough stage, or just when it has passed its prime for roasting ears. It is, therefore, more nearly mature and consequently possesses more food value. This does not mean that corn cannot be dried when young and tender, but that it is better if taken as directed above.

The corn is prepared for drying by husking, followed by a blanching of five to ten minutes or it may be cooked the same as if preparing for the table. After dipping into cold water the corn is cut from the cob in thin slices making at least three slices to the depth of the kernel, to insure getting all corn the cob should be scraped with the back of a knife. Do not cut off the ends of the kernels and then scrape out the pulp of the kernels as is often recommended for canning. This method will give a sticky gummy mass which is more difficult to dry than when the kernels are cut in thin slices. The smaller the particles, as long as they do not adhere together to form masses, the more rapidly the product will dry.

The actual drying may be done in any one of many ways. If the weather is fair it will dry in about three to four days if spread on clean cloth in the sun. A piazza roof or shed roof sloping to the south makes an excellent drying place. Lacking these, a temporary platform may be made, using boxes or stakes for supports. When exposed in this way it should be protected from flies and other insects by a covering of mosquito netting. When thoroughly dry the corn will be hard and will rattle.

As a matter of insurance against insects corn dried in the sun should be placed in pans and put into the oven where it is stirred occasionally, being careful not to heat enough to burn. If a thermometer is at hand have an oven temperature of about 150-160 degrees F. and leave the corn in the oven thoroughly heated, 10 to 15 minutes.

When cooled sufficiently it may be stored in paper bags, coffee cans or other simple containers which are insect proof and should be stored in a dry place.

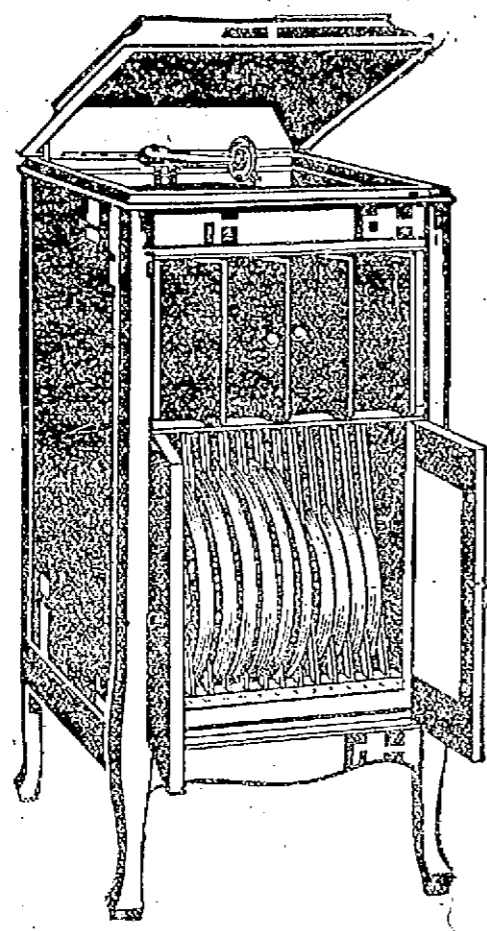

Corn dried in the open air should be protected from the dew and should not be wet by the rain.

If for any reason it is desired to hasten drying, the kitchen range oven may be utilized as an evaporator. If the corn is placed in shallow pans or in a fine meshed screen frame and set in a slow oven it may be dried in a few hours.

Do not place the corn more than 1/2 inch deep in the pans or trays, and stir it occasionally in order to dry it uniformly.

In drying corn or any product in an oven the door must be left open a few inches so that the air may circulate freely. The temperature should be watched carefully as a high temperature will cook rather than dry. The temperature of the oven can be regulated somewhat by opening the door wider if the heat becomes too intense. A temperature of 150-170 degrees F.

MOTORMAN A HERO

Motorman Thomas LeClair of the Bay State Street Railway Co., by prompt action Wednesday night, saved the life of a child who had run onto the track in front of his car. The incident occurred in Lawrence street and the car, one of the extras from the U. S. Carriage Co., was filled at the time. At a point near Cady street the child ran out across the tracks. Motorman LeClair reversed the power but was not able to bring the car to a stop before reaching the child. He jumped in front of the car and succeeded in pulling the child out of the way of the car.

LOWELL SOCIALIST CLUB

The weekly business meeting of the American branch of the Lowell Socialist club was held last night at 36 Central street. Routine business was transacted and one new member was admitted. Next Monday night William E. Sproule will speak at the corner of Jackson and Central streets, with Henry Bourke as chairman. These meetings were reported as successful from the amount of interest being manifested. The next meeting will be held Aug. 15.

AMERICA ADOPTS TAG SYSTEM TO IDENTIFY MEN OF THE ARMIES

Like most European nations, the United States has adopted the method of identifying soldiers shown in the

accompanying picture. The little metal tag or medal suspended from the soldier's neck is stamped with his number and the number of his regiment, so that identification may be made easily if necessary.

CANOE LAGOON PARK

James L. Lasky in association with David DeLacoe, will present at the Canoe Lagoon Park theatre for tonight and tomorrow, the picturization of DeLacoe's supreme hit, "The Woman," by William C. DeMille.

"The Woman" contains a fascinating combination of political and domestic intrigue. Jim Blake is the boss of one of the great political rings at Washington and is doing his utmost to pass a bill that will wrongly favor the railroads. He is opposed by a young reformer by the name of Matthew Standish. The sympathy of the public is so clearly with Standish, that Blake sees his bill will be doomed to failure unless something can be done to discourage his opponent. He hires detectives and discovers that there was once an affair between Standish and a woman when they did not marry. With this to work on Blake makes a tremendous effort to get the woman's name, confirm the story and have it printed in a leading newspaper.

This is positively one of the strongest, finest and most sympathetic American photo dramas ever produced. As an extra attraction for next week the management of the swimming pool has secured "Noble" Vandeville's prettiest mermaid, and she will give exhibitions at the pool afternoon and evening.

AT LAKEVIEW CHAPEL

The musical program at the 10 o'clock mass at the Catholic chapel at Lakeview on Sunday will be as follows: Hymn to the Sacred Heart, Choir. O'Sullivan. Mr. John Spillane. Solo, "Like a Ragging Fire." Mr. Francis Cassidy. Hymn of Praise. Choir and Congregation. The soloists at the 8.30 mass will be Mr. Edmund Connolly while Miss Leona Spelman will preside at the organ at both masses.

WHOLE POPULATION OF ARMENIANS WILL BE EVACUATED

PARIS, Aug. 9.—A despatch to the Havas agency from Constantinople says it is learned there that the whole population of Armenians will be evacuated. No details are given.

INSISTS GERMANY PAY NEW DRAFT NUMBERS FOR LOWELL MEN

LIMA, Peru, Aug. 10.—The chamber of deputies unanimously approved the energetic attitude of Dr. Francisco Tudela the foreign minister in handling the case of the Peruvian bark Lorton.

The Peruvian government yesterday refused the offer of the German government to submit the question of the sinking of the Lorton to a prize court. The government declared the sinking was unjustified and insisted that the German government pay for damages and make an indemnity.

"Lady Lookabout" "The Spellbinder" and "Quarter of a Century Ago" articles now appear in the Sunday Supplement of The Sun published each Saturday.

At a corollary draft lottery held at the state house in Boston yesterday Lieut. Gov. Calvin Coolidge in the absence of Gov. McCall drew four names from the jury wheel and thus assigned 70 men in various parts of the state their proper red ink numbers. The following numbers were drawn by Lowell men:

253—Forrest E. Drake, 621 Chelmsford street.

302—George Karakasis, 334 Suffolk street.

252—Nick Zenter, 340 Suffolk street.

RAILROAD CARNEN
An important meeting of the Brotherhood of Railroad Carmen of America was held in Old Fellows hall last evening. The speakers of the evening being Frank Spoker, leader of the railway workers at the Mystic wharf shops at Boston.

SUSPEND RAILROAD WORK NOT NEEDED TO HELP WIN THE WAR
The railroad's war board has addressed a plan to public service commissions and all state, county and municipal authorities throughout the United States, urging co-operation with the railroads in a suspension during the war of "all efforts not designed to help directly in winning the war." The letter says:

To the State Public Service Commission, State, County and other Municipal Authorities:

The American Railway association's special committee on national defense now co-operating with the government to further the successful prosecution of the war respectfully invites your consideration of the following suggestions as means to facilitate the efforts of the committee:

The present emergency has imposed upon the railroads a very unusual strain in transporting men, food, coal, munitions and materials in augmented quantity. This burden, while cheer-

fully undertaken, requires every ounce of energy, every unit of rolling stock, every dollar of capital, every bit of supplies and coal which the railroads can command.

It is the opinion of this committee that all efforts not designed to help directly in winning the war should be suspended during the period of the war. Indeed, this is obviously the thought of President Wilson in his appeal to the country on April 16, 1917, which included the following statement:

"It is evident to every thinking man that our industries . . . must be made more profitable and more efficient than ever, and that they must be more economically managed and better adapted to the particular requirements of our task than they have been."

Therefore this committee earnestly recommends that during the war the railroads be required by the public authorities to make improvements and carry out projects involving the expenditure of money and labor only when they are absolutely essential for war purposes or public safety. The prevailing high interest rate on money, the difficulty of raising money in competition with the tax free issues of the government, the excessive cost of supplies and labor, the delay in obtaining material, the possible block-

ade of traffic and the diversion of labor all contribute to make non-essential construction undesirable during the war.

The committee considers that the erection of new stations, elimination of grade crossings, are among the non-essential improvements which should be deferred at this time. We respectfully suggest that the basis for consideration of new projects at this time should be the increase in the capacity of the carriers for national service.

Furthermore, we urge your co-operation in eliminating all passenger service which is merely convenient and not justified by public necessity during the present emergency situation.

"Richards." The Sun's own Washington correspondent and other noted writers from the nation's capital are regular contributors to the Sunday Supplement of The Sun published each Saturday.

Dr. McKnight THE ONE PRICE DENTIST

Says: I WILL PAY \$100 IN CASH to any person who can show that in any instance I exceed the prices stated below during the entire month of August in my Lowell office.

SPECIAL PRICES UNTIL SEPT. 1st

Full Set Teeth \$4
Best Set Teeth \$7.50

No better made elsewhere, no matter what you pay.

No doubt many readers think it is impossible to make a first-class set of teeth for \$7.50. Let me tell you something—The entire cost of all the material used in 90% of the sets of teeth made is less than \$3.00 per set.

The immense volume of business that I do enables me to give you a set of teeth for \$7.50, that other dentists charge from \$15.00 to \$30.00 for.

An Unparalleled Offer—Wear one of my sets of teeth for ten days and if at the end of that time you are not satisfied with them return them to me and I will refund your money in full.

Gold Crowns and Bridge Work \$3.00
Best Gold Crowns and Bridge Work heavily re-cased, forced cups, \$5.00

Gold and Porcelain Fillings \$1.00 and Up
Silver and Cement Fillings 50c to \$1.00

ORDER LOCAL BOARDS TO REDUCE DISCHARGES

WASHINGTON, Aug. 10.—Wholesale claims for exemption from the army draft, reported from many sections, caused Provost Marshal General Crowder to telegraph the governors of the states last night directing that local boards "reduce discharge for dependency to a far more restricted class and to very necessary and clearly defined circumstances."

In some districts as high as 80 per cent of the registrants called for examination are filing claims for discharge on the ground of dependent relatives. Such a condition indicates Gen. Crowder said, that unfair advantage is being taken of the regulations designed to protect men who properly should be exempted from military service and actually threatens to interfere seriously with the raising of the national army.

Says Plant Juice Is So Wonderful

A Lowell Man Relates That the
New Stomach Remedy Gave
Him Instant Relief

Plant Juice, the new herbal stomach remedy, brings the sunshine of health to a poor body which has long lingered in the winter of sickness.

ANTONIO CANBELLO.

Many local men and women who have been suffering from stomach disorder, with its accompanying distressing symptoms have felt the sunshine of good health, as their numerous testimonials show.

Mr. Antonio Canbello, of No. 153 Appleton street, Lowell, who is employed in the H. & M. Ry. shops, recently gave the following signed statement:

"I have been troubled with my stomach for some time, was constipated and always had a sleepy, drowsy feeling, with no ambition or energy to do anything. I was so nervous I could not sleep at night and had headaches constantly. My liver was affected, which made me very dizzy at times, and I was completely run down. I had taken all kinds of medicine but nothing gave me any real benefit until I started to take your Plant Juice. It gave me almost immediate relief, and now I am able to eat all of my meals and enjoy them, I sleep well and am not so nervous. I am feeling the best I have in years and am glad to give this endorsement for Plant Juice."

Plant Juice acts almost like magic in stomach trouble, gas, fermentation, heavy, distressed feeling after meals and on retiring. It attacks and destroys all poisons in the blood, corrects diseased conditions of the liver and kidneys and restores them to normal condition.

The Plant Juice Man is at Dows, The Drugstore, in Merrimack street, Lowell, where he is daily meeting the local public, and introducing and explaining the merits of this remedy.

their exclusion or discharge advisable. "The controlling necessity is to raise an army. It is advisable to disturb dependents just as little as the necessity of raising an army will permit. To this end, section 18, of the regulations was compiled carefully and after the most earnest consideration. If experience is to prove that the generous conditions prescribed by section 18, or any abuse of them, will interfere with the raising of an army, then it is no longer advisable to discharge so wide a class and the conditions stated therein will have to be restricted until an advisable rule is reached."

"Nothing has happened to change the belief that the persons enumerated in section 18 could be discharged without interfering with the raising of an army, but there are indications that abuse of section 18 may render its continuance no longer advisable."

"Reports are to the effect that, in some districts as high as 80 per cent of persons called before local boards are filing claims for discharge on the ground of dependent relatives. Such a percentage of claims, when viewed in connection with all available statistics, indicate beyond question that advantage is being taken of the provisions of the law and regulations which were intended to reduce to a minimum military duty at home normally attendant upon war."

Many Claims Unfounded
"There is a moral certainty in the extravagance of this percentage that hundreds of unfounded claims are included in these totals."

"This state of affairs greatly increases the burden of local boards, for if so high a percentage of registrants claim exemption, only the uncomprehending action of local boards can prevent a new regulation on the subject of dependency to a far more restricted class and to very necessary and clearly defined circumstances."

"In the absence of a stern reprimand by local boards of unscrupulous action, this result is inevitable since any such percentage of exemptions as reports of claims indicate would nullify the law and prevent the raising of an army."

"It is thus apparent that the filing of these improper claims will react directly and injuriously on persons whom the present regulations were designed to protect and that the welfare of persons who have filed bona fide claims of the regulations is seriously imperiled by persons who have filed claims without merit, and that the only protection of persons whose cases are within the meaning of the present rules, lies in the power of local boards to refuse exemption in every doubtful case."

"It is true that cases of discharge on the ground of dependency are appended to the district board, but this clause is only inserted to secure uniformity of action. District boards are to examine these cases to discover departures from the law regulations and rulings, and they will not and cannot open every case on its merits. It is in the local boards alone, therefore, that the solution of this difficulty and the protection of deserving claimants lies."

BODY OF LITTLE ALICE BRADSHAW FOUND

ST. JOHNSBURY, Vt., Aug. 10.—The body of little Bradshaw, the little cripple believed to have been murdered July 5 because she was a bother, was found last night on the bank of a small swamp about a mile from her father's house, in Lyndon. The discovery was made by E. A. Gray, who was moving along the edge of the swamp, after organized search for the missing child virtually had been abandoned. According to Gray the body had not been covered by earth or brush and was seen readily as soon as he had cut down the tall grass.

Search for the little girl was begun on July 6 after the county officials had stated that Miss Edna May Hicks, housekeeper for John Bradshaw, the child's father, and Mrs. Alvin Kenniston, had confessed that they had killed the child because she was a bother. The two women have been under detention in the local jail since then and, according to the officials, have made contradictory statements.

It was dusk last night when the girl's body was discovered, and it was in such a condition that it could not be told from a preliminary examination what had been the cause of death.

The body was removed at once to a undertaker in this town. A strict guard was placed about it and pending the outcome of the examination by the county medical examiner and other officials all information was withheld.

Alice Bradshaw was left a cripple as

MITCHELL'S AUGUST SALE OF SUIT ENDS

\$15, \$18, \$20, \$22 SUIT ENDS

MADE TO ORDER FOR

\$12.00

These are actual reductions in all Suit Ends gathered in the course of the season from regular goods—cut for window display or last of stock sold up—including blacks and blues.

My August Sale is noted for the extraordinary bargain opportunities it has offered for the past nine years until now it has become an institution of value giving, second to none in the minds of this great community.

This is Red Letter Week in the custom tailoring history of Lowell, and any man or young man, who needs anything in my line for this season or early fall, come in, pick out one or two suit patterns and let me make them up at this price. I usually have a wholesome regard for the cost price of my merchandise, but at this time of the year, I am satisfied to take a considerable loss on the balance of suit patterns still on my tables to effect a complete and positive clearance. Any man who wants an all wool guaranteed suit made to his order can come here now this week and buy it for nearer nothing than he has any right to expect. But the number is limited—SO DON'T WAIT.

BLUE SERGES

GUARANTEE EVERY SUIT CUT FROM THESE GOODS IN REGARDS TO COLOR—Future purchases are doubtful.

I have selected one number from this lot and called it a \$15 suit for the next six days. This is a WANSKUK BLUE SERGE, FALL WEIGHT, guaranteed in every way or a new suit; you and I may never see the day when this quality sells as cheap, it means a saving of \$7.00 to \$10.00 a month later on—THIS IS A SPECIAL.

ORDER NOW—You can have your suit ready in a week or you can leave it for two months.

OPPOSE SENDING MEN TO RUSSIA

WASHINGTON, Aug. 10.—Emphatic disapproval of the suggestion that American troops be sent to the eastern front was brought home by all except one of the members of the American mission to Russia.

It was authoritatively stated last night that Charles Edward Russell is the only commissioner who believes it desirable to put soldiers from the United States in Russia, and that the others are convinced that their presence would be detrimental rather than helpful to the armies of the new democracy.

With 10,000,000 men under arms, they think Russia requires no more soldiers; particularly she does not need a few thousand strange soldiers, speaking an unfamiliar tongue, drawing better pay and eating better food than her own men. As an aid to actual fighting, it was pointed out the small number of American troops that could be maintained in Russia would be of little or no value.

Lending assistance to the men now in the field rather than putting more men there to drain the already scant supplies is the duty of this country, the commissioners feel. Rolling stock for the railroads to carry supplies and equipment to the native soldiers, and the supplies themselves are the real requirements.

Of the greatest importance, the commissioners say, is constant encouragement from citizens and the newspapers of the United States. Anti-American propagandists, headed by former residents of this country, and now financed by Germany money, are seeking to paint Americans in the blackest shade and thus discourage Russians from accepting their good offices.

The story of the origin of this extraordinary propaganda is couched for every member of the commission. Shortly after the outbreak of the revolution, it is declared that propagandists, composed chiefly of socialists, set

work to abolishing all present forms of government and establishing without delay rule by the Brotherhood of Man, returned to their native land and began berating the United States and its people. Germans, quick to see the advantage of controlling these agitators, began supplying them with money, and today, flush with wealth, they are going through Russia spreading the most vicious canards.

One of the commissioners, discussing these men, said last night he could only explain their attitude by their never having become an integral part of the United States citizenry. Many of them, it is understood, lived in the congested foreign sections of New York and seldom came in contact with American citizens.

Cholera morbus is putting on its kicking clothes. Don't be without a bottle of Dows' Diarrhoea syrup in the house. All druggists.

CARPENTERS THREATEN GENERAL STRIKE

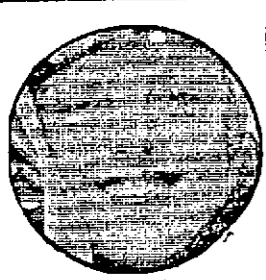

NEW YORK, Aug. 10.—Threats that every union man engaged on government work would strike within a few days unless demands of the Carpenters union for a closed shop on government contracts are met, were made by spokesmen of the union at a conference here yesterday with representatives of the war and navy departments and contractors. The union leaders declared that if the strike is called more than 50,000 men will quit work.

Although another conference will be held today, the negotiations last night were said to have included an offer by

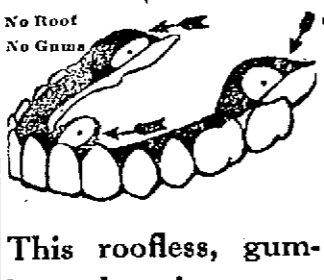

the union to admit all non-union carpenters into membership without initiation fees.

According to the union leaders, carpenter work on 30 army cantonments, two port terminals, several aviation camps and the New York navy yard is affected. It was claimed that about 3000 carpenters already are on strike at army cantonments near New York. The carpenters demand the immediate discharge of all non-union carpenters from federal work or the cancellation by the government of contracts with all firms employing such labor. At present, it was said, only eastern territory is involved in the dispute. Discussions, but union leaders said they would make a nationwide affair of it unless their demands are met.

Let wisdom put you on the right track, and you will never be without a bottle of Dows' Diarrhoea and Cholera syrup.

JOSEPH A. MOLLOY, 2nd Lieut. (Infantry)

RECEIVE COMMISSIONS

ter which he took up the study of cotton manufacturing and had been employed as an overseer in the weaving department of the Massachusetts mills. He attended the military training school at Plattsburg last year.

JOSEPH A. MOLLOY
Second Lieutenant Joseph A. Molloy, son of the late Charles H. Molloy, of 147 Bridge street, was born May 26, 1899. After attending the public schools in Lawrence he went to St. Anselm's college in Manchester, N. H., and after graduating from that institution entered the undertaking business with his father. He attended the officers' training school at Plattsburg last year.

JAMES J. MULLANEY
James J. Mullaney, appointed second lieutenant, is the son of Mrs. Anna T. Mullaney and resides at 46 Oak street. Lieut. Mullaney is 25 years of age. He is well known in Lowell. He received his preliminary education at the Immaculate Conception parochial school and the Lowell high school. He was graduated from the latter institution with the class of 1907. While in the high school he was a captain in the school regiment. Upon the completion of his course at high school he entered the Lowell Commercial college and later was appointed to the United States census bureau at Washington. He afterwards took a course in dentistry at Tufts Dental school and upon finishing this accepted a position with the U. S. Cartridge Co. as an inspector in the finished shell department. He was also a member of the O.M.I. Cadets for many years.

GERALD F. BEANE
Second Lieutenant Gerald F. Beane is the son of Mr. and Mrs. Thomas J. Beane, 104 Pleasant street. Lieut. Beane, who is high school was a member of the regiment, and was also connected with the O.M.I. Cadets. Upon graduation from high school he took up newspaper work, and worked for a time as reporter for The Sun. Later he was employed on a Nashua paper, and it was while there that the Mexican trouble became acute, and men were called for border service. On June 21, 1916, he enlisted with Company M. When the company arrived at Framingham he was appointed company clerk, with the rank of corporal. The company left Framingham on June 26 and arrived at El Paso, Texas, July 1. After three

months' service on the border, the company returned home. Shortly after Corp. Beane was made supply sergeant, and when the National Guard companies were requested to send men to Plattsburg to train for commissioned officers, Capt. Christian selected Sergt. Beane.

HERVE D. PARTHENAIS
Herve D. Parthenais was born in this city 23 years ago. He is the son of Charles Parthenais, a former Lowell business man now located in Montreal, Que. The young man received his early education at the Bartlett school and later studied at the Montreal seminary where he graduated with honors at the age of 18. He graduated from the Massachusetts College of Pharmacy in 1909, and passed the examination of the Massachusetts board of pharmacy. He is connected with several local fraternal organizations, including the C.M.A.C. and Club Lafayette.

RALPH R. MELLOON
Second Lieutenant Ralph R. Melloon lives at 1888 Middlesex street. He is the son of Mr. and Mrs. John C. Melloon. He is a graduate of the Lowell high school, Bowdoin college and the Amherst Agricultural college. At Amherst he received the gold medal awarded by the state for being the best drilled man in the institution. He is 25 years old and has always been very much interested in military affairs. In high school he was one of the majors of the school regiment. He was graduated with the class of 1915.

ARTHUR F. WOODIES
Second Lieutenant Arthur F. Woodies is the son of Mr. and Mrs. Fred Woodies of 74 Gates street, and was born in 1891. He graduated from the Lowell high school, after which he attended the University of Vermont, Dartmouth college and Bryant & Stratton's Business college. He is an able newspaperman and has worked on the Springfield Union and Lowell Courier-Observer, and prior to going to Plattsburg was on the editorial staff of The Lowell Sun.

LEANDER F. CONLEY
Leander F. Conley, appointed second lieutenant, is the son of the late Leander F. Conley, who died about two years ago. Mr. Conley, Sr., was well known in local mill circles as he was for over 30 years an overseer in the Lawrence Manufacturing Co. Mrs. Conley is still living at 69 Tolman avenue. Lieut. Conley is favorably known here in Lowell. He is 23 years of age and received his early education at the Pawtucket grammar school. Upon the completion of his studies there he entered the Lowell high school and later attended the evening Textile school.

ARTHUR F. WOODIES, 2nd Lieut. (Infantry)

is 23 years years old and the son of Mr. and Mrs. John R. Martin of North Tewksbury. He was born in Lowell and educated in the public schools. After graduating from the Moody grammar school, he entered the Lowell high school and graduated with honors in the year 1913. He was a Carney medal scholar. He then entered Harvard college, and when the military course was added to the curriculum he was among the first to enroll. He was training with the college corps when the call for Plattsburg was issued.

FOSTER ELLINGWOOD
Foster Ellingwood, son of the late Edward Ellingwood, who conducted drug stores in this city for a number of years, was given a second lieutenant's commission at the officers' training camp at Plattsburg. Young Mr. Ellingwood is about 23 years of age and is a graduate of the Lowell high school and late he had been employed by the American Woolen Co. at Fitchburg, Mass.

ATTEND SECOND CAMP
A number of other Lowell young men took the officers' training course at Plattsburg but were unsuccessful. These men will not have worked in vain, however, as they will be given an opportunity of attending a second camp and their experience ought to render it a simple matter for them to obtain the coveted commissions, even though they will come belatedly. Another reconciliation is the fact that the men who were unsuccessful in becoming commissioned officers will be made non-commissioned officers and will have an opportunity to work up to a commission. Stick-to-it-iveness is the one quality which the men need to maintain.

THE MAYOR WRITES TO COLONEL LOGAN

Mayor James F. O'Donnell has sent a letter to Col. Edward L. Logan of the Ninth regiment, M.N.G., requesting him to allow the members of Company M to participate in the parade and reception to be held in their honor under the auspices of the public safety committee. The mayor has also invited the colonel and his staff to participate in the festivities as the guests of the city of Lowell.

The letter sent to Col. Logan is as follows:

Col. Edward L. Logan, Ninth Infantry, Massachusetts Inf., M.N.G., Camp Devens, Framingham.

Dear Colonel Logan: Please accept my apology for not keeping my appointment with you yesterday afternoon. A terrible storm made it impossible for us to go over the road, there were no adequate train accommodations.

The matter concerning which we desired to consult you is this: The city of Lowell has set aside Thursday afternoon, next, Aug. 16, as a day of parade and review followed by a dinner to the boys and the city will furnish them transportation to and from their respective camps. We are confident that if we secure your permission to permit Company M to come to Lowell on that day, we shall obtain also the permission of Col. Swester of the Sixth and Col. Hower of the Second Field artillery to allow the Lowell companies of their respective commands, to attend. Incidentally, we hope to be honored by your presence and that of your officers as the guests of the city of Lowell on that occasion.

We shall not require the presence of the company until 2:30, and shall send a special train to Framingham for them in ample time to get them here at that hour. We shall send them back to camp by special train sometime around 8 o'clock so that they will be at their posts at the usual relieving hour.

Will you kindly notify me as soon as possible, if we may expect Company M, and yourself and staff, on that occasion?

Respectfully,

James F. O'Donnell, Mayor of Lowell.

The mayor has also sent a letter to the commanders at the Charles town navy yard, Commonwealth pier and naval reserve in New London, asking them to give the Lowell men who are in their commands a furlough on Thursday, Aug. 16 in order that they may participate in the celebration, the city to pay their traveling expenses, and to care for them during their stay in Lowell.

His Honor also urges the friends of sailors or soldiers who are in other commands than those already mentioned, or the National Guard, to write to them and inform them of the celebration to be held in this city and request them to endeavor to be in Lowell next Thursday.

HERVE D. PARTHENAIS, 2nd Lieut. (Infantry)

wood is about 23 years of age and is a graduate of the Lowell high school and late he had been employed by the American Woolen Co. at Fitchburg, Mass.

ATTEND SECOND CAMP
A number of other Lowell young men took the officers' training course at Plattsburg but were unsuccessful. These men will not have worked in vain, however, as they will be given an opportunity of attending a second camp and their experience ought to render it a simple matter for them to obtain the coveted commissions, even though they will come belatedly. Another reconciliation is the fact that the men who were unsuccessful in becoming commissioned officers will be made non-commissioned officers and will have an opportunity to work up to a commission. Stick-to-it-iveness is the one quality which the men need to maintain.

Nervous Wreck--

Now Live Wire

Makes Everybody Sit Up and Take Notice

One of our big league ball players had been going back for some time, no matter how hard he tried he could not get his old time Pep and Ginger into the game. It was up hill work all the time. He was one of those honest hard working fellows and it finally got his "goat," his nerves went bad, he commenced to run down, could not eat or sleep and kept steadily slipping. Doctors and medicines were of no help.

One of his many admirers said to him, "Why not try Phosphated Iron, everybody is boosting it."

Grasping at the last straw, the poor fellow took a try at it. The very day he came back was an "eye opener" he was there in every department of the game, his nerves were like iron, he could hit the ball and was no time getting back to the three hundred mark, while his base running and fielding were great.

Discussing the matter with our reporter, he said, "Would you believe it, I could feel the iron charging my blood with health and strength, while the way the Phosphates steadied and renewed my nerve force was almost too good to believe. Phosphated Iron took hold of me right from the start and sure did make a new man of me, and you can bet I carry a good supply on all my trips."

Doctors will tell you that you must have plenty of iron and Phosphates in your system if you want pure red blood and steady nerves. Iron. Every one who is run down, nervous tired and has that "all in" feeling should try Phosphated Iron and you will never be without it again.

Special Notice--To insure physicians and patients receiving the genuine Phosphated Iron we have put up in capsules only so do not allow dealers to substitute pills or tablets. Insist on the genuine in capsules only.

Fred Howard, the Druggist, Lowell Pharmacy and leading druggists everywhere.

A particularly interesting Woman's Page appears in the Sunday supplement which is given away free with Saturday's Sun.

JAMES J. MULLANEY, 2nd Lieut. (Infantry)

BREAKING TRAINING CAMP AT PLATTSBURG

PLATTSBURG, Aug. 10.--The breaking up of the training camp for the first three months' tour of duty began yesterday. Several of the companies, all the quartermaster's department could handle, marched to the storehouse and turned in extra shoes, extra olive drab shirts and leggings. This was continued today and on Saturday rifles, revolvers, belts and any other extra articles will be handed over. Some of the men are buying their extra, figuring that the articles will never be as cheap again during the duration of the war, particularly shoes. Those not engaged in the quartermaster's work were busy at conferences and some at signal corps work.

The method of notifying the 3200 candidates on the list for commissions is progressing slowly. Not more than two companies have received word that they are commissioned. The notification is given the men individually by telegram addressed to their commanding officers and the man in question is then informed by his company commander and is instructed to tell no civilian of his commission. The work is most unsatisfactory, say officers who have seen the list, telegrams having names misspelled and no addresses being given to assist in identification.

The candidates now believe that the command will first learn of the results of the three months' training from the newspapers. There is much self-doubt only regarding the commissions, but also of the names of the men who

are recommended for a second tour of duty of three months. Why so much mystery over what the men themselves claim should be entirely open, as was the draft, is more than army officers can understand.

Fifteen candidates were yesterday designated to the aviation ground school at the Massachusetts Institute of Technology and will leave here on Saturday. Eight of the number are from the New England regiment and are as follows: W. Leckie, Brookline, 1st Troop; E. R. Cowles, Hanover, N. H., and J. L. Hubbard, Providence, R. I., company; D. D. Shuttleworth, West Springfield, S. Carlisle, Exeter, N. H.

FOR SATURDAY

UNARMED CRAFT
SINKS U-BOAT

LONDON, Aug. 10.—Another unarmed merchantman has sunk a submarine, but, because of the fate of Capt. Charles Fryatt of the British steamer Brussels, who was executed in July, 1916, by the Germans for attempting to ram a submarine, the names of the captain and crew of the steamer and particulars concerning their achievements cannot be published.

The captain and crew of the vessel, however, have been presented \$2500 by Sir William J. Tatem, chairman of the Tatem Steam Navigation Co., for their deed.

POWER TO SETTLE ALL
INDUSTRIAL TROUBLES

WASHINGTON, Aug. 10.—Possibility of important government contracts being impeded seriously by labor disputes virtually is eliminated by the creation of a special commission with extraordinary powers to settle industrial troubles. The council of national defense which recommended the board, will award contracts only to those who will abide by the decisions of the board and require pledges of their employees to do so. Members of the board will soon be selected.

SOCIAL AND FRATERNAL

The regular meeting of Washington commandery, U.O.G.C., was held last night. There was a large attendance and considerable routine business was transacted during the evening. Notice of the death of J. M. Clark was read. An interesting program for the good of the order was carried out.

Detay Rosa circle, 24, held its regular meeting at the home of the president, 186 Tenth street, last evening. There was a good attendance and much business was done in regard to the national convention to be held in Boston Aug. 22 and 23. This circle will help to serve the luncheon to delegates on the first day of convention.

MAN WHO EXPRESSED HOPE THAT
KAISER WOULD WIN WAR
ARRESTED

MONTEPELIER, Vt., Aug. 10.—Carl Heinrich Low, of 75 Pleasant street, Barre, a German, expressed such pro-German sympathies when called before the Washington county exemption board yesterday that he was locked up by Deputy United States Marshal George F. L. Ackey on telephone instructions from United States District Attorney Vernon A. Bullard at Burlington. Low boldly expressed his hopes for success of the German cause.

LABOR CONFERENCE

Continued

resented at the international socialist congress at Stockholm in September. The conference will consist of delegates from all trades unions and other labor socialist representatives and is expected to have momentous consequences.

For days past there has been a sharp division among labor men with reference to going to Stockholm and the newspapers have been filled with rumors, predictions and interviews. The division on the eve of the conference seems as common as ever and it is impossible to predict with even an approach to certainty whether those for the Stockholm conference or those against it prevail.

The main initiatory cause of difference was the conversion of Arthur Henderson, minister without portfolio to the view while he was in Petro to the view that it is desirable for British labor men to go to Stockholm and share in the deliberations of the international delegates, including the Germans.

Henderson First Speaker

Mr. Henderson made no statement, but will be the first speaker at the conference when he is expected to make his position clear. The bulk of the labor members of parliament are strongly opposed to sending delegates to Stockholm and many of them do not conceal their hostility to the proposal. Among these are the labor ministers, Barnes and Roberts. The cleavage of opinion is not limited to the leaders, but pervades the rank and file.

The opposition, however, is not based solely on the reluctance to meet enemy representatives. There is an insurmountable conviction that the Stockholm conference cannot possibly be fruitful of anything useful or influence governments, hence it is a waste of time and money to send delegates.

Notwithstanding that today's conference

once ostensibly is called to decide the question it seems doubtful if a decision will be reached or even if a vote is taken. It is expected that the real decision will be to wait the allied labor conference at the end of August, although today's proceedings are likely to a great extent to dictate the ultimate course to be adopted.

The conference aroused much public interest. Large crowds, assembled in the vicinity of the hall, watching the arrival of the delegates who were admitted slowly, owing to the close and double scrutiny of their credentials.

Memorandum Proposed

LONDON, Aug. 10.—A special sub-committee of the British labor party executive committee has been preparing a memorandum upon the issues raised in the war and the ideas of British labor in regard to peace proposals. It occupies more than two columns in the Daily Telegraph. The memorandum was to be presented to the labor conference in London today and will be submitted to the special conference Aug. 21, prior to its proposed submission successively to the allied and international socialist conference.

Preparation and Restoration

Today, the memorandum is a strong endorsement of the demand for Belgium and restoration in behalf of Belgium and other invaded countries; a declaration in favor of the right of individual peoples to settle their own destinies; liberation of oppressed peoples from Turkish misgovernment, and a demand for the establishment of a league of nations for the maintenance of peace and the elimination of war from the world.

Fight Until Victory

The memorandum indicates that Germany is threatening the very existence of independent nationalities, striking a blow at all faith in the sacred principles which have hitherto governed the destinies of the world. It declares that the victory of Germany would be the defeat and destruction of democracy and liberty. It disavows the desire to crush Germany, but declares that the party is resolved to fight until victory is equally resolved to resist any attempt to transform the war into a war of conquest.

Congratulate Russians

The memorandum heartily congratulates the Russian people on the "destruction of czarism and warmly welcomes assistance to the cause of human freedom and peace." It declares that the Russian revolution is a blow at all faith in the sacred principles which have hitherto governed the destinies of the world. It declares that the victory of Germany would be the defeat and destruction of democracy and liberty. It disavows the desire to crush Germany, but declares that the party is resolved to fight until victory is equally resolved to resist any attempt to transform the war into a war of conquest.

For this reliance is largely placed on the "complete democratization of Germany and Austria-Hungary, which now cannot fail to place themselves in line with other civilized nations on a frank abandonment of every form of imperialism."

Condition of Treaty of Peace

As further declared that the essential condition of a peace will be the establishment of "a super-national authority or league of nations, adhered to by all present belligerents, which will guarantee independent state in the world should be pressed to join."

The memorandum reproaches "the crime against the peace of the world" whereby Alsace and Lorraine were torn from France in 1871 and demands that they be allowed to realize their desire to be restored to France. The necessity is recognized for securing the legitimate interests of the people of Italy in the Adriatic and Aegean without precluding the same recognition of the claims of other peoples.

Question of Poland

The question of Poland should be settled in accordance with the wishes of the Poles, and in all cases, including Luxembourg, in which independence has been temporarily destroyed, each must be allowed to settle its own destiny in behalf of the Jews, equal citizenship rights with other inhabitants is demanded.

The memorandum condemns the "handing back to the universally detested rule of the Turkish government any subject people once free therefrom" and proposes that Mesopotamia, Armenia and Arabia be placed under the government of a league of nations with the administration in the hands of a commission.

African Colonies

As regards the African colonies and the Sahara, it is declared that those ought not to form the booty for any nation or be exploited by capitalists.

The memorandum deals also with such subjects as food supplies after the war and the prevention of unemployment and declares a "policy of reconstruction and economic war after peace." It makes suggestions as regards the restoring of areas devastated by war, demands of equity and justice during the war and calls attention particularly to the destruction of lives and property by the inhuman and ruthless submarine war.

The reconstitution of the socialist internationalists to discuss and deal with all questions of international importance is declared desirable. Finally it is claimed that an agreement of the warring governments is only possible by a free and frank discussion of each other's claims and desires. Such a discussion the socialist and labor movement is urged to demand.

257 STORES IN 97 CITIES

Fletcher street by Judge Pickman in police court this morning and each was sentenced to two months in jail. Champagne appealed.

George L. Cady, Jr., the first witness called for the government, testified that as a result of what he had heard he visited the building and found that a large quantity of lead pipe had been ripped out from under stairs and toilets. About 100 pounds was taken and he estimated that the damage done to the property would vary from between \$50 and \$75.

Two women who occupy an adjoining building testified that they saw Champagne, Baron and another man enter the house, which is vacant, last Friday afternoon. The men gained an entrance by pulling off a board which was nailed against a window frame. They said that one of the men had a wrench while another carried lead.

Julius Richards, a junk dealer, said that Baron called at his place of business about 5.30 o'clock last Friday afternoon and sold him 23 pounds of lead for which he gave him \$14.45. Baron gave the collector his name as William Baron, said he lived at 122 Fletcher street and explained that he had taken the lead pipe out of a building in which new pipe was being installed.

Baron admitted that he and Champagne entered the building but he denied taking any of the lead. He said the third man, for whom the police are searching, did the job and that the latter and Champagne gave him the lead which he sold to Richards. Champagne offered no defense.

Failed to Stop on Signal

Alfred Chalifoux who was summoned to appear in police court yesterday morning and declared a complaint charging him with a violation of the automobile law, appeared this morning and explained to the court that he had been summoned to appear before one of the exemption boards yesterday and did so and after passing the physical examination waived any claim for exemption and was accepted. The complaint against him was for failing to stop when directed to do so by Traffic Officer Sheridan at the corner of Central and Merrimack streets. He entered a plea of guilty and a fine of \$4 was imposed.

His Lights Were Out

William Relation was charged with violating the automobile law by failing to have the lamps on his automobile lighted on the night of August 8th. Patrolman O'Neill testified that last Sunday night while Mr. Relation was operating his machine through Lawrence street the head lights were out. Mr. Relation explained to the court that the lights were extinguished as a result of the vibration of the machine. He was found guilty and a fine of \$4 imposed.

Hitmen Drivers Fined

Morris Varenholm and Edward Holland, operators of jitneys between this city and Lawrence, were fined \$10 each in court this morning for having been found guilty yesterday of violating the

motor bus ordinance. Each entered an appeal and held under \$100 bonds for the superior court.

Obstructing the Sidewalk

William Ward was found guilty of obstructing the sidewalk and a fine of \$2 was imposed.

Other Cases

Henry J. Harkins admitted that he was a vagrant and was sent to the state farm. Mary Holschir, charged with drunkenness, was sentenced to one month in jail and six simple drunks were released by the probation officer before the opening of court.

In Sandgate, Vt., the proceeds from the sale of ice cream once in two weeks are being used to pay the minister's salary.

THE END OF WAR

We are still so new to the business of war, as a nation—that is, a real war, being played with the desperation of a gambler who expects to win or lose all—that one very frequently hears the statement: "Suppose after we have spent all these millions to train our men, the war should end suddenly, and we find that it was unnecessary."

If the war ends suddenly this year, it will be but an armed truce, and the world contest must be resumed later, whenever any aggressive power is ready to strike. Germany might well wish that it would end at this time, so that she could rearrange her naval bases, and lay in the munition supplies to enable her to win even with her ports closed. The great victory that the Allies won at the beginning of the war was in gaining complete control of the seas. It is true that commerce now stands in great peril from the undersea craft, but it must be remembered that for three years no German trade ship has sailed the seven seas, no manufactured goods have gone from any German port, and no food has been obtained from neutral nations except such as could find its way in through the adjacent small countries. Germany could have won the war ere now with the control of the seas. She will win a future war unless some nation powerfully armed stands in her way.

It may be that when the United States has a million highly trained men in the field Germany will elect to end the war rather than accept complete defeat. If that occurs without this country having sustained heavy losses in battle it will be well worth the price of our preparations. We shall still have the lives of our men plus their ability to fight a future war—or ward it off. No situation can arise by which our preparations for war—and permanent peace—will have been wasted. As the eloquent Bourke Cockran said the other day, this country has been called out as the champion of Christianity. We must go forth as the angel with the flaming sword.

OUR FIGHTING MEN

When the Sixth Massachusetts Infantry went to the front in 1861 it assembled in Lowell, then its headquarters, and hurried to Boston after a royal send-off in this city. It was the best equipped regiment in the state for service, and history has told what an account it gave of itself in the fighting that occurred in the streets of Baltimore. When this regiment was called into active service in 1898 the local companies marched to the railroad station through streets lined with thousands of people, who knew that it might soon be fighting on foreign soil. But when the Sixth was called out last April, the Lowell men were sent on detached duty by squads to guard railroad bridges in a neighboring state, and there was no real departure as a battalion.

It is therefore fitting that the committee on public safety and the city authorities should arrange for a real farewell to the Lowell troops; not only those of the Sixth, but the company of the Ninth now at Framingham and the new battery in training at Boxford. Nobody knows how soon their regiments may be ordered from the state, and it is proper that the matter should not be left until the eleventh hour, when it could not be arranged.

From the point of view of the spectators, it is well that this parade should come after a period of intensive training. Lowell will not be ashamed of the men who will march through her streets next week, for they are already a finely drilled body of troops. They will likewise prove an inspiration to the men who have been drafted for the national army, and who will very soon put on the olive uniform and replace these men, who will go to the front.

The coming Thursday ought to be a big day in Lowell. Let every citizen help to make it one that our fighting men long will remember.

THE FUTURE OF RUSSIA

Elthu Root says that if Russia survives the war, she will establish a permanent republic. He has traveled thousands of miles through that country, has talked the situation over with every class of people and has returned satisfied that the people are capable of self-government if the army does not fail.

Certain regiments and certain commanders in Russia have shown cowardice or disloyalty. One must not attribute to that fact the whole reason for the success of the German drive, however. As great a retreat as this was forced upon the Russians in 1915. Serbia and Rumania, both fighting with desperate bravery, were invaded by the powerful armies sent against them, being outclassed not only in artillery, but in generalship. Germany, falling upon the western front, has moved her forces swiftly against the Russians, because a blow struck there injures France and Great Britain. In that Russian defeat prolongs the war.

Germany will not be slow to recognize the opportunity of the present position. She may press the Russians to a conclusion, and the Allies find themselves all but powerless to assist. Already the request has been made that the United States cross the

Pacific with an army to stem the tide; a proposition entirely impractical at this time, not only because of the great distances involved, with the uncertainty of supplying an army on that front, but on account of the condition of our forces at this time. If any emergency aid is to be given, it must come from Japan. That nation could send a million well trained men to the Russian front, and they might prove a match for the German-Austrian army.

OUR BREADLESS WEEK

This has been our voluntary breadless week in Massachusetts. And apparently very few people volunteered. In Boston, where the widest publicity was given to the suggestion of the new state food administrator, restaurants continued to serve white bread, even if the hotels did curtail, and they probably did nine tenths of the transient business. In Springfield placards were posted about the city, urging people to abstain, and small cards were distributed, informing the public that the flour thus used would be saved for the soldiers and sailors and the Allies.

But the public does not yet believe that there is a real shortage. It sees plenty of flour in the stores, though it is asked to pay the price. It knows that the commission men who handled the product last year cleaned

up handsome profits by speculation, and doubtless expect to do so again. Lowell did not attempt any organized movement to curtail on white bread this week. The citizens are ready to deny themselves when the necessity arises, but they must be convinced that it is so. Mr. Hoover must first assure them that the storehouses of the speculators are not filled with barrels and bags, and that the talk of shortage will not permit the millers and the middlemen to boost the price.

What should be done at once, however, is a further elimination of waste. Bread should not be made or purchased that is not required to feed hungry people. It should no longer be served merely as a matter of form. And while the housewife watches her own family, Mr. Hoover and his department must watch the speculators and ferret out the trade agreements among them.

DON'T LOSE YOUR TEMPER

A physician who has made a study of the reaction of anger upon the human system advises people not to lose their temper in August. The natural humidity of the atmosphere exerts some pressure upon weak hearts, vitality is sometimes lowered by the heat or improper eating, and conditions generally are unfavorable for a violent mental disturbance. Therefore, if you must lose your temper and get mad, do it in some cold month, when the chances are that you will cause yourself less injury.

Anger has never prolonged the life of any man or woman. It betrays the lack of self-discipline, the absence of self control. The wilful child, in a

burst of passion, throws itself upon the floor and cries until it is exhausted. A succession of such scenes would bring it close to a nervous breakdown, but the wise parent teaches it that giving way to anger gains it nothing, and it gradually gains self-control. Yet when one observes an adult giving way to such bursts of ungoverned passion, the conclusion must be that there is an untrained child grown up, and in need of the same correction that might have saved him in his youth. And there is no one to give it to him. The world shrugs its shoulders and says that he lacks self control. The passing physician, observing the symptoms, knows that he is slowly but surely injuring the delicate human mechanism within him.

Set yourself to the task, then, of keeping your temper in August. Better, still, do not give way to uncontrolled rage at any time. It is not pleasant to your friends, and it is an injury to yourself.

Make a Good Vacation Better

By taking along baggage that you know will give you no trouble. Just a love tap or two from the sturdy baggage smasher may put an end to your luggage and what it contains unless it is made of the stuff that will resist these bumps.

In our big Baggage Department you will find the latest and strongest kinds of baggage for business or pleasure.

Hand Bags—Suit Cases—Trunks

General Purpose Trunks—like illustration above—cover a broad variety of styles and sizes. Strength and durability are two features which are instantly recognized as factors of these trunks. The bodies are of selected hardwood with heavy duck cover. All bindings and center bands of vulcanized fibre, closely tacked. Narrow or wide hardwood slats on top and around body, protected by cold drawn steel clamps, heavily brass plated. One and two inside trays, fancy paper or cloth covered. A wide selection at—
\$7.58, \$8.28, \$8.68, \$9.78, \$11.50 to \$18.00

OXFORD BAGS—Smart in appearance and ready for hard service. English frames pinned and sewed in. Lined with plain and fancy cloth and leather, two and three pockets. Heavily protected ends and strong locks and catches. Russet and black cowhide leather, smooth, grained or pebbled finish.
\$5.98, \$6.50, \$7.00, \$7.50 to \$15.00

SUIT CASES—All ready to live up to their fine, trim appearance. Made on light weight steel frames. Stout through and through stitching. Heavily protected corners. Firmly secured handles, brass fasteners, leather straps, linen lined. Made of selected cowhide leathers in russet and tan shades.
\$5.00, \$6.00, \$7.00, \$8.00 to \$12.00

Keystone Wardrobe Trunks

The "Keystone" Wardrobe is in reality the most durable trunk of its kind on the market. It is a real traveling wardrobe. You hang your garments in, they go flat in travel—and when you take them out there are no wrinkles.

There are special drawers and compartments for every single thing you will carry and everything is always where you can find it. The "Keystone" is also the most economical trunk you can buy. \$20.00, \$22.00, \$25.00, \$42.00 to \$68.00

REPAIRING

LIEUT. EDWARD FISHER MADE CAPTAIN

The local companies of the State Guard are gradually rounding their organizations into shape and permanent officers are being assigned. At a meeting of the 57th company at the armory last night it was announced that Lieut. Edward Fisher had been made captain of the company and Lieut. C. Frank Dupes, first lieutenant. Maj. Walter R. Jeyes, former captain of the company, has been named major of the Third battalion, 16th Infantry of the State Guard. The 16th is commanded by Col. Louis S. Cox of Lawrence and Charles

CAPT. EDWARD FISHER

S. Proctor of Lowell is lieutenant-colonel. Wallace P. Butterfield, also of this city, has been named battalion sergeant major. Corp. Royal P. White of the 57th company was last night chosen unanimously as second lieutenant of the company.

The complete personnel of officers of the local French-American company of the State Guard is as follows: Captain, Albert Bergeron; first lieutenant, Horace Deslites; second lieutenant, Alphonse Valierand; first sergeant, Alfred J. Renaud; sergeants, William J. Burns, Arthur Signan, Arsene G. Goy, Henry A. Dorais, commissary sergeant, George A. Frenette, corporals, Albert Thillard, Joseph N. Gregoire, Andre J. Lamarre, Edouard J. Lamoureux, Joseph A. Dubois, Edouard Savard; musicians, Arthur J. Brunelle.

The young men who are chosen for the national army through the draft will have an opportunity to become non-commissioned officers in the army if the plans of the State Guard do not miscarry. This organization has offered the services of all its commissioned officers, many of whom have seen active service in the military service, to instruct the drafted men in the rudiments of military drill. Thus the men who take advantage of this offer will be so far ahead of their brothers in arms that it will be only a matter of time before they will be appointed corporals and sergeants.

Further details of the plan as it will affect Lowell will be announced later as they are perfected.

YOUNG GREEK WOMAN ON LOWELL GUILD STAFF

Miss Ellen Inglesakie, 23 years old, one of the three Grecian young women who came to this country three years ago under the patronage of the various Queen Sophie societies, is now training to be a nurse in order to fit themselves for public health work in Athens, is now attached to the staff of the Lowell Guild.

In 1914 Miss Inglesakie came to the United States and entered the New England Baptist hospital, in Boston. Graduating from that institution, she took a post-graduate course at the infants' hospital in Boston, and only recently has she concluded public health courses with the Instructive District Nurses' association, also of Boston. One of her companions is now training at the Newton hospital, and the other is at the Massachusetts General hospital. Until matters in Greece become more settled than they are at the present time there is small chance of any one of the three returning to their native land to take up public health work. In the meantime they are going to work among their own people in this country.

YOUNG MEN'S SUITS

166 CENTRAL ST.

TO CONSIDER THE COAL SITUATION IN N. E.

BOSTON, Aug. 10.—An appeal for a meeting of Pennsylvania coal operators, to consider the coal situation in New England is contained in a letter from James J. Storrow, chairman of the New England coal committee to N. B. Clark, president of the Association of Bituminous Coal Operators of Central Pennsylvania, which was made public today.

"We would very much appreciate," says the letter, "the opportunity to make a statement to the producers in regard to the present danger and

critical condition of New England, due in part, it is true, to the difficulties in securing and moving tidewater coal, but also in large part to the refusal of the producers of central Pennsylvania to permit their New England customers to have coal. "New England is dependent for practically all of its all-rail coal upon the mines of central Pennsylvania. We cannot continue on the present lines. If through the continued refusal of the producers to accept orders from the New England consumers, we are unable to get coal freely, we cannot possibly make up the deficit during the winter months."

OWLS' FIELD DAY
A delegation of Owls from Fitchburg are expected to appear before the members of the order in this city in the near future, encouraging the Lowell Owls to participate in the field day to be held at Fitchburg. One of the features of the event will be a championship degree team drill in which the crack degree teams from all parts of New England will participate.

GERMAN SUBMARINE UB-23
INTERMED IN SPANISH WATERS
MOVED

FERROL, Spain, Aug. 5.—It has been found necessary to move the German submarine, UB-23 which was interned recently from its present anchorage alongside the cruiser Ville de Bilbao because the cruiser is reinforced with copper while the submarine is constructed of iron establishing a galvanic current which would have eventually destroyed the U-boat.

DR. T. J. KING, DR. J. E. ROBILLARD,

The foremost
painless dentists
of New England.

One of Lowell's
Leading
Dentists.

STATEMENT OF DR. ROBILLARD:

I have practiced dentistry in Lowell for years and during that time I know I have given satisfaction to the people of this city. To make the big success that my ability and ambition demands I am obliged to avail myself of certain wonderful improvements now being used by Dr. King, and I do not hesitate to admit the superiority of the King System of Painless Dentistry. I hope my patients will agree with me that I am doing the right thing in joining with a reputable dentist who has made an enviable position for himself and his methods in our city.

IF I HURT YOU DON'T PAY ME

No pain and a small per cent. over the cost of the best materials money will buy is a combination that cannot be beat. Get the other fellow's price for his best, then compare it with mine, is all that I ask you to do.

If you want the best—a set of teeth that defies detection in the mouth—the Natural Gum is the set you must have. Used in my office exclusively.

CLAIM EXEMPTIONS

Continued

city. Constantino Georgopoulos, 25 years, and residing at 14 Lagrange street. The names of both men were on the draft list and, sometime ago, while talking things over, the two decided, although they were aliens, to join the colors if possible. This morning Constantino was examined by the physician of division four, but inasmuch as his height and weight did not come within the requirements, he was rejected. Much to his sorrow, particularly when he learned that his friend had been accepted and booked.

Constantino did not give up the fight, however, and immediately after being rejected he wended his way to the naval recruiting station and there, with a winning smile, he announced his intention of enlisting in the navy. The board, however, was placed on the scale and measured, and there too it was found that he was lacking in height and weight. Constantino said he was not yet ready to give up, for as he was in a gymnasium in an endeavor to make weight and height.

Louis Heliott, 24 years and residing at 439 Adams street, successfully passed the physical test, but he dutifully refused to have his name placed on the roll of honor. Louis has his first naturalization papers, but he says he does not believe in war, and that settles it. His case will be submitted to the district board.

The board of division 4 will exhaust its first quota this afternoon at which time 50 notices will be sent out for more recruits, who will be examined next week.

Yesterday afternoon 19 men appeared before the board of division 4. Sixteen men were examined by Dr. J. M. Lamoureux and of this number eight successfully passed the physical test. Three aliens declined to serve and they were dismissed. Those who qualified yesterday afternoon and whose names were placed on the roll of honor are as follows: Horace Brunelle, 171 Hall street (alien); John F. Salmon, 95 Coburn.

Division Two
Four more names were added to the roll of honor at the quarters of division 2 at city hall this forenoon, namely: George Richard Hartley, 24 years, 14 East Pine street; Wilfrid J. Marcotte, 25 years, 51 Branch street; Thomas Kerrigan, 24 years, 4 Branch street and Edouard Paradis, 23 years, 73 Branch street.

In the course of the forenoon 16 men were examined and of this num-

ber 11 were rejected on account of physical disability. The 15th man examined was Georgios M. Trankis of Framingham. He successfully passed the physical test, but he filed a petition for exemption.

Out of 41 men examined up-to-date in the division eight had their names placed on the roll of honor. Eleven successfully passed the physical test and three filed exemption claims. There were 55 men who appeared before the board, but of that number 46 were aliens and they refused to be examined. The board has sent out 170 notices for more recruits today.

Yesterday's second session of division 2 was held in the afternoon at city hall and 29 men were summoned to appear. Only one of these men was placed on the roll of honor—William B. McCullough, 33 Howard street. Mr. McCullough is a native of Canada and has taken out his first papers. He is employed by the Boston & Maine railroad and the company, it was stated, will ask for an industrial exemption for McCullough.

The result of yesterday afternoon's work by Division 2 was as follows:

Joseph L. Poulin, 40 Lee, rejected. Nicholas Pantelis, 154 Adams, alien. Manuel Silvino, 176 Tremont, alien. John T. Wallace, 3 Brickell avenue, failed to appear.

Peter Kane, 545 Middlesex, rejected. John Davis, 414 Market, alien. Tom Walker, 12 Watson avenue, failed to appear.

Alexander Condore, 756 Central, rejected. Albert Shaheen, 20 Lagrange, claimed exemption. Richard J. Sullivan, 4 Hereford pl, reported dead.

Charles Pousales, 153 Alkon, claimed exemption. Philip A. Flynn, 8 Stevens, accepted, but claimed exemption.

William B. McCullough, 33 Howard, accepted, no claim for exemption. Nicholas Saxonis, 159 Market, alien. Demetrios Contratos, 352 Suffolk, alien.

Mazog Saroshian, 506 Middlesex, alien. Nicholas Rizos, 55 Dummer, alien. Georgios Darbesias, 158 Market, alien.

Isaac Catlin, 532 Middlesex, alien. Joseph S. Chaisson, 4 Broadway, failed to appear.

Tony Conceives, 14 Bradford, alien. Fred J. Lawton, 131 Fletcher, pending. Thomas McArdie, 5 Bolton, failed to appear.

Alfred A. Rousseau, 5 McIntire, rejected. William J. Whalen, 129 Adams, failed to appear.

TWO AMERICANS SHOT IN FRANCE

PARIS, Aug. 10.—Price McQuillan, of Overbrook, Pa., and Wayne Vetterlein, of Philadelphia, members of section 22 of the American Red Cross ambulance service, have been seriously wounded by a shell while loading wounded at an advanced post on the battle front.

Vetterlein was wounded in seven places and one of his legs has been amputated. Both men are now out of danger and are doing well. They have

been awarded the war cross and the military medal.

Arthur Kemp, one of the first men to join the ambulance in 1914, has been decorated with the war cross.

JUVENILE COURT

George Carles, aged 18 years, appeared at the juvenile session of the police court this morning to answer to a complaint charging him with playing a game for money in a public place. He was arrested while shooting crap on the South common last Saturday by Patrolman Linane. He was found guilty and a fine of \$25 was imposed. He was given four months in jail to make payment.

MATRIMONIAL

James Stead, Jr., and Miss Ellen J. McDougal were married last evening at the home of the bride in Meadowcroft street by Rev. W. S. Jacobs. The best men were Edward Stead and

Henry Carpenter, while the bridesmaids were Misses May McDougal, a sister of the bride and Stella Stead. At the close of the ceremony a reception was held. The couple will make their home in this city.

INSURING U. S. ARMED FORCES

Authority to Make Effective Government's Program Sought of Congress

Proposed Legislation Would Provide Insurance for All Men in Service

WASHINGTON, Aug. 10.—Authority to make effective the government's program of insuring the armed forces of the nation was sought of congress today in bills introduced in both houses by Senator Simmons and Representative Alexander.

The proposed legislation was framed to follow plans already announced in general outline and would provide insurance, at minimum cost, for American soldiers, sailors and marines, the insured men paying the premiums; family allowances to dependents of men in the nation's military or naval service; indemnification for disabilities and the re-education and rehabilitation, at government expense, of injured men.

A feature not previously announced would make it compulsory for officers and men to allot a minimum of \$15 a month out of their pay to dependent wives and children. The maximum compulsory allotment is half pay. These allotments would be supplemented by family allowances, to be made by the government, of from \$5 to \$30 a month, according to the circumstances and number of dependents. Liberal indemnities for partial and total disability are included in the program, varying from \$40 to \$75 per

month minimum up to \$200 a month for higher officers. Insurance would be written by the government, the lives of the men at a rate of approximately \$8 per thousand on sums of from \$1000 to \$10,000, the premiums payable in installments.

The cost of the government as estimated by Secretary McAdoo, would approximate the following:

	First year	Second year
Family allowances	\$141,000,000	\$190,000,000
Death indemnities	3,700,000	28,000,000
Compensation for total disability	5,250,000	35,000,000
Compensation for partial disability	3,200,000	21,000,000
Insurance against loss of limb and disability	32,000,000	112,500,000
Totals	\$176,150,000	\$386,500,000

The total for the two years is thus placed at \$566,650,000, which Mr. McAdoo estimates at less than 6 per cent. of the cost to the country of conducting the war.

In its general features the bill was approved by the advisory committee of insurance representatives summoned by Secretary McAdoo to Washington July 2.

"They opposed, however," Mr. McAdoo advised the president in a letter made public with the introduction of the bill, "the grant of any government insurance over and above the compensation, on the ground that the other provisions were liberal enough and might be made more liberal in ways suggested by them. They favored, over and above compensation, the payment by the government of \$1000 in each case of death during service, or within five years after discharge of service in lieu of insurance."

Children up to 18 years of age—or if incapable of a substantially gainful occupation because of mental or physical infirmities then without age limit—and wives of men and officers would be given family allowances within the limits designated during the term of service of the men insured. The amounts would depend on the sex of the family, the allotment made by the husband or father out of his pay, and other circumstances, to be determined in each individual case.

Other dependent relatives would be given allowances only in case of military allowances were made them out of the pay of the man insured.

The bill does not attempt to cover the methods to be pursued in re-educating and rehabilitating injured men. The amount of indemnities paid in cases of partial disability would vary from time to time, according to the altered circumstances of the man insured.

Assuming that a man were severely disabled by losing both legs and both arms in battle, Mr. McAdoo wrote the president by way of illustration. "Under the compensation provisions of this bill, if he were a private and unmarried, he would receive \$40 per month, and if, as most probable, he needed a nurse or attendant, up to \$20 additional."

"If he had a widowed mother dependent on him for support, he would receive \$10. If he subsequently married, his compensation would be increased at once by \$15. If, later on, he had children, the compensation would again be increased \$10 a month for each of the first two children, a possible maximum of \$105 a month."

"In addition to this monthly payment he would be fitted with artificial limbs and have treatment. His compensation would not be affected by any increased earnings. Furthermore, if he wanted to set up as a small storekeeper under the compensation system he would be allowed to commute \$30 a month of his compensation. This might give him \$1000 or more and still leave him protected to some extent."

When disability results in death, dependents would receive from \$15 to \$50 a month, the being determined according to the circumstance of the dependents. This feature of the program is regardless of the insurance which the man or officer may take if he wishes, paying the premium therefor himself.

All insurance of this character, the bill provides, would be "non-assignable and free from the claims either of the insured or of the beneficiary." It would be limited to wife, children and other specified kindred. A period of four months is provided for after the passage of the act within which insurance may be applied for and "for those who are totally disabled or before they have had an opportunity to insure within the prescribed period of 120 days, insurance in the sum of \$5000 is deemed to have been applied for and granted."

On the administrative side, the bill provides for a division of the government's war risk insurance bureau into two sections, one on marine and seamen's insurance, the other on military and naval insurance, each division to be under the supervision of a commissioner under the bureau's direction.

FITZGERALD PROTESTS DRAFT OF MARRIED

BOSTON, Aug. 10.—Former Mayor Fitzgerald made a vigorous attack yesterday on the ruling permitting the drafting of married men with children, while single, able-bodied aliens are exempted.

He urged the people to insist that congress pass the Chamberlain bill providing for the drafting of aliens. The former mayor spoke at the noon rally of the Knights of Colum-

MADE IN TAN CALF, VICI KID, GUN METAL CALF AND PATENT COLT

Regular Prices \$4.00 to \$6.00.

Ground Gripper Shoes have sufficient space for free movement of each toe, such as enjoyed by the barefoot child or Indian. The shape of the sole of a "Ground Gripper" shoe is an exact outline of the perfectly normal foot. The last is constructed in such a manner that the wearer is able to press down on the sole of the shoe with his toes, particularly with the great toe. The last is straight along the inner edge, following the normal line of the great toe and extending beyond. It then forms a wide outward sweep, avoiding compression of the toes of the foot.

bus for their war fund, on Boston common. He said:

"This morning's despatches confirm the opinion that I expressed on my return from Washington yesterday—that unless the American people be stirred themselves, married men with families would be chosen to the exclusion of aliens who are single and physically and mentally qualified to go."

"Only a complex situation such as is bound to develop at a time when the nation is trying to do 50 years' work in one can account for a condition like this. It is monstrous to think that the nation would deliberately pick fathers of families with the liability to widowhood and fatherless children that is bound to follow and neglect to call into the service thousands of men who have lived in this country for years enjoying the blessings and advantages that go with the American flag, even though that flag is fighting in the same line with our own."

Homes Made Desolate

"I appeal to the press of the country to take this matter up to the end that the Washington military authorities, who seemingly do not regard the alien soldier with favor though he is splendidly fighting in France, Italy, Russia and the Balkans, will accept the alien rather than take the married man with wife and children."

"Think of the picture of America with homes made desolate by the enforced absence of thousands of fathers and breadwinners, when by the use of ordinary intelligence and judgment such scenes can be avoided."

"It is time that our congressmen get busy on this question. The president has so many burdens that I am

confident that this ruling of General Crowder's is unknown to him, and it is the duty of our representatives in congress to press the Chamberlain bill at once, drafting all residents of this country. Then everyone is on an equal footing by the passage of this bill that married men with families will not be needed."

The Financial Side

"There will be a tremendous financial saving also which should weigh in this situation. At the present time the country is spending billions to maintain an army of men. If General Crowder has his way, for 50 years after the war this country will be spending unlimited money to support an army of women and children dependents, created needlessly by unwise action on the part of the military authorities."

"It seems to me also that this government should consider the social and economic side of depriving thousands, perhaps millions of children, of the protection and aid which only a father can give. Statistics show that large numbers of those who fill the prisons are without parental protection. Go out into the highways and byways at a late hour of the night and you will find that our boys and girls on the streets' corners largely come from homes where the father is gone."

Unworthy Of America

"General Crowder, in an order issued today, tells the wives of men conscripted to go back into the employments occupied by them before they were married. This is unworthy of America, and such a sentiment, I feel certain, will meet with the con-

demnation it deserves from the American people.

"In conclusion, I urge every one here to impress on their representatives in Washington their duty in the matter. This country is a democracy, not an autocracy, and the people's representatives in Washington, not the military authorities, should determine questions like these. And when Washington hears from home it will feel about this matter just as you and I do and the alien will do his bit alongside the citizen."

"The ex-mayor was given a great demonstration when he finished speaking."

ROOT LEAVES FOR HOME IN NEW YORK

WASHINGTON, Aug. 10.—Members of the American mission to Russia leave today for their homes. Ellhu Root, its head, going to New York. All will return later to aid in the work of Russia's rehabilitation.

NEW RULES FOR CALLING THE DRAFTED MEN

WASHINGTON, Aug. 10.—Regulations under which men of the new national army will be called to the colors beginning Sept. 1, were issued last night by Provost Marshal General Crowder. They map out in detail the whole program to be followed until every soldier of the selective draft army has been accepted by the adjutant general of the training cantonment to which he is assigned.

Local Branches Have Charge

Two hundred thousand of the first 687,000 men will be called up Sept. 1 and forwarded to their camps before Sept. 5. The whole business of assembling the levies at entraining points, providing them with shelter, food, transportation and giving them their actual induction into military life is entrusted to the civilian local boards which selected them for service. Until the men reach the camps

they will not be in contact with uniformed officers. The civilian control is carried forward through every stage of the draft, to the very gates of the military camps where the making of soldiers will begin. To be completed within sound of the guns in France.

The actual call for men will go in each case from the provost marshal general to the state adjutant general, stating the number of men to be supplied at a specified time by the state. Each local board will be promptly informed of its proportion in the call and the adjutant general will fix the date when men from his state shall entrain for the camps.

Immediately the local board will make out the list of men to fill the call from the roll of accepted men and it will also fix the place of entrainment and the exact time of departure.

Will Post Orders

Orders to the men will be posted and also be sent them by mail. They will be directed to report to the local board at its headquarters not less than 12 hours or more than 24 hours before the time of departure for camp. From the time specified for reporting to the local board for military duty, the regulations state, "each man in respect of whom notice to report has been posted or mailed, shall be in the military service of the United States."

Prior to the arrival of the men at

the board headquarters board members are instructed to make arrangements for their accommodation, to find clean and sanitary sleeping places at hotels and lodging houses, to arrange for their meals and to provide lodging and meal tickets to be taken in payment and redeemed for cash later by a government disbursing officer.

May Remain at Home

In its discretion, the boards may grant permission for the men to remain at their homes.

On arrival at the board headquarters at the hour fixed for reporting, the men will be drawn up, the roll called, and agents of the board will take them personally to the headquarters, remaining with them until every arrangement for their coming has been made. Emphatic instructions are given that the quality of food furnished shall be good and the board is held

liable for seeing that meals are adequate. Each district, five alternates will be summoned to the board headquarters in addition to the men actually selected to fill the board quota. They will be held at the assembling point until train time to fill in vacancies should any men of the levy fail to report.

To Choose Commander

Except for retreat roll call, the men will be given town liberty until midnight before the train time. The board will during this interval, select one man from the levy who is the best qualified to command and place him in charge of the party for its trip. He will name a second in command to aid him and the other men will be told that the orders of these two men must be obeyed under pain of military discipline.

The man in charge of the party will call the roll at the board headquarters just before the train time. He will then line up the draft and, captioned by the board members, march them to the station to entrain.

These a final verification of the list will be made and if any man of the selected number is missing, an alternate will be sent forward in his place. The tickets, with meal tickets, all papers relating to the party, including the copies of registration cards, will be turned over to the man in command, and the party will start for its training camp.

It will be the duty of the commander of each party to watch over his men during the trip, to see that none is left behind at any station, that all are fed regularly and that no liquor is furnished to them en route.

When within 24 hours of camp he will file a telegram to the camp adjutant general notifying him of the time of arrival. Immediately on the departure of the train the local board will send a similar message.

Every precaution has been taken to meet any emergency in advance. Should a train be delayed by accident, the commander of each party will have proper telegraph blanks to report the fact to the camp adjutant general and the local board.

After the departure of the levy for camp, the local boards will turn to gathering up stragglers. If there is evidence of willful violation of orders, the offender will be reported to the adjutant general of the army as a deserter and the local police will be asked to arrest him on sight and turn him over to the nearest army post for trial. Where there was no intention to desert, however, and the missing man reports of his own will, the board will send him on to the camp with an explanation and a recommendation as to the degree of culpability.

Arrived at the camp the party will undergo final physical examination by army doctors. If any are rejected the local board will be notified and an alternate sent forward for each such case. The rejected men will be regarded as filled only when the full number of men called for have been finally accepted.

Provision is made, also, for a strict accounting as to quotas between the federal government and the adjutant general in the first instance and between the adjutant general and the local boards in the second. Reports to show the standing of such accounts will be filed every ten days until every quota has been filled.

do anything to further same. The association was dissolved right after war was declared, as the majority of the members were all good Americans and they did not believe that the association should continue, and they are using their energy in connection with other affairs leagues.

Horbert C. Sanborn, of Nashville, president of the Tennessee division of the German-American alliance, writes that his organization passed resolutions of loyalty to America after the declaration of war and that many of the members have stopped their subscriptions to German-American publications. He suggests that the Security league ask Dr. Hexamer, the national head of the German-American alliance, to call a meeting of the national executive council to take up its suggestion.

A copy of the original letter was sent by the league to Dr. Hexamer but no reply has been received. Henry Weismann

The most important man in the German-American alliance to answer the league's letter is Henry Weismann, president of the New York state division. He writes that his executive committee and that of other German-American organizations have already passed resolutions of loyalty to America and he can see no need of a reiteration. The league's position on this is well put in the following extract from a letter written by Smith E. Allison, vice-president of the Certain-ty Products corporation, to the league soon after the original publication of this excuse.

"If I was in charge of trust funds,

it would not be a question of interest in investigating on their own account, but I would insist that they check up made periodically to vindicate my understanding that the accounts were correct. An honest man never objects to a question relative to his honesty, and a loyal man never object to any question about his loyalty.

This reminds me of the man who wants credit financially, and then takes offense because you ask him questions about his financial condition. You had better look out for that kind of a man.

"During the Civil war, brothers fought on opposite sides in the same battles, and they did not hesitate to acknowledge their allegiance to the side they were on."

GERMANS DON'T WANT ADVICE

NEW YORK, Aug. 10.—Replies from organizations of German-Americans to the suggestion of the National Security league that they could assist this country's cause by indicating to their brothers in Germany by public pronouncement that they are with the United States in the war and that there is no divided loyalty in this country, were published yesterday by the Security league, range from abuse to simple acknowledgments.

Julius Moersch, of St. Paul, president of the Minnesota state organization of the German-American alliance, writes: "The German-American alliance of Minnesota does not need and resents the arrogation of your society to advise them in regard to conduct by German-Americans in this war. I therefore return your letter and printed matter."

Curt Preischer, president of the branch of the German-American alliance in Elizabeth N. J., writes: "Your communication and its impertinent enclosures is at hand. In reply will say that every member of our German-American alliance is a true American citizen, in spirit, as well as in character, and is the patriotic equal of any member of your league."

"Confession of Faith"

Undaunted, and believing that the tenor of these replies is conclusive evidence of the need for the accounting by German-Americans started by the Security league yesterday sent a further letter to the editors of the some 450 German-American newspapers of the country, suggesting a statement of their position. One of the principal reasons for this letter is the general adverse criticism which has been made by the German-American press on the league's original letter. The editors are asked by the league to subscribe to the following "Confession of Faith":

"1. I believe that the objects of America in this war are noble, unselfish, and that they square with the highest aims of morality and religion."

"2. I believe that the aims of Germany in this war are sordid, selfish, and opposed to the principles of human liberty."

"3. I believe that the statements of the German monarch and of his prime ministers as to German aims and purposes in the war have been false and hypocritical."

"4. I believe that the methods sanctioned by the German government and rulers in this war are brutal, barbarous and revolting to civilized thought."

"5. I believe that the preservation of human liberties, of the ideals of civilization and of the morality depend upon our victory in this war."

"6. I believe that we cannot win this war alone; and that our own future and that of the states in which we are inseparably bound up with the success of our allies."

"Perjurers"

"7. I believe that the peace of the world cannot rest on any contract made with perjurers; and that our preservation and the accomplishment of our objects in the war requires the permanent enfeeblement of the present German dynasty and radical change in the present system of German government."

"8. I believe that the war must continue until this result is achieved by military victory of ourselves and allies or by revolution within the German nation."

"9. I believe that there can be no qualified allegiance to the United States and the principles for which it is struggling. Those who do not support the war wholeheartedly cannot claim to be wholly loyal."

Not all of the replies received by the Security league have been discouraging, however. The Norfolk, Va., branch of the German-American alliance and the Germania club of Columbus, Georgia, write that their bodies were dissolved at the declaration of war against Germany. Richard Bannier, president of the former, writes: "I am personally fully in sympathy with your league and I will gladly

The Last and Greatest Good Clothes Bargain Event of the Summer Season

Final and Complete CLEAN-UP SALE

OF THE BALANCE OF OUR STOCK OF EXTRAORDINARY PRICE REDUCTIONS

Too late now to give any more thought to profit or loss for this season, so, with scant regard for the cost of our merchandise, we throw the remainder of our Summer Suits on the market at prices which bear no relation whatever to their true value.

There's plenty of time yet for you to wear these clothes, but mighty little time left for us to sell them. So we've decided to take a drastic loss on the balance of our stock in order to bring about a complete clearance as quickly as possible.

While the stock is large and the variety wide, such extraordinary values as these are sure to be snapped up in a hurry. So you'd better come as soon as you can. We doubt if you'll ever have another chance to get so much style and quality for so little money.

INVENTIONS TO COMBAT SUBMARINE MENACE

WASHINGTON, July 25.—Establishment of an anti-submarine division in the navy department is to be charged with the formulation of plans and study of the use of inventions to combat the submarine menace is urged in a statement issued here today by the United States here today.

"Such a division," says the statement, "exists in the British navy, established in 1914, and has since last February when the present unrestricted submarine campaign was begun."

"The recommendation is that the anti-submarine division of the United States navy department should co-operate with the corresponding division of the British admiralty for the purpose of devising and carrying out effective methods of defense against the whole submarine campaign."

"In making this proposal the league only reflects expert opinion, which now seems agreed that offensive operations against the whole power of the submarines in the vicinity of their bases, is feasible provided adequate preparations are made. The creation of an anti-submarine division is urged as a means to secure concentration of authority and of responsibility, with the technically trained personnel of the navy department, and that a concrete plan of action for the future can be decided upon now and the engineering work necessary in preparation for the execution of that plan be carried through under centralized direction."

"Consideration to plans for offensive operations against submarines is being given today by the general board of the navy while preparations for the ultimate execution of such plans would be directed by the chief of staff. The general board is necessarily employed with other problems as well as the work of preparing for and carrying out any offensive operations."

"It is altogether probable that preparation for such an offensive operation would be directed by the chief of staff. The general board is necessarily employed with other problems as well as the work of preparing for and carrying out any offensive operations."

"The proposed anti-submarine division might constitute a sub-committee of the general board and would, no doubt, be connected with the office of naval operations. But it is urged that it would have the special advantage of concentrating in this single task, its co-operation with the British division could be closer and more effective. It is believed, then, that the concentration of the navy department, and the navy department, could develop a selected personnel for the study of this one paramount problem. Finally, a course of action having been determined upon, it would devote its energies to the direction and prosecution of the engineering work in preparation for the operation without interference from the general affairs of the naval establishment."

"A not inconsiderable benefit that the navy department would receive from the concentration of such a division, it is believed, would prove to be a feeling of confidence on the part of the public that the task of defeating a positive naval policy to strike effectively at the whole submarine power had been entrusted to certain experts, and that the administration of the navy department had thereby made it a special part of its program to evolve and prepare for some concrete plan of action against the submarine menace."

"The record of anti-submarine work from the beginning in 1915, does not it is believed, incline the public to rest content with the sufficiency of the measures undertaken thus far. A definite assurance that further progress, and of a radically different sort, was being sought and that special

agencies had been provided to achieve more effective results should strengthen the administration of the navy department with the American public."

Time has fully demonstrated the value of the air service in war, and experts say that many of the great decisive and effectual battles of the future will be fought in the air.

This appears to be confirmed by the great activity of the Signal Corps and the passing unanimously by the house and senate and the signing by the president without delay of the bill appropriating six hundred and forty million dollars for aeroplanes.

It has been said that the United States would require, to do its bit in the war, 25,000 masters of aeronautical apparatus that is, men capable of flying the airplane, hydroplane, and directing the movements of the "kite" or observation balloon, known as aviators or balloon pilots.

All aviators of the aviator is well known, and the marvelous results of these air speeders, the work accomplished by them as the eyes of the army is published from time to time in the despatches from the front. The fastest machines attain a speed of 140 miles per hour.

The observers in them locate the position of the enemy's armies, and, and protect titles and towns from attack, although at times the enemy flyers get by the watchfulness of the allied air fleet with disastrous results to humanity and property.

THE STOCK MARKET

NEW YORK, Aug. 10.—Shipping, tobacco and various specialties related to the war groups were the strong features at the outset today, trading causing further short covering. Oils, fertilizers and sugars trailed along more moderately, but automobile issues were again under the spotlight. General Motors and Maxwell Steels, coppers and rails were irregular. Bethlehem Steel now stock reacting a point and U. S. Steel showing a slight gain.

For a brief period the list ignored the heaviness of the motor issues, many war specialties and shipping, increasing early gains, while steels also developed later steadiness. Recoveries speedily ensued, however, on fresh offerings of the leader today. Steel reacting a point and allied industrial 1 to 2 points. Rails also fell back, St. Paul forfeiting 1-2 points, while tobacco and oils indicated realising profit. Liberty bonds sold in the narrow range of 99.50 to 99.80.

Heaviness in investment rails, particularly Canadian Pacific today, was offset by Hudson at extreme recessions of 2 to 3 points featured the otherwise dull mid-session. Tobacco made further gains, but industrial specialties were hesitant or irregular.

Rails and equipments led the list to lower levels in the broader selling of the last hour. The closing was irregular. Steel reacting a point and allied industrial 1 to 2 points. Rails also fell back, St. Paul forfeiting 1-2 points, while tobacco and oils indicated realising profit. Liberty bonds sold in the narrow range of 99.50 to 99.80.

Report British Repulsed. The British forces have been repulsed in the line of the front. The gains have been made in the plain of the Somme, in the line of the front.

Report British Repulsed. The British forces have been repulsed in the line of the front. The gains have been made in the plain of the Somme, in the line of the front.

over a front of 1200 yards and took 150 men prisoners. The German statement says the artillery activity has increased to such an extent that the British and French have been forced to make a withdrawal of several miles in the line of the front.

Bombardment by Allied Warships. LONDON, Aug. 10.—Entente allied warships since yesterday have been bombarding the German batteries along the coast of the Scheldt. According to a despatch from Athens to the Exchange Telegraph Co. British monitors have successfully reduced to silence one of the Turkish batteries and have destroyed an airplane installed near another.

More Names for War Draft. The quota of names for division 1, headquarters in the office of Dr. R. J. McLaughlin, has been 200. The names were sent out for additional men. There was no examination conducted today and there will be nothing doing until next Wednesday morning.

The next group of 66 will report for examination Wednesday morning at 9:30 o'clock and the examination will be repeated at 2:30 in the afternoon. On Thursday, 66 more men will be examined and on Friday the remaining number, 66, will be taken care of.

The second quota called for contains the following names:

201 2152-Tony Silver, 75 Summer. 202 2395-Geoffrey Edward Drury, 44 Ha. nks. 203 1306-Hovhannes Hagamapian, 441 Pleasant. 204 2124-William L. Muldoon, 125 Pleasant. 205 1873-William James Fahey, 800 Pleasant. 206 1887-Peter J. Lucas, 130 East Merrimack. 207 2707-Peter Paul McMillan, 1173 Lawrence. 208 238-Elmer Moffatt, 35 Lincoln. 209 2438-James Fred Nutter, 23 1/2 E. Merrimack. 210 2550-Henry Burroughs, 153 Moore. 211 3073-William Pickles, 33 Bell. 212 675-John E. Morris, 173 Tremont. 213 3015-Archie MacIntyre, 59 Corbett. 214 2122-Edward Francis Murphy, 50 Concord. 215 1709-Peter J. Mulligan, 784 Central. 216 1294-Kazimir Grinkevich, 45 Huron. 217 1145-Antony Commolonski, 104 Warren. 218 1847-Victor Chapand, 27 Rogers. 219 2555-John Joseph Clegg, 26 Damon. 220 1451-Unis Kasakos, 394 Central. 221 1308-Frank R. Bowman, 194 East Merrimack. 222 2017-Francis Higgins, 148 Pleasant. 223 2397-John Lys, 24 Stackpole. 224 343-Phelbo Joseph Roy, 22 Central. 225 2098-William Daniel Hallewood, 207 Concord. 226 2414-Thomas Paul McDermott, 90 Port Hill ave. 227 1613-Mohamed Zito, 373 Central. 228 2100-John J. Meenan, 151 Concord. 229 982-Edgar Lessard, 828 Bridge. 230 2467-George Offutt Robertson, 479 Andover. 231 726-Thomas A. 511 Bridge. 232 16-Francis A. Atkinson, 37 Kirk. 233 905-Francis L. Cunningham, 100 Beach, Me. 234 338-Krikor Gagolin, 73 Front. 235 3009-William F. McCaffrey, 77 Andover. 236 2413-Francis Cunningham, 904 Sun Blif. 237 1521-Mojan Shahn, 29 Tyler. 238 2861-John C. Fehre, 68 South Whipple. 239 3079-Leon W. Pratt, 27 Otis. 240 2015-Martin Flaherty, 40 Agawam. 241 2208-Romualda Sawlin, 24 Wall. 242 1285-Silvester F. Govey, 21 Tyler. 243 462-William R. Brown, 44 Sixth. 244 355-Geo. E. Sexton, 4 Goward's st. 245 1813-Fructosus Vasconcelos, 7 Ames. 246 530-Ernest Henry, 26 Madison. 247 809-Francis Smith, 123 Lakewood. 248 2579-Chas. W. Coxon, 508 Rogers. 249 1114-Garagos Borghesian, 57 Lawrence. 250 2526-John J. Baxter, 150 Agawam. 251 2507-Geo. C. Fairburn, 445 High. 252 2473-Chester M. Runcles, 318 Dover. 253 1470-Mannok Ozian, 403 Central. 254 515-Tallore Lebovick, 131 Payson. 255 2422-Edmund Gendreau, 42 Denton. 256 128-Dionecio G. Kouloheris, 316 Suffolk. 257 620-Victor Kleplick, 17 Spring. 258 1321-Manual G. Jardin, 4 Charles Moore. 259 3081-Danahue J. Racette, 203 Moore. 260 550-Michael George, 253 Third. 261 2123-Wm. A. Taylor, 165 Agawam. 262 1111-Norbert Sims, 58 Church. 263 544-Arthur C. Hall, 28 First.

TOM CAME NEAR BEING LEFT

money to be taken from the general treasury fund.

WASHINGTON, Aug. 10.—The patriotic response of the newspapers of the nation to the request of the department of agriculture that they publish a special series of articles giving instructions on the canning, drying and preserving of perishable food-stuffs, declared Secretary of Agriculture Houston today, "is bringing very gratifying results."

Here are extracts from a few of the hundreds of letters and telegrams received by the department of agriculture from newspapers which were asked to co-operate in the campaign:

The Lowell Sun—"Will be glad to publish anything you send and will do our utmost to co-operate with you in every way."

The New York Tribune—"Has been making very special efforts to create interest in canning. In Sunday editions. Glad to take it up in the daily."

The Globe (N. Y.)—"Already been carrying on campaign such as you suggest and willing to accept your suggestions as far as possible."

New York Herald—"Glad to receive articles on perishables and as another matter affecting the war will co-operate with government to extent of its ability."

New York Times—"We are in hearty sympathy with your proposed campaign. Will publish as many as possible with editorial exhortation that they may be studied and heeded."

The World (N. Y.)—"Naturally we want to do what we can to help."

New York Commercial—"Glad to give you such publicity as we can conscientiously."

Brooklyn Daily Eagle—"Have already devoted considerable space."

New Yorker Staats-Zeitung—"Entirely at department's disposal. Will have special writer take this matter up. Having articles translated properly into German. Will be very pleased to furnish maps or plates for use in other German language publications."

Philadelphia Evening Star—"Shall take great pleasure in co-operating with the department in every way possible."

Philadelphia Evening Ledger—"Heartily in favor of serving the nation through our columns in this way."

The Day: "The National Jewish Daily (N. Y.)—Have assigned reporter to conduct local campaign. Most glad to co-operate."

Brooklyn Standard Union—"Glad to give all possible co-operation."

Des Moines Register and Leader—"Will give us the greatest pleasure to co-operate to preserve perishable"

BUILDING HIT BY LIGHTNING

Lightning struck the two-story building at the corner of Middlesex and Grand streets, owned by Sam Rostler, at about 8:20 o'clock this morning causing one half of the roof, about forty feet square, to collapse and drop to the second floor. Owing to the heavy downpour of rain and the large amount of water which had collected on the roof before it collapsed, the stores on the ground floor were flooded with water.

The second floor, which is occupied by the Highland Daylight pool parlors and bowling alleys, is a wreck. Fortunately the accident did not happen at night or else a number of people would in all probability have been killed.

The extent of damage has not been estimated but will be large, while the damage done by water to the stores on the street floor will be no small item.

The building which is two stories high with a flat roof has a frontage of about 75 feet on Middlesex street and about 30 feet on Grand street and as previously stated the second floor is used for pool and bowling. On the street floor are Harry Gan, shoe repairer; Nathan Weisenberg, clothes cleaner; Thomas J. Fitzgerald, cigars and tobacco and John T. Murphy, barber.

Louis J. Lord, who is interested with Mr. Fitzgerald in the tobacco business and bowling and pool parlors, and his family, occupy a tenement on the Grand street side of the building and the lightning struck a shed in the rear of a room occupied by one of his children.

Mr. Lord left his apartment about 5:15 o'clock this morning to open the cigar store and had just entered the place when there was a flash of lightning then a roar of thunder and upon investigating Mr. Lord found that the lightning had struck one of the chimneys and that half of the roof had collapsed.

In a very short time the water from the street floor was telephoned to the fire department and the members of the protective company saved rubber covers over the goods in the stores and cleared out as much water as possible, but it proved to be a difficult task with the rain coming down in torrents.

Melrose, Lawrence, North Adams and Lowell.

While it was the original purpose of the commission to confine itself to the treatment of the persons paralyzed in 1916, only it was soon found necessary to care for those deformed by the disease prior to 1916. In all, 1114 individuals have been treated.

In 1916 there were reported to the state department of health 1915 cases of the disease. Of this number, 154 died. No paralysis resulted in 246 cases, and 303 were privately treated. There remained, therefore, 914 persons to be cared for by the commission. The commission had supplied treatment to 68 of this number and its field agents have visited 112 more. Therefore, only 74 persons in the state have not been reached to date.

All the treatment and advice has been given free of charge, as well as much apparatus. Transportation has been supplied in many instances by volunteer automobile drivers. The work of the commission will be maintained as long as the public contributions support the work and the children require treatment.

ENEMY STILL HOLDS ON—RENEWED ONSLAUGHTS—RELIEF IN SIGHT

Despite the terrible and continued charges of the insects on crops and the flank attacks of numberless plant diseases, there are reinforcements on the way, according to the Massachusetts committee on public safety. Announcement in made of the appointment some time ago of two men especially qualified to give practical advice on insect and plant disease ravages and means of prevention and control. These men who have their headquarters at 156 State House, Boston, are the right hand men of the local county agricultural agent.

In the short time they have been on the job, they have issued several practical bulletins and have sent out press notices on the prevalent insect and plant diseases troubles. Your county agent is a walking encyclopedia and a competent equipment handles our farm problems. But he has to be so general that he has little time to specialize in any one velvet.

So also are rotary clubs, women's clubs, bankers, and chambers of commerce in the twenty-four states involved.

1114 INFANTILE PARALYSIS VICTIMS GIVEN AFTER-CARE TREATMENT BY COM.

The Harvard infantile paralysis commission in co-operation with the Massachusetts state department of health has been engaged since November of last year in providing proper after-care treatment for the children left crippled by infantile paralysis. Clinics have been held for the children in and about Boston at the Children's hospital and at the Massachusetts General hospital. In addition clinics have been held throughout the state at the following places: Newburyport, Springfield, Quincy, Lynn, Beverly, Greenfield, Worcester, Malden,

Sammy may like to sing "There'll Be a Hot Time in the Old Town Tonight," but in weather such as most of the country has been suffering from recently he much prefer a cool time. And to give him a cool time the government is installing in the army

ICE FOR OUR SOLDIER BOYS IN CAMP

That is where these two men come in. Any of your interest in plant problems that cannot be answered directly by your county agent should be sent to either Mr. Melrose, plant disease specialist, or Charles W. Curtis, insect control specialist. Their services are free and are to be had upon call.

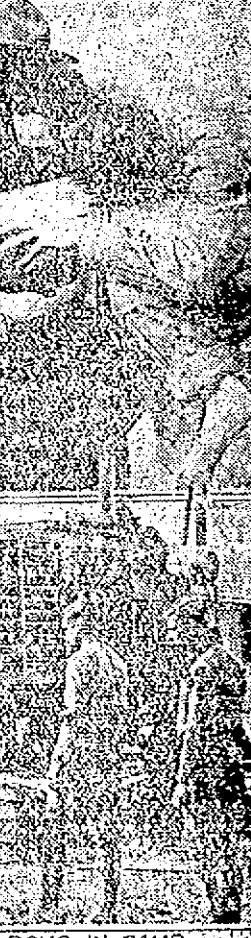

TODAY'S FASHION HINTS

Worn with a skirt of navy blue serge is this swagger little jacket of gray serge closed with frogs of military braid and brass buttons. The ship's turban indicates another arm of the service.

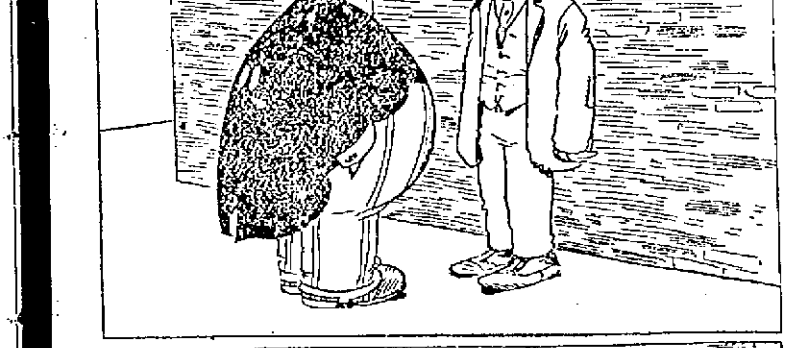

Navy blue will serge, cut with an odd bodice, securely buttoned and stopped down, drapes well in this unusual skirt. The swagger hat, mostly pompadour, is covered otherwise with blue little time to specialize in any one velvet.

"SOLDIERS AND SAILORS' DAY" BIG EVENT

The plans for the big military celebration for Lowell's young men who are now in the various branches of the national service are developing rapidly and there is little doubt but what next Thursday will be a gala day in Lowell military circles—and outside, too.

Major O'Donnell and the executive committee of the public safety committee yesterday got in touch with Col. Howe of Battery F's regiment and Col. Logan of the Ninth regiment of which Co. H of Lowell is a unit. Although no definite agreements were reached, it is expected that the officers will give their consent to have the Lowell companies come home for the celebration.

At a conference of the public safety committee held yesterday afternoon it was decided to request the mayor to ask the municipal council for an appropriation which would defray the main expenses of the celebration.

PACIFISTS WANT REPEAL OF DRAFT LAW

WASHINGTON, Aug. 10.—Pacifists held a meeting under the dome of the capitol yesterday, demanding that congress stay in session until it had repealed the draft law, and voiced

be before 3 o'clock. The program for the day has been left in the hands of a committee consisting of Mayor O'Donnell and Major Colby T. Kittredge. The parade is expected to start about 3.30 and will cover the downtown streets. At the conclusion of the parade military movements by the various units will be demonstrated on the South common and these will include Butts' manual drill company of the Sixth, dress parade and the review of all the companies present.

In the evening a supper will be served at the parade law way and for the soldiers of the Sixth regiment and in the Kasino for the other units. It is probable that the mayor and other prominent officials will address the mass and express the sentiments of Lowell at the departure of her fighting men.

Those present in charge of the celebration voted to ask that the factories and mills of the city be shut down at 3 o'clock in order that every body will have an opportunity to participate in the celebration. All in all, the day should be a notable one. Enthusiasm has marked the project from its very inception. An effort will be made to have as many men in the naval service present as can be reached and there is a real "Lowell Soldiers' and Sailors' day."

Threats of an attempt to impeach President Wilson unless that was done, Senators and congressmen, invited to attend the meeting, under the auspices of the "people's council of America for democracy and peace," dropped into the room and then dropped out again as the speeches proceeded.

The meeting was held in the senate military committee room, where a few weeks ago the draft law was drawn and perfected. Now the meeting came to be held there developed considerable feeling among senators.

THREE SHOT IN STRIKE RIOTS IN LIMA, OHIO

LIMA, O., Aug. 10.—Rioting broke out in the street car strike here late yesterday. Three men were shot in a clash between strike sympathizers and armed guards on the city cars of the Ohio Electric Railway Co. Police dispersed a crowd of more than a thousand persons gathered in the vicinity of the Interurban depot.

Trouble started on the public square when E. K. Stroup, striking carman, attempted to board a car manned by strikebreakers and two guards. Charles Crider, aged 34 years, motor-man of the car, is said to have shot Stroup, thinking he meant to attack the conductor. Stroup may die. A mob of more than 1000 persons pursued the car a block and a half east to the Interurban station. There two westbound city cars were met and all three stalled by the crowd. The six men of the crowd and six armed guards made dash for the Interurban building, 100 feet away. The mob blocked the way and the men began shooting.

Leonard Short, striker, fell with a bullet in his abdomen and Charles Morrison, another striker was hit in the hip. Short is expected to die. Four riot calls and a fire alarm brought police and firemen to the scene.

The mob attempted to burn one of the cars, but the department extinguished the flames. Crider, the motorman who, the police say, fired the first shot, was arrested on complaint of Clarence Downhour, a striker charged with shooting with intent to kill. A bullet pierced Downhour's coat.

Six strikers and sympathizers were arrested, charged with attempting to burn the car and with cutting trolley ropes.

Crowds gathered in the square last night, but there was no further trouble.

MEMORIAL TABLET TO THE MEMORY OF JOHN BOYLE O'REILLY UNVEILED

HULL, Aug. 10.—A memorial tablet to the memory of John Boyle O'Reilly was unveiled today at the public library building here, which for 20 years was the home of the poet. The exercises were held in connection with the annual field day of the Massachusetts Historical society. The ceremony included a presentation address by William T. A. Fitzgerald, president of the chapter, and the unveiling by Miss Mary Boyle O'Reilly, daughter of the poet.

Seaweeds obtain their nourishment from the water in which they grow, not from the ground in which they may be rooted.

MASS. FIELD ARTILLERY GIVEN FIRST NUMBERS

BOSTON, Aug. 10.—The Massachusetts Field Artillery, which is now in camp at East Bedford, and federalized, will be the first selection of the new army units, in recognition of its efficiency. The brigade is commanded by Col. John St. Shorburn and the 1st regiment will be the first National Guard unit on the new list, with the designation, 101st field artillery. The 2d regiment will be the 102d field artillery.

At an early hour yesterday morning, while the air was yet cool, a detachment of the artillery started from the commonwealth armory for a trip over the road with the 2d new horses which were accepted for them by the United States army officers.

555,000 DRESSINGS SENT TO HOSPITALS FOR RELIEF OF WOUNDED IN MONTHS

BOSTON, Aug. 10.—The surgical dressings committee sent abroad to various hospitals for the relief of the allied wounded during the month of July 555,000 dressings, a new monthly record. The dressings, sterilized in the hospitals and forwarded in sealed tins, are being sent to hospitals all the way from England to Saloniki.

OKLAHOMA CAR OPEN ALL DAY, SUNDAY

Owing to the intense interest shown and by request of many who are anxious to pass the word to their friends, and relatives, giving them an opportunity to visit the Oklahoma exhibit car, the management has decided to have the car remain over Sunday and it will be open all day Sunday. The land is sold directly by the government and the car is here to acquaint Lowell people with Uncle Sam's marvelous bargain sale. No land is sold upon the car.

All are invited to visit the car and look over the extensive display of agricultural and mineral products and for those interested all maps and data will be sent them. The car is located at Dutton and Fletcher streets and Western ave.

BOSTON TUNNEL FLOODED BY RAINS

BOSTON, Aug. 10.—A tremendous downpour of rain flooded streets and cellars here today and caused a temporary suspension of service in the Washington street tunnel of the Boston elevated railway. Starting with a thunder shower about 4 o'clock this morning, the rain fell in torrents almost continuously for four hours and at 10 a. m. was still falling. Although farms and gardens in Massachusetts had been suffering from the drought until the inch of rain which came yesterday, it is feared that crops will sustain considerable damage from the violence of today's storm.

Weather bureau records showed a total rain-fall of 2.56 in Boston between 4 and 9 o'clock today when the downpour ceased. In the 24 hour period ending at 9 a. m. the total precipitation was 4.65, the heaviest since August, 1915. Steam and electric railway service was delayed and much crop and garden damage reported.

"CAN ALL YOU CAN" AND "EAT ALL YOU CAN'T EAT"

WASHINGTON, "Eat all you can," was the suggestion made today by the department of agriculture, which is conducting an emergency educational campaign for the conservation of perishable fruits and vegetables.

"Can all you can," has been the slogan of the department of agriculture for some months, but now, with an unusual quantity of fruits and vegetables in Massachusetts, the department is pointing out that the housewife might well vary her menus by devising dishes composed in large part of fruits and vegetables which will not keep.

"Canning is hot work at best," declared a canning expert of the department today. "and during such hot weather as we have been having of late it is sometimes too much to expect the housewife, in addition to her regular duties to spend several hours a day in the kitchen putting up food for the winter. While it is imperative that as much food as possible should be put up in tins or glass jars or else dried and properly stored, it is nevertheless well to bear in mind that by varying the diet much food which would otherwise be lost can be made to sustain life."

The department has just issued a bulletin (Farmers' Bulletin 871), free on application, showing that peas, beans and similar legumes are useful as meat savers; that potatoes, sweet potatoes and similar vegetables are useful as starch savers; that fruits and sweet potatoes are possible sugar savers; and that all fruits and grains to supply the diet with mineral substances and certain substances essential to health and which are present in minute quantities.

Directions for preparing fresh vegetables and fruits are published in the above-named bulletin. Farmers' Bulletin 255, entitled "Preparation of Vegetables for the Table," and Farmers' Bulletin 712, entitled "School Lunches," also give directions for preparing these vegetables.

Housewives of this city now look forward to Friday Boyle's tips on cooking and culinary art which appear each week in the Sunday Supplement of The Sun, published each Saturday.

DIPHTHERIA HERE ALARMS STATE BOARD

Special to The Sun

STATE HOUSE, Boston, Aug. 10.—Lowell's outbreak of diphtheria is causing some concern in the state department of health, the latest bulletin of the department, issued today, stating that "no source has been found to account for the continued prevalence" of the disease. During June, 59 cases were reported, as compared with 47 for the preceding month. Another disturbing feature is the fact that the cases are scattered in all sections of the city.

Only nine municipalities in the state reported for the month of June more cases than they have averaged per month during the past five years. Lowell leading the list of those so reporting. Springfield had 53 cases, against an average of 5; Andover had 27, the average being 4; Melrose had 11, the average being 4; Somerville, 22, with an average of 12; Waltham, 10, with an average of two; Fitchburg, 14, with an average of 5; Gardner, 11, with an average of 0.

Health conditions throughout the state showed a distinct improvement during June, the total number of cases of communicable diseases reported for that month being 10,241, a decrease of more than 1000 cases as compared with May. The number was nearly 3000 more than for June 1916, however.

The diseases showing an increase over the May figures were typhoid fever, pulmonary tuberculosis, cere-

brospinal meningitis and poliomyelitis, while anthrax shows for the first six months of the year a number of cases higher than ever before in the history of the state. 30. Of these, nine cases were reported in June. Six of the 30 cases were fatal.

Twenty-six cases of cerebrospinal meningitis were reported during June, this being a considerable increase over the number reported in that month in previous years. For the first six months the number of cases reported for the whole state was 112, as compared with 88 in 1916. For several months this disease has been unusually prevalent in and about the cities of Boston, Lowell and Pittsfield. During June Springfield and Chicopee also reported an unusually large number of cases.

Poliomyelitis remained fairly well distributed throughout the state, seven communities reporting 15 cases during the month. Haverhill, where five cases were reported, presented the only unusual incidence.

Character Is The Basis of Credit

Until the Morris Plan Companies were established there was no financial institution where people of moderate means, but without commercial rating, could obtain a bank loan on the basis of character and earning power.

The commercial bank is not adapted to the making of small loans based on the borrower's character. But the wage-earner and

salaried man, and the small tradesman may have a legitimate need of credit—a need as soundly economic as that of the merchant and manufacturer.

Morris Plan Companies—now established in 70 cities—are organized to meet this need of industrial loans, made on a business basis.

To borrow at a Morris Plan Company all you need is good character, earning ability, and standing among your friends.

It is this company's business to loan money to people whom the commercial banking system cannot accommodate.

We loan money for any legitimate purpose. Call and have the plan properly explained.

JOHN STREET PUBLIC MARKET

30 JOHN STREET J. P. Curley, Prop.
Telephone 2627—2628

JOHN M. FARRELL, Auctioneer
OFFICE, 162 MARKET ST., LOWELL, MASS.

SATURDAY, AUG. 11th, AT 3 P. M.

At No. 112-114 Butterfield St., Lowell, Mass.
BY VIRTUE OF A LICENSE GRANTED BY THE PROBATE COURT, I SHALL SELL AT PUBLIC AUCTION THE 2 1/2 STORY, 2-TENEMENT HOUSE AND 4135 SQUARE FEET OF LAND OF THE LATE CATHERINE BOLAND, SITUATED AT 112-114 BUTTERFIELD ST.

The downstairs tenement has five rooms, pantry and toilet. The upstairs tenement has five rooms, pantry and bathroom. Each tenement has city water, gas, separate cellars and separate front and back entrances. There is a large yard which gives plenty of room about the house for light and air. There are shrub trees in front of the house. Butterfield street is a good residential street, where tenements are never idle. This property would be a good investment for anyone. The house is in good repair inside and out and will be sold to the highest bidder.

Terms of sale: \$300 deposit must be paid at time and place of sale. Other terms at sale.

Per order, FRANCIS J. MCCARTHY, Executor.

SATURDAY, AUG. 11th, AT 4 P. M.
At 73 Totman Ave., Lowell, Mass.

I SHALL SELL AT PUBLIC AUCTION TO THE PERSON THAT WILL BID THE HIGHEST A VERY DESIRABLE COTTAGE HOUSE AND 4000 SQUARE FEET OF LAND, MORE OR LESS, AT 73 TOTMAN AVE., LOWELL, MASS.

The cottage is 2 1/2 story, has eight rooms, pantry and bathroom, large piazza on front and side, has furnace heat, city water and gas, and is piped for hot and cold water. There is a garage in the street. This place would make a snug home for a family wishing to be far enough out of the city to enjoy the country and still be near the car line.

Come and look it over and attend the sale. The house is not occupied at present, as the owner has just moved to another part of the city, and would not rent it because he had made up his mind to sell.

Terms of sale: \$300 must be paid at time and place of sale. Other terms at sale.

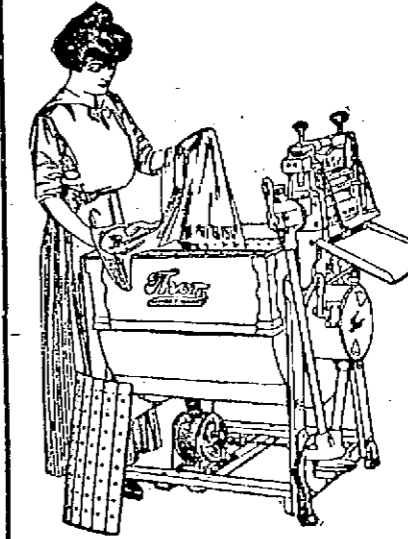

Per order, JOHN GAYNOR.

FARMERS, TAKE NOTICE

If you have any FRESH KILLED POULTRY for sale, bring it to the JOHN STREET PUBLIC MARKET and we will give you full market price in cash for same. Must be A No. 1 goods.

J. P. CURLEY, Proprietor.

Clothes Last

SIX TIMES LONGER

Longer

Proved by actual test: Clothes DO last six times longer when they are washed in the "Thor" Electric Washing Machine than when they are washed by hand.

Rubbing your fine handkerchiefs on a hard, rough surface is what makes holes come. Rubbing causes those thin places in your linen. The linen of wash cloths and napkins never was made to be rubbed on the wash-board. Linen never should be rubbed.

There is no rubbing with the "THOR" Electric Washing Machine. That is why clothes last six times longer. You needn't take our word. Take the word of users. The saving alone in your clothes will pay for the "THOR"—and besides you will be freed from wash day drudgery.

Telephone 821 for Free Demonstration

THE-LOWELL ELECTRIC LIGHT CORP.

29-31 Market Street

SIMON B. HARRIS, Auctioneer
Office, Room 4, Central Block, Lowell, Mass.

Tomorrow, Saturday, August 11, 1917, at 3 o'clock, P. M.

WE WILL SELL AT

PUBLIC AUCTION

On the premises, the following described real estate, situated in Billerica, a short distance north of the Boston Hall railway station, B. & M. R. R. on the western side of the road leading from Lowell to Boston, at Brown's corner. Electric railroad right there, within the town water district, and a very desirable neighborhood.

Consisting of a tract of land containing 21 acres of tillage and woodland. Extending from the main highway to the river front, where camp sites on said highway and more than 1300 on the river front, well adapted for bathing purposes, surrounded by attractive, shady groves. Bordering on the river are the following buildings:

Cottage of seven rooms ready for plastering, another building, 25 ft.x35 ft., cellars under both. This last building can be converted into a bungalow, cellar house, poultry house. Large shady trees in front of this camp. If lots bordering on the river were placed on the market they would find ready purchasers. On the opposite side of the river are more than 20 camps now occupied. There is quite an apple orchard on the place and stately oaks embellish the front on the highways.

Now then, real estate in this locality, between Lowell and Boston, for sale has become scarce and seldom on the market, and becoming more so. A most desirable piece of real estate when taking into account the opportunities to farm profitably, to use for recreation as a summer home, or for improvements. Steam cars, electric railroads and water at your door at the front, and splendid location on old Concord river at the rear, where for many miles boating may be enjoyed, make this place attractive.

Look the property over, attend the sale and secure a choice piece of real estate at auction.

Terms: The hundred dollars (\$100) to be paid to the auctioneer when property is struck off. Other terms made known at the time and place of sale.

Per order of W. D. RING, Attorney for the Owner.
